

QUARTERLY PERFORMANCE PROGRESS REPORT FOR SUSTAINABLE BROADBAND ADOPTION

General Information		
1. Federal Agency and Organizational Element to Which Report is Submitted Department of Commerce, National Telecommunications and Information Administration	2. Award Identification Number 01-43-B10577	3. DUNS Number 062620604
4. Recipient Organization Economic and Community Affairs, Alabama Department of 401 Adams Ave, Montgomery, AL 361044325		
5. Current Reporting Period End Date (MM/DD/YYYY) 09-30-2013	6. Is this the last Report of the Award Period? <input checked="" type="radio"/> Yes <input type="radio"/> No	
7. Certification: I certify to the best of my knowledge and belief that this report is correct and complete for performance of activities for the purposes set forth in the award documents.		
7a. Typed or Printed Name and Title of Certifying Official Wendy Hester	7c. Telephone (area code, number and extension) 334-353-3431	
	7d. Email Address Wendy.Hester@adeca.alabama.gov	
7b. Signature of Certifying Official Submitted Electronically	7e. Date Report Submitted (MM/DD/YYYY): 11-26-2013	

Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

The Economic and Community Development Institute (ECDI) and the Alabama Institute of Deaf and Blind (AIDB) conducted classes throughout the State in an effort to reach as many participants as time allowed. Populations identified in the application were targeted and served as priority participants. The Statewide Broadband Summit was held on July 25 with an audience participation of eighty-five individuals representing various industries, i.e. health care, education, government and non-profits. Although the final quarter was not a complete three month period, a significant number of modules were presented with adequate attendance.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	Overall Project	100	The Alabama Department of Economic and Community Affairs (ADECA), Economic and Community Development Institute (ECDI), and the Alabama Institute of Deaf and Blind (AIDB) work tirelessly during the last quarter of this project to deliver the training modules developed during the project to as many participants as possible. Over one hundred classes were presented, to include the presentations at the Statewide Summit, to a diverse audience throughout the State. This brought our total number to approximately three hundred fifty presentations Statewide during the project period. County Extension Coordinators (CECs) and other partners made efforts to reach all of our target populations to increase both awareness and demand. Over four thousand training manuals were distributed to participants for future reference. Training emphasized the social and economic benefits as well as the practical applications of broadband technology.
2.b.	Equipment / Supply Purchases	-	Progress reported in Question 4 below
2.c.	Awareness Campaigns	-	Progress reported in Question 4 below
2.d.	Outreach Activities	-	Progress reported in Question 4 below
2.e.	Training Programs	-	Progress reported in Question 4 below
2.f.	Other (please specify):	-	Progress reported in Question 4 below

3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

The final quarter of the project was not a complete quarter; however, significant progress was achieved. The Economic Development Institute (ECDI) made numerous presentations to a Statewide audience filled with participants from many professional fields. The County Extension Coordinators from the ECDI have committed to continue to present the modules developed during the grant assistance period. Many from the education field have also committed to use the training manuals in the current year.

4a. In the chart below, please provide the requested information on your BTOP grant-funded SBA activities. Please also provide a short description of the activity (600 words or less). Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please ensure that the numbers of new household subscribers and business or community anchor institution (CAI) subscribers reflected in the "Total" row represent the unduplicated number of new subscribers that can be attributed to your SBA project as a whole.

Name of the SBA Activity	Location of SBA Activity	Description of Activity (600 words or less)	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAIs

Name of the SBA Activity	Location of SBA Activity	Description of Activity (600 words or less)	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAIs

4b. Please describe your method for determining the number of households, businesses, and/or (CAIs) subscribing to broadband as a result of your SBA programs (600 words or less).

We anticipate determining the additional number of household, business, and/or CAI subscriptions by following the exact methodology proposed in our grant application. Where we have shown anticipated subscription numbers, they are based on results from a survey instrument completed by training participants.

At the beginning of the project, it was determined that 61.7% of Alabamians were broadband subscribers. We anticipate that, based on recent trends and project activity investments, subscribership will increase to 70%.Increases will be monitored through a combination of surveys used after training module sessions, and a follow-up survey with Economic and Community Development Institute (ECDI)/Extension program participants. Economic Modeling Software, Inc.(EMSI) Strategic Advantage input-output modeling software, will be used by ECDI to project total gains and losses in jobs, sales, and earnings due to changes in the broadband industry These evaluations will be done at the county, regional and statewide level. In order to measure our target audience's awareness of advantages and potential applications of broadband, we will work with project partners/ supporters to measure awareness before the campaign is launched and measure it again near the end of the project. Increases in visits to the Connecting Alabama website will be monitored and will be referenced in marketing campaigns.

It is still our intent to verify measurements through the use of Federal and state data sources and broadband industry trends and forecasts as input into ECDI's EMSI software.

The Alabama Department of Economic and Community Affairs (ADECA) has initiated new leadership in the Broadband program. ADECA is working with the Federal Program Officer and with the Statewide Partners to ensure that accurate data is captured and reported. This is an ongoing process - Governor Robert Bentley appointed a Secretary of Information Technology on April 15, 2013. The Secretary is familiarizing himself with this program and may offer additional information that could be of assistance during the closeout phase of the project.

4c. Please provide a narrative explanation if the total number of new subscribers is different from the targets provided in your baseline plan (600 words or less).

N/A

4d. Please provide the number of households and the number of businesses and CAIs receiving discounted broadband service as result of BTOP funds.

Households: 0

Businesses and CAIs : 0

Project Indicators (Next Quarter)

1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less).

N/A - This is the final report.

2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	Overall Project	100	Not Applicable for Final Report.

2.b.	Equipment Purchases	-	Milestone Data Not Required
2.c.	Awareness Campaigns	-	Milestone Data Not Required
2.d.	Outreach Activities	-	Milestone Data Not Required
2.e.	Training Programs	-	Milestone Data Not Required
2.f.	Other (please specify):	-	Milestone Data Not Required

3. Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

N/A - This is the final report.

Sustainable Broadband Adoption Budget Execution Details

Activity Based Expenditures (Sustainable Broadband Adoption)

1. Please provide details below on your total budget, cumulative actual expenditures (for the period ending the current quarter), and cumulative anticipated expenditures (for the period ending next quarter) for each line item, including detailed disbursements of both matching funds and federal funds from project inception through end of this quarter (actual) or next quarter (anticipated). Actual and anticipated figures should be reported cumulatively from award inception to the end of the applicable reporting quarter.

Budget for Entire Project				Actuals from Project Inception through End of Current Reporting Period			Anticipated Actuals from Project Inception through End of Next Reporting Period		
Cost Classification	Total Cost (plan)	Matching Funds (plan)	Federal Funds (plan)	Total Cost	Matching Funds	Federal Funds	Total Costs	Matching Funds	Federal Funds
a. Personnel	\$8,826	\$0	\$8,826	\$10,816	\$0	\$10,816	\$10,816	\$0	\$10,816
