ANNUAL PERFORMANCE PROGRESS REPORT FOR BROADBAND INFRASTRUCTURE PROJECTS						
General Information						
1. Federal Agency and Organizational Element to Which Report is Submitted	2. Award Identifica	ation Number	3. DUNS Number			
Department of Commerce, National Telecommunications and Information Administration	NT10BIX5570136		831335448			
4. Recipient Organization						
GOVNET, INC. 7835 E. McClain Dr., Scottsdale, AZ 85260-1872						
5. Current Reporting Period End Date (MM/DD/YYYY)		6. Is this the last Annual Report of the Award Period?				
12-31-2011		⊖ Yes ● No				
7. Certification: I certify to the best of my knowledge and belief that this report is correct and complete for performance of activities for the purposes set forth in the award documents.						
7a. Typed or Printed Name and Title of Certifying Official		7c. Telephone (area code, number and extension)				
Karen McCoy		6023690767				
Vice President		7d. Email Address				
		karen.m@govnet.net				
7b. Signature of Certifying Official		7e. Date Report Submitted (MM/DD/YYYY):				
Submitted Electronically		03-23-2012				

AWARD NUMBER: NT10BIX5570136

DATE: 03/23/2012

Remove Facility

OVERALL PROJECT PERFORMANCE INDICATORS

1. Please provide the following average cost figures for your project. Please review the instructions to determine how to calculate these figures. Write "0" in the second column and "N/A" in the third column if your project does not yet have this information. Depending on whether your project contains Middle Mile and/or Last Mile components, some metrics may not apply. Please provide a narrative description if the total is different from the target provided in your baseline plan (600 words or less).

Cost Indicator Average Spee		Narrative (describe your reasons for any variance from the baseline or any other relevant information)	
Average cost per new mile (Middle Mile)	0	Behind baseline plan due to delay in EA approval, which restricted construction. GovNET received its FONSI during this reporting period and expects to be in sync with its Baseline Plan by the end of Q3 2012.	
Average cost per household passed (Last Mile)	0	n/a	
Average cost per subscriber (Last Mile)	0	n/a	
Maximum broadband speed advertised (Middle Mile)	0	Behind baseline plan due to delay in EA approval, which restricted construction	
Maximum broadband speed advertised (Last Mile)	0	n/a	
Average broadband speed provided (Middle Mile)	0	Behind baseline plan due to delay in EA approval, which restricted construction.	
Average broadband speed provided (Last Mile)	0	n/a	

2. Please provide each facility name and type, the county where the facility is located, and census tract information for any facilities funded by your project during this annual reporting period. Report only facilities for which construction has been completed.

Facility Identifier / Name	Facility Type	County	Census Tracts	
Construction has not started on the project	0	0	0	

Add Facility

3. Please identify (1) the total number of interconnection, peering, and/or transit agreements entered into during this annual reporting period; (2) the total number of agreements of each type that you are currently negotiating; and (3) whether you have denied any request for interconnection and if so, why. If you have not entered into any agreements, please write "N/A."

Interconnection Agreements (600 words or less)

We signed zero agreements last mile providers for interconnection. We have not denied any request for interconnection.

Peering and Transit Agreements (600 words or less)

We signed two peering agreements for 2 Gigabytes of Tier One Internet access with a provider.

AWARD NUMBER: NT10BIX5570136

CAPACITY, UTILIZATION, AND CAPABILITY INDICATORS 4. Community Anchor Institutions: In the chart below, please provide information on the types of community anchor institutions capable of receiving service (i.e., anchor institutions connected to your network plus those passed by your network) as a result of BTOP funds. **Total Number Within Service** Total Number Within Service Type of Community Anchor Type of Community Anchor Institution Institution Area Area Schools (K-12) 0 Public Housing 0 Libraries 0 Other Institutions of Higher Education 0 0 Medical and Healthcare Providers 0 Other Community Support Organizations Public Safety Entities 0 0 Other Government Facilities **Community Colleges** 0 **Total Community Anchor Institutions** 5. Please indicate the average increase in broadband speed provided to the community anchor institution customers as a result of your project, including a description of how this increase was calculated (600 words or less). Construction has not begun. However, we expect the average increase in broadband speed will increase from a T1 (1.5 Mbps) to a 100 Mbps drop as a result of this project. Most Community Anchor Institutions currently utilize 1.5 Mbps broadband speed. 6. What retail services are being provided by this project? Please describe below. (600 words or less). As an attachment to this report, please provide pricing plans (in \$ per month) associated with each retail service. Retail services description: n/a 7a. What network management policies (e.g., bandwidth limitations, traffic prioritization) are in place for the services provided by your project? 7b. Have you ever limited or blocked consumers from accessing any lawful content, service, service provider, or application, or prevented any consumers from attaching any legal device to the network? If so, please explain why (300 words or less)? We have not begun providing service due to the delay in EA approval. GovNET received its FONSI in November 2011 and construction activities are now underway. 8. If applicable, please provide the total number and the percentage of subscribers who have dropped the broadband service provided through this project (total number of households and/or businesses and the "churn rate") and the subscribers' reasons for discontinuing their service (600 words or less). N/A 9. Please provide the following information regarding the number of fiber strand-miles: **Total Number of Total Number of Strand-miles Being Built** Total Number of **Total Number of Active Fiber Total Number of** Leased Fiber **Dark Fiber** Strand-miles Strand-miles Strand-miles Strand-miles Active Dark Leased Used by Recipient 0 0 0 0 0 0 0 10. If you wholesale dark fiber, please list your wholesale customers and the number of fiber miles you currently are leasing to those customers: N/A - We do not have a fiber project. 11. Please provide the following information regarding the facility collocation capacity: Total Facility (total square feet for Number of Square Feet Used by Number of Square Feet Leased Number of Square Feet Available all facilities) Recipient 0 0 0 0

RECIPIENT NAME: GOVNET, INC.

AWARD NUMBER: NT10BIX5570136

12. If you do not own collocation space, please describe how and where other network providers and/or customers interconnect with your network (600 words or less).

Collocation space varies per backbone or node location. GovNET has conducted a significant amount of public outreach to develop partnerships for interconnection. Customers will be able to interconnect through almost every tower, monopole and roof mount installed through this project. Other network providers will be able to connect to the network at a majority of the equipment shelters or cabinet area drop points in the rural communities included in the network.

13. To the extent that you have made any subcontracts or sub grants, please provide the number of subcontracts or sub grants that have been made to socially and economically disadvantaged small business (SDB) concerns as defined by section 8(a) of the Small Business Act, 15 U.S.C. 647, as modified by NTIA's adoption of an alternative small business size standard for use in BTOP. Please also provide the names of these SDB entities (150 words or less).

GovNET has issued two vendor contracts to women-owned businesses:

 A contract with Kestrel Consulting Inc. of Hood River, Oregon, was signed in January 2011 for grant management services.
A contract with Tierra Right of Way Services of Tucson, Arizona, was signed in November 2010 for preparation of the Environmental Assessment.

14. Please describe any best practices/lessons learned that can be shared with other similar BTOP projects (900 words or less).

The learning curve that went into completing the Environmental Assessment was significant and in retrospect, having a team who is aggressive on working through the detailed items to achieve FONSI is critical. It may be helpful to be directly connected with other projects that the FPO's may see similar issues so as to have someone to bounce ideas off that could benefit both projects, as often each project is an island in their own state.

15. Using the Excel spreadsheet template titled "Annual PPR CCI Addendum", please provide an updated list of Community Anchor Institutions (CAIs) that you have connected and plan to connect to your network.

16. Using the Excel spreadsheet template titled "Annual PPR CCI Addendum", please provide a list of community pairs that are receiving new or improved broadband service as a result of BTOP grant funds.

17. Please provide up-to-date network route maps in a single file, in a Google Earth compatible format (e.g., KMZ file).
