U.S. DEPARTMENT OF COMMERCE					2. Award Or Grant Number 30-50-M09049					
Performance Progress Report						4. Report Date (MM/DD/YYYY) 04-23-2012				
1. Recipient Name MONTANA DEPARTMENT OF COMMERCE								6. Designated Entity On Behalf Of: N/A		
3. Street Address 301 South Park Avenue, P.O. Box 200501,								9. Report Frequency Quarterly		
5. City, State, Zip Code Helena, MT 59601-6282						No		 ○ Semi Annual ○ Annual ○ Final 		
	7. Project / Grant Period 7a. 7b. Start Date: (MM/DD/YYYY) End Date: (MM/DD/YYYY) Reporting Period End Date:				:	9a. If Other, please describe: N/A				
10. Broadband	Mapping		10a. Provider Table	<u> </u>						
Number of Providers Identified					te Data Sets Data Sets Verified					
0	0		0		0	0		0		
10b. Are you submitting the required PROVIDER DATA by using the Excel spreadsheet provided by the SBDD grants office? Yes No 10c. Have you encountered challenges with any providers that indicate they may refuse to participate in this project? Yes No 10d. If so, describe the discussions to date with each of these providers and the current status Montana's Constitution imposes unique and extraordinary challenges on companies that wish to protect their confidential and proprietary information from disclosure with State Government. The public's right to know is protected by the Montana Constitution, and this right has been strengthened and delineated by the Montana Supreme Court. The Department's NDA and Affidavit comport very specifically to this right – placing the burden on the owner of the confidential information to specify what documents should be kept from public view. Because of this process the State has had no success in getting any signed NDA's. Despite having no NDA's signed, a significant number of providers, including most the large ones, have provided some data without an NDA. 10e. If you are collecting data through other means (e.g. data extraction, extrapolation, etc), please describe your progress to date and the relevant activities to be undertaken in the future Montana has taken on a vast array of alternatives to collect data by other means and has been successful in collecting the data via alternative measures Here is a list of the data sources we have used: • Commercial data providers - infrastructure • Convide sourced - infrastructure and coverage • Provider web sites - infrastructure and coverage • Provider web sites - infrastructure and coverage										
In addition to the above efforts added field verification & improved propagation models will also be done. Started in Q1 of year 2012 beginning site visits to providers to help with validation and verification. 10f. Please describe the verification activities you plan to implement We have developed a system to quantify "validated" data for the purpose of determining what is suitable for delivery to NTIA. The operational data model maintains reliability and validity codes, together with completeness checks to track which data elements are complete or still in process of refinement. Infrastructure is compared to public data, independent measurements, and telecommunications provider submittals at varying levels of geography. As more data is obtained from providers and systematically checked against infrastructure points, the reliability and validity progress along the spectrum from 1 (not validated or reliable) to 10 (validated and reliable). Completeness is primarily dependent on provider input, and can be supplemented in many instances with independent measurements. The process is iterative. Our validation methods provides the ability to use general information and iteratively cross check and improve the coverage models as more accurate data is obtained.										

10g. Have you initiated verification activities? •Yes ONo 10h. If yes, please describe the status of your activities Verification has been completed for all data submitted to NTIA 10i. If verification activities have not been initiated please provide a projected time line for beginning and completing such activities N/A Staffing 10j. How many jobs have been created or retained as a result of this project? 5.84 10k. Is the project currently fully staffed? (Yes •No 10I. If no, please explain how any lack of staffing may impact the project's time line and when the project will be fully staffed There is a 1 FTE position available for Capacity Building that is estimated to be filled in year 3 as that part of the program begins. 10m. When fully staffed, how many full-time equivalent (FTE) jobs do you expect to create or retain as a result of this project? 4.0 10n. 10u. Has the project team purchased the software / hardware described in the application? (Yes
No 10v. If yes, please list N/A 10w. Please note any software / hardware that has yet to be purchased and explain why it has not been purchased N/A 10x. Has the project team purchased or used any data sets? Yes No 10y. If yes, please list N/A 10z. Are there any additional project milestones or information that has not been included? (Yes (No 10aa. If yes, please list N/A 10bb. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing State does not have any NDAs with providers due to Montana's open records laws. This poses challenges and obstacles getting accurate data at a detail level. To mitigate this, the state is using a gradient scale for validation/authentication of provider data that is obtained. Future efforts will also go into continual efforts to refine current tools; to utilize public data and validation through these refined measures; as well as continue efforts to work with providers to validate data. 10cc. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project N/A 11. Broadband Planning 11a. Please describe progress made against all goals, objectives, and milestones detailed in the approved Project Plan. Be sure to include a description of each major activity / milestone that you plan to complete and your current status * Coordinating with State Library promoting Montana Anchor Institutions, specifically Libraries as a source for broadband access. Planning for fall event that will showcase both grants and the importance of Community Anchors. * RFP write-up for Tribal Facilitator completed. Out to bid in Q2 2012. One tribal summit and several regional tribal meetings have been proposed. * Tribal Telcom meeting with Tribal leaders and the FCC office of Native Affairs Program. Meeting covered FCC issues and USDA funding opportunities for Tribes. Discussions on importance of broadband to Tribal communities * Enhanced/updated website to support interactive functionality (database) to allow for online polling and surveys. * Analyzed results and completed initial survey summary document. Additional analysis and review of the data will continue in Q2 2012 to look at correlations with other market data information. * Planning for summer broadband speed test data collection initiative. Developing strategy to encourage citizens to take online speedtest to update our dataset which is used to enhance/improve mapping. *Completed field collection of mobile broadband and connectivity across Montana. All major and secondary highways in Montana were driven for mobile broadband and connectivity. Data analysis will be completed in Q2. Broadband Address File Improvement: • Visited with seven counties: Carter, Liberty, Phillips, Powder River, Prairie, Rosebud (on behalf of Treasure) and Wibaux and two tribal reservations (Fort Belknap and the Northern Chevenne). Visited four additional counties because of proximity. Most of the visits likely wouldn't have occurred without the travel to neighboring counties. Expect to see some results in address data from these additional counties. Have Statement of Work with eight counties/tribes. Obtained new address datasets from three providers: Fort Belknap, Liberty and Powder River Performance Progress Report PPR, Page 4 of 7 OMB Approval Number: 0660-0034 Expiration Date: 12/31/2013 11b. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

N/A

11c. Does the Project Team anticipate any changes to the project plan for Broadband Planning?	Yes	No
---	-----	----

11d. If yes, please describe these anticipated changes. Please note that NTIA will need to approve changes to the Project Plan before they can be implemented

N/A

Additional Planning Information

11j. Are there any additional project milestones or information that has not been included?

N/A

11k. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the Project Team is employing

N/A

11I. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project

* The state has not drawn down the initial 50% of the grant largely due to the fact that the state was spending at over 100% greater rate of match than required by the grant. The state had to escalate it's percentage of match early in the grant because of state obligations tied to the State cash match. Because of this practice the spending ratio has not been 80/20, however going forward, that spending will be more in-line with the proper ratio spending and the ratio spending will continue to move closer to the proper 80/20 ratio.

* Budget Worksheet 10t the amount entered for line item Materials/Supplies under column Matching Funds Expended is \$9,319 exceeding the associated Match Funds Budget entry by \$1,319. This is accountable to a higher expense than estimated (budgeted) for computer software/hardware which was used to assist in the mapping/data verification and broadband outreach meeting efforts.

12. Certification: I certify to the best of my knowledge and belief that this report is correct and complete for performance of activities for the purpose set forth in the award documents.					
12a. Typed or Printed Name and Title of Authorized Certifying Official	12c. Telephone (area code, number, and extension)				
Chad Hultin	(406) 841-2875				
Broadband Mapping Program Mgr.	12d. Email Address
