## 18.6 Government and Key Partnerships

This is a REQUIRED upload for all CCI Applicants that are partnering with key institutions, organizations, or other entities, or that are receiving part of their matching contribution from a third party. This is an optional upload for all CCI Applicants that are not partnering with key institutions, organizations, or other entities.

The Applicant should submit documentation, such as letters of support or commitment, from each of the key partners in the project. The documentation should clearly describe the specific details of the partner's participation. For example, if the partner is providing part of the project's cost matching contribution, the documentation should state the exact amount of the cash contribution, or describe, in detail, the nature of the in-kind contribution. If the partner is an Indian tribe or a socially and economically disadvantaged small business, as discussed in section 5, the documentation should make note of this, and explain the basis for this claim.

Applicants that have asserted in their response to the Level of Need question that, though there may be existing service providers in the Proposed Funded Service Area community anchor institutions are unable to obtain needed broadband services at reasonable rates, should be sure to include letters from partners, supporting parties, or potential customers affirming these assertions. These letters should include as much detail as possible as to the nature of the services needed, the availability (or lack thereof) and pricing for those services in the market, and any past efforts to work with incumbent service providers to obtain these services.

## 18.7 Historical Financial Statements

This upload is REQUIRED of all CCI Applicants.

The Applicant must provide detailed organizational financial statements for the last two years: a) Income Statement; b) Balance Sheet; and c) Statement of Cash Flows. If the Applicant's organization was established less than two years ago, provide all available information. Note that this response requires financial data for the organization as a whole. A standard annual Income Statement, Balance Sheet, and Cash Flows based on GAAP are preferable. If the Applicant cannot readily produce this data in a standard format, it should explain why not, and provide comparable data, such as its most recent IRS Form 990 or annual audit, that provides as detailed a picture as possible of its financial history for a minimum of one year prior to submission of this application. If appropriate, the Applicant may include Notes on Financial Statements that explain costs and revenues by major categories, and may make note of any abnormal or one-time charges, large liabilities or asset transactions, legal actions, or other financial events the Applicant feels require explanation. If key partners are involved in delivering programmatic benefits (*e.g.*, operating a proposed broadband network), it is recommended that historical financial statements for the key partners be provided as well.

# NOTE M – TRANSFERS

## TRANSFER OF ASSETS AND LIABILITIES

On July 1, 2007, New Mexico House Bill 959 became effective creating the Department of Information technology (Department). In addition to the creation of the Department, the bill also authorized the transfer of the following IT-related Department resources and liabilities to the Department as of the effective date: personnel, appropriations, money, records, equipment, supplies, capital assets, and contractual obligations from the telecommunications bureau of the General Service Department and the Office of the Chief Information Officer. The transfer of assets and liabilities increased the net assets of the following funds during fiscal year 2008 as follows: On May 26, 2009 the Department entered into an agreement with the General Service Department to close out the General Service Department funds and transfer the remaining assets to the Department by June 30, 2009.

| Agency Transferring | Agency Number | Transferring Fund | Receiving Fund | Fund Description | Net Assets Transferred |

| | | | | Total net assets transferred to governmental funds | 9,698,713 |
| | | | | Total net assets transferred to Department | $ 48,426,827 |

## RECONCILIATION OF NET ASSETS TRANSFERS

The ending net asset balances per the June 30, 2007 General Services Department (GSD) financial statements were adjusted before entry into the records of the Department to reflect certain corrections for prior fiscal years or to eliminate balances that could not be transferred. The principal adjustments were the reduction of deferred revenue corresponding to revenue previously recognized and the elimination of balances for allowance for bad debt and compensated absences that could not be transferred to the Department. The following table shows a reconciliation of the GSD balances as previously reported to the actual amounts transferred to the Department as reported on pages 17 and 22.

## INSTRUCTIONS FOR THE SF-424C

Public reporting burden for this collection of information is estimated to average 180 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0041), Washington, DC 20503.

**PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.**

This sheet is to be used for the following types of applications: (1) "New" (means a new [previously unfunded] assistance award); (2) "Continuation" (means funding in a succeeding budget period which stemmed from a prior agreement to fund); and (3) "Revised" (means any changes in the Federal Government's financial obligations or contingent liability from an existing obligation). If there is no change in the award amount, there is no need to complete this form. Certain Federal agencies may require only an explanatory letter to effect minor (no cost) changes. If you have questions, please contact the Federal agency.

*Column* a. - If this is an application for a "New" project, enter the total estimated cost of each of the items listed on lines 1 through 16 (as applicable) under "COST CLASSIFICATION."

If this application entails a change to an existing award, enter the eligible amounts *approved under the previous award* for the items under "COST CLASSIFICATION."

*Column* b. - If this is an application for a "New" project, enter that portion of the cost of each item in Column a. which is *not* allowable for Federal assistance. Contact the Federal agency for assistance in determining the allowability of specific costs.

If this application entails a change to an existing award, enter the adjustment [+ or (-)] to the previously approved costs (from column a.) reflected in this application.

*Column*. - This is the net of lines 1 through 16 in columns "a." and "b."

---

Line 1 - Enter estimated amounts needed to cover administrative expenses. Do not include costs which are related to the normal functions of government. Allowable legal costs are generally only those associated with the purchases of land which is allowable for Federal participation and certain services in support of construction of the project.

Line 2 - Enter estimated site and right(s)-of-way acquisition costs (this includes purchase, lease, and/or easements).

Line 3 - Enter estimated costs related to relocation advisory assistance, replacement housing, relocation payments to displaced persons and businesses, etc.

Line 4 - Enter estimated basic engineering fees related to construction (this includes start-up services and preparation of project performance work plan).

Line 5 - Enter estimated engineering costs, such as surveys, tests, soil borings, etc.

Line 6 - Enter estimated engineering inspection costs.

Line 7 - Enter estimated costs of site preparation and restoration which are not included in the basic construction contract.

Line 9 - Enter estimated cost of the construction contract.

Line 10 - Enter estimated cost of office, shop, laboratory, safety equipment, etc. to be used at the facility, if such costs are not included in the construction contract.

Line 11 - Enter estimated miscellaneous costs.

Line 12 - Total of items 1 through 11.

Line 13 - Enter estimated contingency costs. (Consult the Federal agency for the percentage of the estimated construction cost to use.)

Line 14 - Enter the total of lines 12 and 13.

Line 15 - Enter estimated program income to be earned during the grant period, e.g., salvaged materials, etc.

Line 16 - Subtract line 15 from line 14.

Line 17 - This block is for the computation of the Federal share. Multiply the total allowable project costs from line 16, column "c." by the Federal percentage share (this may be up to 100 percent; consult Federal agency for Federal percentage share) and enter the product on line 17.

**Service Offerings and Competitor Data Template**

Please complete the complete the following worksheets--either of the Last Mile or Middle Mile Service Offerings worksheets may be omitted if the applicant is not proposing to provide services of that type.

For both the Last Mile and Middle Mile Service Offerings worksheets, the service offerings should include all relevant tiers and markets (*e.g.* residential, business, wholesale). Applicants should be sure to include details on any services that would be offered at discounted rates to particular classes of customers (*e.g.* community anchor institutions or third party service providers).

In the Last Mile Service Offerings worksheet, applicants are required to provide estimated average end user speeds. Average speeds should be the average sustained actual, non-burst speeds that an end user would receive during a peak hour. For purposes of calculating these speeds, applicants should utilize their subscriber projections for year eight of the project, and develop subscriber utilization projections that are consistent with any additional services the applicant plans to offer. For wireless broadband services, this speed should be an average of the speeds available across an entire cell. Beyond these general guidelines, due to the multiplicity of technical solutions that may be proposed, the applicants may use discretion to determine the most reasonable manner in which to estimate actual speeds on their network. Applicants should explain the underlying assumptions used to calculate the average speeds in the space provided.

In the Competitor Data worksheet, applicants are required to provide data on both last mile and middle mile service providers, regardless of whether the applicant proposes to offer both last mile and middle mile services. In the column titled Service Areas Where Service Offered, applicants should list all of the Last Mile and Middle Mile Service Areas within their Proposed Funded Service area in which the listed services area available. Please ensure that the Service Area names are consistent with those provided within the application and the Service Areas upload. If the actual availability of the listed services is limited (*e.g.* the service is only available within part of the Last Mile or Middle Mile Service Area), note this in the Other Comments column.

In contrast to several other upload templates in this application, the data provided via this template will NOT be subject to automated processing. These template worksheets are provided to demonstrate the level of data required and to provide a suggested format. Applicants are free to modify the template layouts in order to provide the most effective presentation of the data for their specific project. Applicants should, however, ensure that they provide at least as much detail as these templates require. To the extent that you modify these templates please ensure that the print layouts are adjusted so that rows do no break across pages in a manner that will be difficult to understand. A PDF of this file will be automatically generated upon upload to Easygrants, and the print settings will be used to format the PDF file.

# BTOP Comprehensive Community Infrastructure
# Service Area Template

Please complete the complete the CCI Service Area worksheet. In each line you will provide the name of a service area and one of the contiguous Census tracts or block groups that make up that service area. Please provide full 11-digit Census tract numbers, includes the 2-digit State FIPS code, the 3-digit county code, followed by a unique 6-digit tract number. For Census block groups, please provide the full tract number, plus the 1-digit block group number (12 digits total). If there is more than one Census tract or block group in a service area, there will be multiple lines in the table for that service area. It is critical that the service area names provided in this table match with the service area names provided in the Service Area Details page of the application. Please review this document and Service Area Details page for consistency before submitting your application.

Important Note: Excel truncates leading zeros from numbers. Consequently, the tract/block group column on the worksheet has been formatted as text. This formatting should not be altered, or the validity of your data may be compromised.

The data provided via this template will be subject to automated processing. Applicants are therefore required to provide this upload as an Excel file, and not to convert it to a PDF prior to upload. Additionally, applicants should not modify the format of this file (*e.g.* by adding or removing worksheets). Do not leave blank lines in the table between service areas.
