

Public Notice Submission

Provider Name: Benton Cooperative Telephone Company

Summary: Benton Cooperative Telephone Company demonstrates that it provides broadband service within the census tracts listed herein. All communities and subscribers within Benton's service area within the listed census tracts have access to adequate and affordable middle mile transport facilities as well as last mile broadband service. Benton Cooperative Telephone Company is currently providing High Speed Internet to all of our exchange areas. Of the existing establishments in each of our exchange areas, all of them are capable of receiving broadband service access in speeds of at least 768kbps down. Benton Telephone had made a commitment to offer DSL high speed internet services to all of our service areas, approximately five years ago. We are currently advertising and are able to provide speeds ranging from 768k up to 5.0Mbps for both our residential and our business customers.
