BTOP Sustainable Broadband Adoption
Community Anchor Institution Detail Template

Please complete the Anchor Institution Details worksheet by providing information on
Community Anchor Institutions that will be directly involved in or benefit from the pro
project. Add rows as necessary. All community anchor institutions should be given a
specified list. A Community Anchor Institution is considered a minority-serving institu
post-secondary educational institution with enrollment of minority students exceedin
total enrollment. The "Role" column only requires a word or two, or a short phrase, n
explanation. A detailed explanation of the role of project partners and community an
institutions should be provided in the essay portions of the application.

**The data provided via this template will be subject to automated processing. Applic
therefore required to provide this upload as an Excel file, and not to convert it to a F
upload. Additionally, applicants should not modify the format of this file.**

BTOP Public Computer Center and Sustainable Broadband
Detailed Budget

Please complete the Detailed Budget, breaking out individual line items under each category heading (add rows to each section as necessary to accomodate your line items). Please ensure line item total columns in the "General" and "Detail" sections are equal for each line item (a ce with a yellow highlight indicates an inconsistency).   Also, you may utilize the provided space for additional notes , if desired (there is also a Budget Narrative question in the application in which you w provide narrative detail on this budget).

Specifics needed for each cost category line item:

Personnel: For each position, list the number of positions, the location or geography of position, the job/task responsibilities for the position, the annual salary, and the percent of time a person fil the position will spend working on the proposed BTOP project. For lines with more than one position, the Quarters Employed field should represent number of quarters per person (*e.g.,* fc employees each working for one year, Quarters Employed should be 4 rather than 8).

Fringe: For each position, note the number of positions, the annual salary, the percent of time a persc filling this position will spend working on the proposed BTOP project, and the fringe rate applie the position. For lines with more than one position, the Quarters Employed field should repres number of quarters per person (*e.g.* for two employees each working for one year, Quarters Employed should be 4 rather than 8).

Equipment: List all equipment units required for the project and provide program purpose. For each I item, note the number of units and the unit cost. The multiple of these two factors will yield th total for that line item. For example, an Applicant planning to buy 100 laptops at $500/laptop v have a total line item cost of $50,000. Again, although unit costs may include cents, once multi by the number of units, the result must be rounded to the nearest whole dollar. Clearly separa Applicant equipment and user equipment, as indicated in the detailed budget template. When providing the unit cost indicate whether the unit cost has been impacted by a discount and for software equipment list specific package names.

Travel: For each trip list the program purpose of the trip, destination city and the number of people traveling. For each line item (e.g., trip), note the number of trips and the cost per trip. The mul of these two factors will yield the total for that line item. For example, if the Applicant was accounting for 10 trips at $25 per trip, the total cost would be $250. The cost per trip should be justified on its own, *not* derived by dividing the line item total by the number of trips. Such a calculation will prompt further inquiry from the reviewers about justification for the trip cost. Rather, the *total* trip cost should be derived from the number of trips *times* the justifiable cost trip.

Supplies: Separate supplies by item type, describing the program purpose or use. For each line item, n the number of units and the nit costs. The multiple of these two factors will yield the total for t line item. For example, an Applicant planning to buy 20 boxes of printer paper at $30/box wou have a total line item cost of $600. Again, although unit costs may include cents, once multiplie the number of units, the result must be rounded to the nearest whole dollar.

Other: Separate item types; for awareness program cost items, such as ads, separate ad types radio, newspaper, etc) and include geography in which they will run.

Contractual: For each line item, identify the contractor and note the number of contracted hours of s

and hourly rate, if applicable. For example, an Applicant planning to hire a technology consulta
100 hours at a rate of $40/hour would have a total line item cost of $4,000.

Indirect: Provide the indirect rate and basis used. In the space provided at the bottom of the pa
briefly explain the calculation used to derive the indirect costs (including the indirect rate and v
is included in the basis). If a negotiated indirect cost rate agreement exists and is being used, p
identify the cognizant agency.

The category subtotals for this Detailed Budget should correspond to the data provided in you
424A, and both the SF-424 budget and this Detailed Budget should match the Federal Grant
Request and Total Match Amount provided on the Project Budget page of the application. Plea
review both budget attachments, the budget narrative in the application, and the Project Budg
page for consistency before submitting the application. If you are a submitting a PCC project v
an SF-424C instead of an SF-424A, the sections of this Detailed Budget will not align directly wi
categories of the SF-424C, but you should complete this Detailed Budget, allocating costs to th
appropriate cost categories.

The data provided via this attachment will be subject to automated processing. Applicants are
therefore required to provide this attachment as an Excel file, and not to convert it to a PDF pr
submitting a copy of their application on an appropriate electronic medium, such as a DVD, CD
ROM, or flash drive. Additionally, applicants should not modify the format of this file.

BTOP Public Computer Center and Sustainable Broadband Adoption
Detailed Budget Template

Easy Grants ID: **6581**
Applicant: Connected Na ion
Project Title: Ohio Public Adoption through Libraries - OPAL I

SF-424A Object Class Category	General				Detail						
Subtotal		$440,421.88	$207,609.38	$648,031.25							
b. Fringe Benefits - Include salaries and fringe rate.	Position	Federal Support	Matching Support	Total	# of Positions	Salary	% Time Spent on Project	Quarters Employed	Fringe Rate	Total
										$0.00
Subtotal		$94,470.49	$44,532.21	$139,002.70						
c. Travel - For significant costs, include details such as number and purpose of trips, destinations.	Purpose of Trip	Federal Support	Matching Support	Total	# of Trips	Cost per Trip	Total
Subtotal		$92,296.26	$44,570.69	$136,866.95			
d. Equipment Costs - List equipment with # of units and unit costs. Distinguish between equipment intended for applicant use versus equipment for the end user.	Equipment Description	Federal Support	Matching Support	Total	#Units	Unit Cost	Total
Applicant Equipment							
				$0.00			$0.00
				$0.00			$0.00
User Equipment							
Subtotal		$467,300.00	$152,700.00	$620,000.00			
e. Supplies - List costs associated with materials/printing, curriculum, translations, and other supplies	Description	Federal Support	Matching Support	Total	#Units (If Applicable)	Unit Cost (If Applicable)	Total
				$0.00			$0.00
Subtotal		$10,000.00	$6,000.00	$16,000.00			
f. Contractual - List contractors with purpose of contract, hourly rate or total fixed rate.	Contractor	Federal Support	Matching Support	Total	# Hours (If Applicable)	Hourly Rate (If Applicable)	Total Contract
|		Federal Support	Matching Support	Total
