10u. Has the project team purchased the software / hardware described in the application? (Yes 
No 10v. If yes, please list N/A 10w. Please note any software / hardware that has yet to be purchased and explain why it has not been purchased N/A 10x. Has the project team purchased or used any data sets? Yes No 10y. If yes, please list N/A 10z. Are there any additional project milestones or information that has not been included? (Yes (No 10aa. If yes, please list N/A 10bb. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing State does not have any NDAs with providers due to Montana's open records laws. This poses challenges and obstacles getting accurate data at a detail level. To mitigate this, the state is using a gradient scale for validation/authentication of provider data that is obtained. Future efforts will also go into continual efforts to refine current tools; to utilize public data and validation through these refined measures; as well as continue efforts to work with providers to validate data. 10cc. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project N/A 11. Broadband Planning 11a. Please describe progress made against all goals, objectives, and milestones detailed in the approved Project Plan. Be sure to include a description of each major activity / milestone that you plan to complete and your current status Preliminary planning meetings underway with both public and private entities. Discussions have focused on goals and objectives of the planning efforts and who the preliminary stakeholders may be and options available. Discussions have begun on the development of Montana Broadband Task Force, whom should be involved, considered etc.

 \* Small Business Case Study - outlining small businesses across Montana that use Broadband to successfully operate - 60% complete \* RFP completed and public scoring finished for State Facilitator to travel the state in structured workshops/meetings with CRDCs to assess broadband levels of adoption across state. Public meeting will be scheduled for Q3 2011.

\* WEbinar with CRDCs. Discussion/planning on developing workshop planning for 10 regions in the state.

\* Continued meetings and discussions for Tribal Facilitator to allow for a more specialized approach to address the 7 tribal nations in Montana. Review protocol.

\* Meeting with the Montana Independent Telco Systems general manager to discuss broadband outreach meetings.

\* Montana Broadband website under development expected to be live in Q3 2011.

\* Participated in Native American Development Corporation summit to help incorporate/educate some broadband discussions and promote speed test participation.

\* Attending conference in Texas for SBDD grantees and further develop best practices.

\* Began Survey Development Planning

11b. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

Program has started communications with some tribal officials and will continue these efforts going forward to begin building the relationships needed with the Tribal Nations in Montana so that we can have successful outcomes with them going forward. We are very optimistic that we will get a good working relationship established that will help greatly moving forward.

11c. Does the Project Team anticipate any changes to the project plan for Broadband Planning? (Yes • No

11d. If yes, please describe these anticipated changes. Please note that NTIA will need to approve changes to the Project Plan before they can be implemented

## Additional Planning Information

11j. Are there any additional project milestones or information that has not been included?

In addition to the workshops/meetings that the Broadband program will be doing with the CRDCs, and in addition to the very large statistically significant survey we are developing for deployment, we are looking at adding several components to our website, such as speed test results, and citizen opinions, all mapped geographically. If are looking for a Q3 - Q4 2011 time frame.

11k. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the Project Team is employing

The summer/fall is a big time for Tribal Festivals in Montana and so we have decided to slow our efforts slightly in the Tribal efforts in order to respect the cultural importance of this time of year for the Tribes. We expect to resume at full speed after their festivals.

11I. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project
