Kentucky Public Library PCC Workforce Opportunity Expansion

Figure A: Figure Chart

Supplemental Upload and Title	Brief Description
Figure A: Table of Content for Supplemental Upload Items	Table of Content for all supplemental uploads in proposal
Figure B: Summary of Expenses	Two year summary of expenses
Figure C: Category Budget Summary	Summary of expenses by category
Figure D: Procurement Item Detail Summary	Summary of items to be purchased
Figure E: Common Components & Pricing	Common components and standard pricing used to build budget
Figure F: Procurement Support Detail	Detail of Procurement Support activity that is part of the project plan
Figure G: Matching Contribution Detail	Shows detail of matching contributions for project
Figure H: Gates Foundation Proposal Development Cost	Documentation in support of matching contribution
Figure I: Demonstration of Need	Display of diminishing resource support for Kentucky public libraries
Figure J: Vulnerable Population Presence	Detail of vulnerable populations in library service areas
Figure K: Job-Years Calculation Chart	Overview of job-years methodology calculation
Figure L: Other Calculation Methodologies	Overviews conservative calculation methodologies for various responses in proposal
Figure M: Proposal Citations	Reference to data throughout proposal

Description: Detail of Procurement Support activity that is part of the project plan

Kentucky Public Library PCC Workforce Opportunity Expansion
Figure F: Procurement Support Detail

Technology Procurement Support Function – Role description

The approach undertaken to assess and aggregate the technology needs of participating public library PCCs relies heavily on the PCCs’ self-assessment of current capabilities and individual projection of anticipated local needs. To ensure judicious use of grant funds and long-term sustainability of technology resources allocated to the PCCs upon grant approval, KDLA intends to recruit an IT procurement support contractor for oversight of the procurement process at the local level. The role of this contractor will be to provide pre-purchase assessment and approval of all equipment and software components for compatibility, usability and sustainability in each participating PCCs environment.

Technology Procurement Support Function – Project Plan

IT Procurement Support Function												
Tasks / Weeks	1	2	3	4	5	6	7	8	9	10	11	12
Reviews, check-points and sign-offs with KDLA												
Review BTOP program information and KDLA application details												
Review KDLA and KYCOT technology compliance guidelines												
Document, review with KDLA and finalize compliance, compatibility and sustainability criteria												
Initiate phone / e-mail correspondence with participating PCCs												
Visit six PCCs for on-site assessment of proposed needs versus compliance, compatibility and sustainability criteria												
Segment remaining PCCs into ones to assess on-site versus ones to assess remotely via phone and email correspondence												
Parallel assessment of and support for remaining PCCs via a combination of on-site and remote reviews												
Final follow-ups and closure on outstanding items and issues												
Assessment of impact to budget estimate, and support KDLA in filling out budget addendum request if necessary												
Submission of overall assessment and review documentation, final sign-off with KDLA												

Technology Procurement Support Function – Budget estimate

The budget estimate for the Technology Procurement Support function is derived through an informal Request-For-Quotation (RFQ) to technology staffing companies such as Robert Half, Adecco and ManPower Inc. Based on responses to these RFQs, the total cost for this function is estimated at \$114,000. The cost breakout is as follows:

- Compensation: \$96,000
 - Total 960 man-hours at \$100 per hour
- Travel and Expenses: \$18,000
 - 50% travel during 12 week (2 resources, 960 man-hours) engagement , equating to 12 weeks of travel
 - Estimated \$1,500 per week in T&E

WORK ORDER #10

Proposal Development Consulting for Broadband BTOP Applications

Consultant:	Alvarez & Marsal Business Consulting LLC
Work Order Effective Date:	December 1, 2009
Work Order Expiration Date:	April 15, 2010
Independent Consulting Agreement Effective Date:	February 9, 2009
Contract #:	17258

This Work Order is agreed pursuant to and made a part of the Independent Consulting Agreement (the "*Agreement*") referenced above, by and between the Bill & Melinda Gates Foundation, a Washington charitable trust (the "*Foundation*"), and the individual or entity identified as consultant above ("*Consultant*"), and is effective as of the date stated above (the "*Work Order Effective Date*"). Capitalized terms not otherwise defined in this Work Order will have the same meaning as set forth in the Agreement.

A. **Services.** For purposes of this Work Order and the Agreement, the term "*Services*" includes the following:

1. Background.

In February of 2009, Congress passed the American Reinvestment & Recovery Act ("*ARRA*") and authorized the National Telecommunications & Information Administration ("*NTIA*") to provide \$4.5 billion in grants to accelerate broadband deployment to un-served and underserved populations, as well as anchor community institutions. NTIA's Broadband Technology Opportunities Program ("*BTOP*") presents a historic opportunity to increase broadband access and public access computing for communities at public libraries. BTOP funding is available to build and deploy broadband infrastructure, expand public computer centers and promote sustainable adoption of broadband use.

The Foundation's U.S. Libraries program intends to support qualified candidate state library agencies ("*Qualified Candidates*" or "*QCs*") with development of their applications for BTOP funding, and to provide limited funding to implement proposed projects. In addition, the Foundation is enlisting the services of consulting partners ("*Consulting Partners*") to provide a broad range of support beyond typical proposal management to increase the likelihood of the QC receiving BTOP funding.

The Foundation is engaging Consultant to provide proposal development support to the QCs in Kentucky and Idaho as specified below.

2. Scope and Description.

Consultant will provide Services in any or all of the following areas of support, as requested and directed by each QC:

- BTOP proposal development and management, including application strategy development;
- Interpretation and analysis of federal BTOP Notice of Funds Availability ("*NOFA*") guidelines and requirements;
- BTOP project design and business case development, including research and data-gathering, BTOP project implementation planning (including outcomes, milestones and deliverables);
- Sustainability planning to demonstrate how their project will remain viable after the grant funding ends;
- Grant writing with detailed project budget development;
- Guidance on broadband acquisition, deployment and adoption for BTOP projects, especially for infrastructure applications; and

3. Location.

Consultant will work at the QC's place of business with QCs, collaborating side by side through the duration of the proposal process, or as otherwise approved by the Foundation in advance.

4. Collaboration and Knowledge Sharing.

Consultant will utilize a Foundation-hosted knowledge portal (via WebJunction) to share what it has learned and to collaborate with multiple partners throughout the project, including Foundation staff, QCs, and subject matter experts. Consultant will also collaborate and share information, tools, and templates online with the other Consulting Partner, particularly with respect to interpreting BTOP's NOFA, including policy, technical and process components of BTOP's NOFA, as well as sharing useful tools and templates.

5. Deliverables and Milestones.

Convening Attendance. Consultant will attend a two (2) day convening at the Foundation. Consultant will complete convening pre-reading provided by the Foundation in advance of the convening. (Dec. 16-17, 2009)

Collaboration Agreement. In partnership with each QC, Consultant will develop and reach agreement on a collaboration agreement that will provide the work-plan, milestones and interim deadlines agreed to by both parties. (Due date: Dec. 31, 2009)

Quality Control/Stress Test Support of Draft Report. Consultant will convene a "stress test panel" (staffed by Consultant's in-house experts, such as managers or partners, who are not directly involved in developing the BTOP application) for each QC to provide an in-process review of the development and proposal outcome. The stress test will include a balanced review of the critical success factors, including proposal compliance and consistency, strategy, and technical, financial, and operational feasibility factors. (Due date: To be Determined by the Foundation)

Final Application Submission. Consultant, in conjunction with the QC, will submit the final BTOP application to NTIA. (Due date: On or before the deadline specified by NTIA)

Status Updates. Consultant will provide bi-weekly written status/project update reports to the Foundation in the form and with the content as specified by the Foundation. Consultant will also attend a bi-weekly conference call with the project manager at the Foundation.

B. Compensation and Expense Reimbursement

1. Compensation. The Foundation will pay Consultant in on a flat fee basis (following completion of each deliverable or milestone for each QC as specified in the table in Section B. 2), and contingent on Consultant's satisfactory performance of all obligations under this Work Order and the Agreement.

2. Total Amount. Consultant will bill, and the Foundation will pay, no more than the amounts specified in the table below, unless this Work Order is amended prior to the applicable Services being performed.

Category	Flat Fee	Maximum Amount
<i>Compensation – Kentucky</i>		
<i>Convening & Collaboration Agreement Execution</i>	\$15,000	\$150,000
<i>Expert Panel Review of Draft BTOP Application</i>	\$67,500	
<i>Submission of Final BTOP Application to NTIA</i>	\$67,500	
<i>Compensation – Idaho</i>		
<i>Convening & Collaboration Agreement Execution</i>	\$15,000	\$150,000
<i>Expert Panel Review of Draft BTOP Application</i>	\$67,500	
<i>Submission of Final BTOP Application to NTIA</i>	\$67,500	
<i>Expenses</i>		\$60,000

Category	Flat Fee	Maximum Amount
Total		\$360,000

3. Expense Reimbursement.

3.1 The Foundation will reimburse Consultant at cost for reasonable third-party expenses that are actually incurred by Consultant in performing the Services, provided that such expenses do not exceed the amount stated in Section B.2. **With each invoice, Consultant will provide: (a) a detailed itemized listing of all expenses incurred under this Work Order; and (b) receipts for any individual expenses that exceed \$75.** Consultant may provide either an original or a copy of receipts. See Section B.3.5 if Consultant receives a U.S. Internal Revenue Services Form 1099-MISC ("*Form 1099-MISC*") for reporting total non-employee compensation of at least \$600 during the year. These itemization and receipt requirements do not apply to subcontractor fees and expenses.

3.2 All travel arrangements must be made in accordance with the attached Consultant Travel and Expense Reimbursement Policy (the "*Consultant Travel and Expense Reimbursement Policy*").

3.3 Following is a list of allowable expenses for which the Foundation will reimburse Consultant:

- Travel (airfare, lodging, meals, ground transportation)
- Communications (e.g., long distance phone or fax charges, postage)
- Miscellaneous expenses reasonably required to complete the Services

3.4 Subject to any Foundation policies made available to Consultant by the Foundation, including the Consultant Travel and Expense Reimbursement Policy, in incurring expenses that will be submitted to the Foundation for reimbursement, Consultant will have discretion and control over selection of providers to Consultant, and such selection will be made completely independently of the Foundation.

3.5 For Consultants such as sole proprietors, independent contractors, partnerships, and LLC's that receive a Form 1099-MISC, the Foundation will include reimbursable expenses with total compensation for purposes of year-end reporting, unless Consultant submits adequate qualifying documentation with the invoices. Qualifying documentation includes receipts, invoices, or cancelled checks (originals, photocopies or electronic scans may be submitted).

4. Invoicing.

4.1 Consultant agrees to submit invoices to the Foundation for any amounts owing under this Work Order. **Each invoice will: (a) contain enough detail of Consultant's Services over the invoice period to enable the Foundation to determine the accuracy of the amount(s) invoiced; and (b) include the contract number for this Work Order (as set forth on Page 1).**

4.2 Consultant will deliver each invoice to the Foundation within 30 days of the period or Services to which it relates, unless otherwise specified in this Work Order. Upon completion of the Services, Consultant will identify the "final invoice" for the Services and will not invoice the Foundation any further amounts unless the parties execute an amendment to the Work Order. Except for amounts the Foundation withholds in good faith, the Foundation's payment to Consultant of each properly-submitted and correct invoice will be due 30 days after the Foundation receives that invoice.

4.3 Consultant will submit all invoices to the following address:

If submitted electronically: **AP@gatesfoundation.org**

If submitted via mail:

Bill & Melinda Gates Foundation
Accounts Payable
P.O. Box 450
Webster, NY 14580

C. Other Provisions

1. Consent to Terms; Amendments. Together with the Agreement, this Work Order and any attachments, exhibits, or appendices hereto contain the parties' final, exclusive, and complete understanding and agreement, and supersede all prior and contemporaneous proposals, understandings and agreements relating to the subject matter of this Work Order. This Work Order may be amended only by a subsequent written agreement by the parties.
2. Delivery and Acceptance of Services. The Foundation will evaluate the Services delivered under this Work Order. Unless the Foundation provides notice of rejection within 30 days after the Foundation's receipt of a given deliverable, the deliverable will be deemed accepted. If rejected, Consultant will, at Consultant's sole expense, promptly correct the Services. If Consultant fails to correct the Services within 30 days after notice of rejection, the Foundation may terminate the Work Order immediately upon written notice and receive a refund of any amounts paid for such Services, except that the Foundation will in any event pay Consultant the compensation specified in Section B for any portion of the Services that the Foundation accepts.
3. Term. This Work Order is effective and will expire in accordance with the dates indicated above, unless terminated earlier as provided in the Agreement.
4. Work Authorization. As provided in the Agreement, Consultant is fully responsible for securing work authorization, as required, for all countries in which Consultant performs Services. Consultant's failure to secure required work authorization may result in the Foundation's immediate termination of this Work Order and the Agreement, at the discretion of the Foundation. When requested, Consultant will provide the Foundation with a copy of any required work authorization (e.g., Form I-9 for U.S. work).
5. Restriction Against Lobbying. Foundation funds provided for this Work Order may not be spent to: (a) influence the outcome of any domestic or foreign election for public office; or (b) support lobbying or other attempts to influence legislation (local, state, federal, or foreign). Consultant agrees that the strategies and activities conducted as part of this Work Order will not simply present a case for or against any legislative positions, but will rather provide a reasoned, objective consideration of facts and issues in a full and fair manner that enables third parties to develop their own positions on any legislation that may be discussed. Consultant further agrees that all activities conducted under this Work Order will comply with applicable state lobbying laws and that Consultant will obtain the consent of the Foundation prior to using funds provided for this Work Order for activities requiring lobby reporting and/or registration under the laws of a particular state.

The parties agree to the terms of this Work Order.

Consultant Travel and Expense Reimbursement Policy

Meeting the Foundation's Mission – working to help all people lead healthy, productive lives – requires great stewardship of the resources we have available. We take very seriously our responsibility to use our resources wisely to ensure that they have the greatest impact for those in need, and we know you do too. With that in mind, this policy was developed to provide travel and expense guidance to individuals and entities that have an executed contract to perform services for the Foundation (each a "Consultant").

If specifically provided in the contract, the Foundation will reimburse a Consultant for its Foundation-related travel expenses to the extent such expenses comply with this policy. Any expenses that exceed this policy, either in scope or price, will not be reimbursed.

1. Expenses Eligible for Reimbursement

1.1 Airfare.

- (a) Lowest available coach class fare is standard policy for all flights.
- (b) Business class is allowed only for international flights (arrives in a different country than it departed) of more than five hours, plus any immediately connecting flights.

1.2 Ground Transportation.

- Taxis are preferred, but town cars may be used if they are cost efficient and appropriate, or if there are timing and safety issues.
- Rental car fees are eligible for reimbursement. Generally a midsize car is appropriate unless the number of passengers or road conditions require otherwise. The Foundation's liability insurance will not cover any accidents that might occur when a Consultant rents a car for a Foundation business trip. Therefore, a Consultant should determine whether or not to purchase additional insurance coverage at the time of rental, depending on the provisions of their personal auto policy coverage.
- Mileage for use of a Consultant's personal vehicle is reimbursed at the current rates established by the U.S. Internal Revenue Service.
- Rail travel may be made in business class.

1.3 Lodging. All lodging must be no higher than a 4-star or 4-diamond rating in the U.S. and below the following maximum nightly rates (before tax):

City	Rate
New York City, Bangalore, Davos, Geneva, London, and Paris	\$400
Washington, DC	\$350
Chicago and all other International Cities	\$300
All other U.S. Cities	\$250

- (a) Lodging expenses will only be reimbursed up to the maximum rate above, plus applicable taxes, unless a Consultant submits documentation showing:
 - i. The only available hotel rooms in a city were higher than the allowed maximum rate because other rooms were sold out; or
 - ii. Consultant attended a Foundation-approved conference and the cost of accommodations provided as part of the conference exceeded the above rates.

- (b) The Foundation will not reimburse for any fees (lodging, meals, etc.) incurred at a Four Seasons property, including: Four Seasons Hotel, Chicago Ritz, Regent Kuala Lumpur, Regent Singapore, and Grand Formosa Regent Taipei.
- 1.4 Meals. Foundation will reimburse up to US\$100 per day (US\$150 for Paris, Tokyo, Geneva, Davos, and London) for a Consultant's meal costs (including tax, tip and beverages). This is a maximum amount, not an allowance. Tips may not exceed 20 percent for meals.
- 1.5 Specific Exclusions. The Foundation will not reimburse for recreational activities, personal entertainment, laundry, dry cleaning, travel insurance, auto insurance, health insurance, and other normal costs of running a business.
- 1.6 Other. Depending on the scope of the work, expenses may vary from those that are specifically mentioned in this policy. If these variations are not addressed in the contract, then they will not be reimbursed without prior written approval.
- 1.7 Fees. If the Foundation requires a change in a Consultant's itinerary after the Foundation has approved the expenses and the Consultant's arrangements have been booked, the Foundation will reimburse the Consultant for any fees or added costs that are incurred by the Consultant in order to make the changes required by the Foundation.

2. Passports; Visas; and Immigration

Consultant is responsible for investigating applicable immigration rules and obtaining a passport and appropriate visas. The Foundation will reimburse for the cost of obtaining necessary visas. The Foundation does not provide visa sponsorship letters unless travel to the country would be prohibited in the absence of a letter from the Foundation.

3. Reimbursement Process

- 3.1 Invoice and Receipts. Consultant must submit travel-related expenses to the Foundation on an invoice. Each invoice must include a detailed listing of all expenses incurred, showing date, location and a description of the expense. Additionally, invoices must include copies of receipts or other documentation for each expense over \$75. Documentation for airfare must indicate proof of travel (such as a boarding pass) and a receipt showing payment. A reservation confirmation is insufficient.
- 3.2 Payment. Foundation will pay all complete, accurate, and approved invoices for allowable expenses pursuant to the signed contract with the Consultant.

4. Equipment

Consultant is responsible for providing its own equipment; the Foundation will not provide laptops, cell phones, Blackberries, or any other equipment to the Consultant.

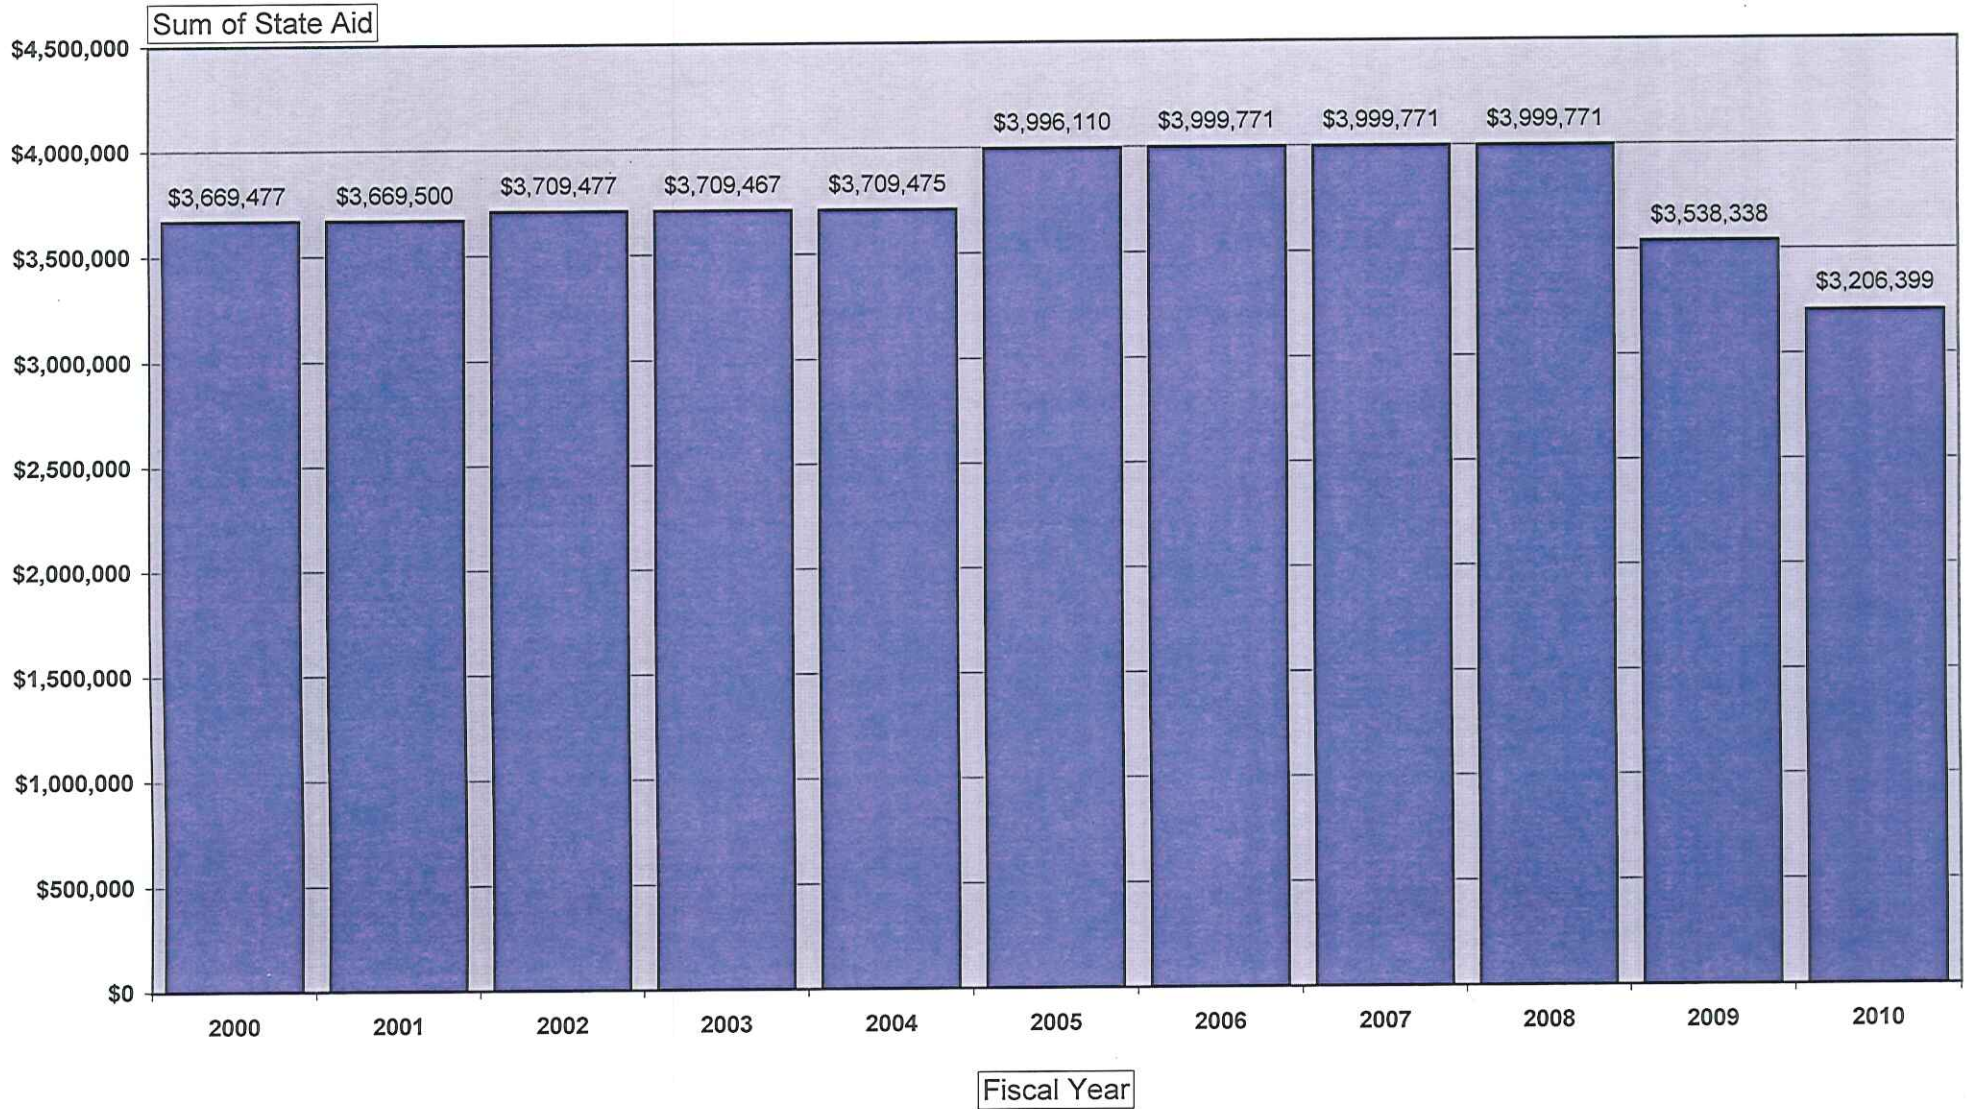

Kentucky Public Library PCC Workforce Opportunity Expansion
Figure L: Other Calculation Methodologies

Section 10 - Outreach

Proposed total users (14,400 over two years) generated through BTOP funds is estimated conservatively by the total classes and class attendees budgeted for in this proposal.

Assumptions: 5 persons per class, 2 classes per month, per library at 60 libraries

Actual users generated will be higher, and likely be much higher from the significant ad-hoc instruction provided to library PCC users and the variety of instructional methods that can reach a higher number of PCC users.

Section 13 – PCC Outreach Initiatives/Usage Summary

Proposed persons served with enhanced Kentucky public library PCC capacity is based on three year historical growth averages and will likely be much higher considering the anticipated increase in demand resulting from the challenging economic and employment environment of 2009 and 2010. Trends and anecdotes suggest there will be an even higher natural growth rate in library PCC users, and the growth is expected to be aided further by the proposed outreach centered on the *“Kentucky Public Library Workforce Opportunity Series”* courses and library PCCs equipped to become *“Workforce & Education Community Centers.”*
