<b>Project Indicators (This Quarter)</b>			
<p><b>1. Please describe significant project accomplishments completed during this quarter (600 words or less).</b></p> <p>Merit has continued testing across the network where possible. Merit is working to complete the remaining construction in Hancock and Moran Township.</p>			
<p><b>2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline plan, please insert them at the bottom of the table. Unless otherwise indicated in the instructions, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).</b></p>			
	<b>Milestone</b>	<b>Percent Complete</b>	<b>Narrative (describe reasons for any variance from baseline plan or subsequent written updates provided to your program officer)</b>
2a.	<b>Overall Project</b>	100	Construction is nearly complete for Round 2. Merit has installed almost all infrastructure and intends to complete construction during the next quarter. Merit has currently expended 102% of the total project budget and will be committing additional matching funds to supplement the project.
2b.	<b>Environmental Assessment</b>	100	Merit has exceeded our Environmental Assessment costs. We are currently at 687% of original budget. This overage is due to the underestimated line item based on Request For Proposal responses to Merit and unexpected challenges in obtaining clearances in Wisconsin and Minnesota. Spending in this category should be complete.
2c.	<b>Network Design</b>	100	Since receiving Merit's Finding of No Significant Impact, Merit has completed the required field engineering. Merit anticipates continued costs for incorporating redlines and doing final CADs. Currently Merit is at 253% of the original budget. A portion of site prep expenses and salary has been included in this category.
2d.	<b>Rights of Way</b>	100	Since receiving the Finding of No Significant Impact Merit has finalized the route and completed permit submission. Merit is currently at 132% of its original budget. Spending in this category is complete.
2e.	<b>Construction Permits and Other Approvals</b>	100	Since receiving the Finding of No Significant Impact Merit has finalized the route and completed permit submission. Merit is currently at 111% of its original budget. Merit anticipates spending in this category is near complete.
2f.	<b>Site Preparation</b>	24	Due to the way Merit has been classifying their expenses, some of these costs are included with Network Design. Site preparation work has been completed.
2g.	<b>Equipment Procurement</b>	46	Merit ordered and received equipment, and the equipment has been placed in the field. Costs originally designed for this category have been placed in other categories resulting in being below budget. This category will be able to absorb overages from other areas.
2h.	<b>Network Build (all components - owned, leased, IRU, etc)</b>	100	Construction is near completion. Since construction began in late December 2011, Merit has had a large number of crews working across multiple segments each week. Merit is looking to complete construction in the following quarter.
2i.	<b>Equipment Deployment</b>	100	Merit has managed the equipment deployment by ordering, receiving, and placing it as needed. With all equipment placed, there will be minimal spending remaining.
2j.	<b>Network Testing</b>	100	Testing is continuing across the network with almost all infrastructure completed.
2k.	<b>Other (please specify): Staffing Miscellaneous</b>	56	Staffing has been reported in the Network Design category and may be reallocated back to Other. Expenses will continue in this category and will absorb overrun from other categories.
