Whistleblower Protection

Did you know...

Every person working on Recovery Act funded projects has whistleblower protection?

Whistleblower Protection

Whistleblower Protection – Recovery Act

The Recovery Act provides explicit protections for ***nonfederal whistleblowers***. These protections apply to all contractor and grantee staff working on Recovery Act awards. The Act prohibits funding recipients from discharging, demoting or discriminating against any employee for disclosing any concern to their supervisor, the head of a federal agency or his/her representatives, or the OIG information that the employee believes is evidence of:

- ✓ Gross mismanagement or waste of grant or contract funds.
- ✓ Danger to public health or safety related to the use of funds.
- ✓ Abuse of authority related to the implementation or use of funds.
- ✓ Violation of law, rule or regulation related to an agency contract or grant awarded or issued related to funds.

Whistleblower Protection

Whistleblower Protection – OIG Responsibilities

- Investigate all whistleblower complaints related to Recovery Act funds that are not frivolous or being addressed by another official proceeding.
- Report of our findings to the complainant, complainant's employer, head of DOC and the Recovery Accountability and Transparency Board within 180 days (extensions may be applied for).
- Provide a written explanation to complainants and their employers if we decline to pursue a whistleblower allegation.

Whistleblower Protection

Whistleblower Protection – OIG Responsibilities
