Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

A. The first two BTOP federally funded classes were begun in December.

B. The development of the new instructional platform/portal and associated major user functions reached the stage of development to allow prototype testing.

C. The website is mostly complete, as scheduled.

D. Development servers were ordered and delivery/installation scheduled.

- E. Interviews continue to fill staff positions for the project operations.
- F. Twenty-six "matching fund" classes were begun in the fall—to be completed in January.

G. A total of 482 students began classes during this quarter.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)			
2.a.	Overall Project	4	Represents percentage of budget expended. Projection is below baseline estimate (4% vs. 15%) primarily because of delays in staff hiring.			
2.b.	Equipment / Supply Purchases	-	Progress reported in Question 4 below			
2.c.	Awareness Campaigns	-	Progress reported in Question 4 below			
2.d.	Outreach Activities	-	Progress reported in Question 4 below			
2.e.	Training Programs	-	Progress reported in Question 4 below			
2.f.	Other (please specify):	-	Progress reported in Question 4 below			

3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

MIGH did not face any major challenges/issues during the quarter.

4a. In the chart below, please provide the requested information on your BTOP grant-funded SBA activities. Please also provide a short description of the activity (600 words or less). Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please ensure that the numbers of new household subscribers and business or community anchor institution (CAI) subscribers reflected in the "Total" row represent the unduplicated number of new subscribers that can be attributed to your SBA project as a whole.

Name of the SBA Activity	Location of SBA Activity	Description of Activity <mark>(600 words or less)</mark>	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAls
Basic Internet & Computer Use	Houston TX	Teaching basic computer technology (what is a computer, how does it work, how to use it, how to navigate the Internet, how to create and effectively use an e-mail account, Microsoft Office Programs) in Spanish	300,000	482	0	0
	Total:		300,000	482	0	0

4b. Please describe your method for determining the number of households, businesses, and/or (CAIs) subscribing to broadband as a result of your SBA programs (600 words or less).

During the BTOP program we anticipate 3,920 new subscribers to broadband, which is equivalent to the number of students we project to complete the classes and graduate. This projection is based upon the premise that historically, in the eight years of the existing program, 70% of the individuals enrolled in our computer literacy classes have passed the exam and obtained certification. Because

these individuals were not previously broadband subscribers, they are considered new subscribers. Although some students may subscribe prior to successful completion of the classes, we find it more effective to base the number of new subscribers on the number who complete the course, as they will have the appropriate skill set to use the Internet and will have taken their commitment to learning seriously enough to complete the program.

4c. Please provide a narrative explanation if the total number of new subscribers is different from the targets provided in your baseline plan (600 words or less).

Our Baseline Standard indicated 35 new subscribers in quarter 2. In order to be consistent with our methodology for determining the number of new subscribers from our classes (see 4.b. above), and since our classes were begun in quarter 2, but did not finish in that quarter, we are reporting no new subscribers in the quarter.

4d. Please provide the number of households and the number of businesses and CAIs receiving discounted broadband service as result of BTOP funds.

Households: 0

Businesses and CAIs: 0

Project Indicators (Next Quarter)

1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less).

. Based upon the positive results of the prototype testing of the educational platform during quarter 2, we will perform the evaluation of it during quarter 3. We will continue opening classes and keep a strict follow-up to determine the implementation level of success of all the classes (current & new). Necessary corrections to the platform will be made as classes progress. Computer servers and laptops ordered during quarter 2, will be received and put into use for the program. Efforts to identify and employ course developers and platform developers (to work with technical staff), as well as support personnel for these activities will begin. Complete printed and online classroom manuals.

2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	Overall Project	11	Represents estimated percentage of budget that will be expended. Projection is less than baseline estimate (11% vs. 25%) because staff hiring has been slower than expected.
2.b.	Equipment Purchases	-	Milestone Data Not Required
2.c.	Awareness Campaigns	-	Milestone Data Not Required
2.d.	Outreach Activities	-	Milestone Data Not Required
2.e.	Training Programs	-	Milestone Data Not Required
2.f.	Other (please specify):	-	Milestone Data Not Required

3. Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

At this point we don't anticipate any challenges or issues impacting our planned progress against our project milestones during the next quarter.
