14. Please describe any best practices/lessons learned that can be shared with other similar BTOP projects (900 words or less).

Specificity in contracts is always desirable, but as time passes since initial contacts were signed projects mature and evolve. This is especially true when key personnel change from time to time. Conducting an annual review of all major contracts is important to refresh what the contracts actually say versus what day to day practice may be. Such a review must be done with the perspective of as if one is reading them for the first time.

In conjunction with such a contract review, also note all of the future obligations of the company for such things as equipment list updates to tower owners or permitting jurisdictions, lease renewals, etc. Creating the ongoing operational action list is critical in a new company especially. With no history to follow, items in underlying rights that need to be updated on regular intervals won't be lost, especially in situations where key people with institutional memory are lost over time.

15. Using the Excel spreadsheet template titled "Annual PPR CCI Addendum", please provide an updated list of Community Anchor Institutions (CAIs) that you have connected and plan to connect to your network.

16. Using the Excel spreadsheet template titled "Annual PPR CCI Addendum", please provide a list of community pairs that are receiving new or improved broadband service as a result of BTOP grant funds.
