Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

The program exceeded the grant target of 4600 users served per week, peaking at over 5000 users served during the last week of June. Eight summer positions were filled in order to extend summer hours of operation for 22 sites. Internal development of an online curriculum server was undertaken. Activities in Q2 included the filling of 8 new summer positions that will serve as Technology Trainers. As a result, summer hours of operation were extended for 22 sites. All 29 PCC's were operational as outlined within the original grant. Social media networking development continues with Facebook and Twitter.

OMB CONTROL NUMBER: 0660-0037 EXPIRATION DATE: 12/31/2013

Staff development of an online curriculum server was undertaken to allow participants an array of courses to engage in online training. Outreach activities resulted in seminars held within the PCC's using technology awareness on Smoking Cessation, Nutrition and Physical Activity, and Crime Prevention. An Open House for the Simmons Manor PCC was held to encourage greater participation. Emphasis was placed on outreach initiatives with Hispanic media outlets and resulted in increased demand for expanded class offerings in Spanish. The Spanish curriculum also includes technology training on "Becoming a US Citizen," which has been well attended.

IT support staff worked toward the goal of upgrading all workstations with the new Microsoft Windows 7 operating systems, and Microsoft Office 2010, and completed 152 workstations.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

No significant challenges or issues are expected during the next reporting period which would obstruct the project milestones.

4. Please provide actual total numbers to date or typical averages for the following key indicators, as specified in the question. Write "0" in the Total column and "N/A" in the Narrative column if your project does not include this activity. Unless otherwise indicated below, figures should be reported <u>cumulatively</u> from award inception to the end of the most recent reporting quarter. Please provide a narrative explanation if the total is different from the target provided in your baseline plan (300 words or less).

Project Indicators (Next Quarter)

1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less).

Maintain existing partnerships and create new ones to increase traffic and expand hours of operation at the PCC's. This next quarter's focus of the PCC will be on transforming specific PCC's into job readiness centers. Beginning in the fall of 2011 we will host 5 intensive one week job search training and interview preparation seminars. The course series will be entitled "Job Search Strategies During a Struggling Economy." This next quarter we also plan to introduce a new curriculum series on "Computer Skills for the Emerging Workplace." The courses are designed for adult learners who are seeking short-term, basic computer skills training. The course is ideal for beginning computer users and individuals who simply need some refresher practice. The course utilizes a hands-on approach that teaches basic computer functions and terminology. All course material can be directly applied to the workplace setting or in the job search process. With job readiness as our primary focus, we also will partner with local employment agencies and employers to establish resources for employment hiring, training and counseling for participants.

2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).
