Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

Training for both youth and adults continues to grow, with both more training for small businesses and training at new partner locations. Several locations have developed regular training schedules on specific topics needed by their constituents.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	Overall Project	63	We continue to expand to new sites.
2.b.	Equipment / Supply Purchases	-	Progress reported in Question 4 below
2.c.	Awareness Campaigns	-	Progress reported in Question 4 below
2.d.	Outreach Activities	-	Progress reported in Question 4 below
2.e.	Training Programs	-	Progress reported in Question 4 below
2.f.	Other (please specify):	-	Progress reported in Question 4 below

3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

We continue to experience a reluctance among ISPs to provide us with adoption information. For example, although we provide digital literacy training for Comcast, they do not tell us who has opened an account. We have to rely of participant self-report.

4a. In the chart below, please provide the requested information on your BTOP grant-funded SBA activities. Please also provide a short description of the activity (600 words or less). Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please ensure that the numbers of new household subscribers and business or community anchor institution (CAI) subscribers reflected in the "Total" row represent the unduplicated number of new subscribers that can be attributed to your SBA project as a whole.

Name of the SBA Activity	Location of SBA Activity	Description of Activity <mark>(600 words or less)</mark>	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAIs
attached	attached	see attached list	182,000	182,000	217	0
Total:			182,000	182,000	217	0

4b. Please describe your method for determining the number of households, businesses, and/or (CAIs) subscribing to broadband as a result of your SBA programs (600 words or less).

Actual assistance with subscriptions at workshops and reports of partner ISPs. We do not differentiate between household and business subscribers, as the majority of businesses are micro-enterprises.

4c. Please provide a narrative explanation if the total number of new subscribers is different from the targets provided in your baseline plan (600 words or less).

Tincan's primary clients are low income people who often cannot afford new accounts. In addition, we have had difficulty obtaining subscriber information from ISPs. For example, While we promote the Comcast Internet Essentials and CenturyLink programs, they have refused to share subscriber data with us. Thus, we can only record subscribers who we directly assist in establishing an account. Additionally, we do not differentiate between business and household subscribers. The vast majority of our businesses are micro-enterprises, and it is difficult to determine to what degree they will use the account primarily for business purposes.

DATE:	01/28/2013

4d. Please provide the number of households and the number of businesses and CAIs receiving discounted broadband service as result of BTOP funds.						

Households: 0

Businesses and CAIs : 0

Project Indicators (Next Quarter)

1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less). We have completed a video psa and will have it placed on tv stations. We are continuing to expand training at partner sites.

2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)		
2.a.	Overall Project	70	Many of our activities are being suported by a matching grant from Microsoft focused on digital literacy, and do not show up in federal expenditure. As training expands to other sites, more of our grant funds will be expended.		
2.b.	Equipment Purchases	-	Milestone Data Not Required		
2.c.	Awareness Campaigns	-	Milestone Data Not Required		
2.d.	Outreach Activities	-	Milestone Data Not Required		
2.e.	Training Programs	-	Milestone Data Not Required		
2.f.	Other (please specify):	-	Milestone Data Not Required		

3. Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

All our sites are now operating and we are expanding training as quickly as we can. Winter weather next quarter may slow training if weather is severe, however, some sites are establishing regular training schedules for the first time. We still are experiencing reluctance on the part of major ISPs to share subscriber data.
