Number of Providers Identified 0	Number of Providers Cor 0		Number of Agreement Reached for Data Sha 0			Number Comple	te Data Sets	Numbe Data Se 0	r of ets Verified			
10b. Are you submitting the required PROVIDER DATA by using the Excel spreadsheet provided by the SBDD grants office? •Yes No 10c. Have you encountered challenges with any providers that indicate they may refuse to participate in this project? Yes No 10d. If so, describe the discussions to date with each of these providers and the current status n/a 10e. If you are collecting data through other means (e.g. data extraction, extrapolation, etc), please describe your progress to date and the relevant activities to be undertaken in the future n/a												
10f. Please describe the verification activities you plan to implement Activities to date are contained in the Verification Plan titled "verification process 3_29.pdf" submitted to NTIA with Q3-2010_PPR. Verification activities planned for mid-2011 and beyond include the following:								n Q3-2010_PPR.				
1) Direct Feedback Through Website: Implement a channel of communication with the general public that gives them an opportunity to provide direct feedback on all aspects of the program but most importantly informs our verification process as to where our maps and information do not accurately reflect their situations.												
2) New Data Sources. Data analysis that includes new data sources such as the FCC 477 data (if and where appropriate). If the feedback process (or any other data input) uncovers un-served or underserved areas that do not agree with our maps we will undertake the following verification activities:												
3) Field Verification of Provider physical plant (facilities). On an as needed basis perform a high level "windshield" style survey of provider facilities in areas where our maps and direct feedback do not agree. Local knowledge, broadband utility knowledge, relationships with broadband providers would all be leveraged as well as field surveys to map out the actual physical location and routes of broadband provider facilities. With this data we would also gain a more detailed knowledge of where the broadband providers have actual middle mile and last mile facilities within Rhode Island.												
statewide wireless	signal monitor	ring and	Updated. The team description of the team of team of the team of team	the	air. This technology				at can perform that we've learned of			
10g. Have you initia	ted verification	activities	s? OYes 🔿 No									

10h If yes, please describe the status of your activities											
10h. If yes, please describe the status of your activities											
Verification activities for our data sets being executed per previously established plan. We are still evaluating the wireless verification as indicated above in section 10.f in Q2CY2012.											
	10i. If verification activities have not been initiated please provide a projected time line for beginning and completing such activities

Hardware / Software

10u. Has the project team purchased the software / hardware described in the application?

10v. If yes, please list
Dell Server & Uninterruptable Power Supply cost \$5,244 (hosts ArcGIS software and services associated with the mapping project), Three HP Laptops cost \$3,048, Three Apple iPads cost \$2,395.
10w. Please note any software / hardware that has yet to be purchased and explain why it has not been purchased
n/a
10x. Has the project team purchased or used any data sets? Yes No 10y. If yes, please list
n/a
10z. Are there any additional project milestones or information that has not been included? OYes ONo 10aa. If yes, please list
n/a
10bb. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing
n/a
10cc. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project
n/a
11. Broadband Planning
11a. Please describe progress made against all goals, objectives, and milestones detailed in the approved Project Plan. Be sure to include a description of each major activity / milestone that you plan to complete and your current status
See attached document entitled Q1CY12_PPR_Supplement.docx
11b. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing
See attached document entitled Q1CY12_PPR_Supplement.docx
11c. Does the Project Team anticipate any changes to the project plan for Broadband Planning? •Yes No
11d. If yes, please describe these anticipated changes. Please note that NTIA will need to approve changes to the Project Plan before they can be implemented
In Q1CY12 we continued to reassess the Public Safety Notification System project (see attached document entitled Q1CY12_PPR_Supplement.docx Project 3) and have concluded that it is in the best interest of the overall program to propose alternatives which will focus on leveraging the growth and success of our current projects. Our plan is to get that change process underway with the NTIA in Q2CY12.
Funding

11e. How much Federal funding	g has been expend	led as of the end of	the last quarter? \$0) 11f.	How much Remains?	\$0
11g. How much matching funds	s have been expen	ded as of the end of	last quarter? \$	0 11h	. How much Remains?	\$0
