Re: National Telecommunications Information Administration (NTIA)  
Broadband Technology Opportunities Program  
Grant Application – March 26, 2010  
OnWav, Inc

Dear Assistant Secretary Strickling:

I am pleased to write this letter in support of the OnWav Grant Application. In partnership with a variety of local community organizations – Pre-K-12 Schools, Community Centers, Libraries, Community Colleges, County and City Governments, Police Stations and Jails, among many others-- OnWav desires to expand its service capabilities to Community Anchors, businesses and consumers, in part through the use of NTIA Broadband Technology Opportunities Program grant funding.

OnWav has defined and developed a much needed plan to build, upgrade, extend, and deliver high-speed broadband Internet connectivity to the Tennessee counties of Clay, Fentress, Jackson, Overton, and Pickett. The project will interconnect the five county and six city governments, educational facilities, medical facilities, community centers, libraries, Jails and many other key anchor facilities with:

I believe that the OnWav plan and grant application has been developed in the true spirit of the requirements for funding under the BTOP Grant program. I respectfully request your favorable consideration of their Grant funding request.

Sincerely,

*John Mark Windle*

1401 Constitution Ave. NW  
Washington, D.C. 20230

Dear Assistant Secretary Strickling,

I am writing to express my support for the application submitted by OnWav requesting BIP funds. The funds will be used to provide broadband services to underserved areas in the Upper Cumberland region of Middle/East Tennessee.

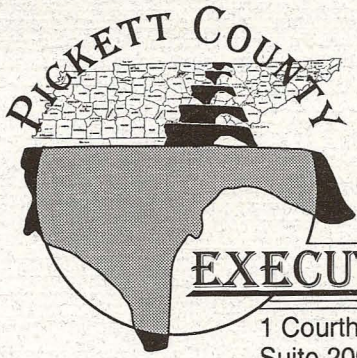

In partnership with a variety of local community organizations – Pre-K-12 Schools, Community Centers, Libraries, Community Colleges, County and City Governments, Police Stations and Jails, among many others – OnWav desires to expand its service capabilities to Community Anchors, businesses and consumers, in part through the use of NTIA Broadband Technology Opportunities Program grant funding. OnWav has defined and developed a needed plan to build, upgrade, extend, and deliver high-speed broadband Internet connectivity to the Tennessee counties of Clay, Fentress, Jackson, Overton, and Pickett, interconnecting Community Anchors in a five county region including educational facilities, medical facilities, community centers, libraries, Jails and many other key anchor facilities.

I believe that the OnWav plan and grant application has been developed in the true spirit of the requirements for funding under the BTOP grant program. I respectfully request your favorable consideration of their grant funding request. Thank you for your time and support to this matter. Please feel free to contact me at [REDACTED] if you require any additional information.

Sincerely,

Re: National Telecommunications Information Administration (NTIA)  
Broadband Technology Opportunities Program  
Grant Application - March 26, 2010  
OnWav, Inc

Dear Assistant Secretary Strickling:

I am pleased to write this letter in support of the OnWav Grant Application. In partnership with a variety of local community organizations---Pre-K-12 Schools, Community Centers, Libraries, Community Colleges, County and City Governments, Police Stations and Jails, among many others-- OnWav desires to expand its service capabilities to Community Anchors, businesses and consumers, in part through the use of NTIA Broadband Technology Opportunities Program grant funding.

OnWav has defined and developed a much needed plan to build, upgrade, extend, and deliver high-speed broadband Internet connectivity to the Tennessee counties of Clay, Fentress, Jackson, Overton, and Pickett. The project will interconnect the five county and six city governments, educational facilities, medical facilities, community centers, libraries, and many other key anchor facilities with:

Re: National Telecommunications Information Administration (NTIA)  
Broadband Technology Opportunities Program  
Grant Application – March 26, 2010  
OnWav, Inc

Dear Assistant Secretary Strickling:

My customer Mr. Michael Powell with OnWav Inc. has made us aware that OnWav intends to apply for a grant to enhance the communication in our Upper Cumberland area of middle Tennessee. As a local banker and a life long resident of Livingston Tennessee, we see this is a great opportunity for our community.

 is excited about the prospects of the grant application and what it could mean for our area. Michael Powell and OnWave have been customers of ours for several years. Mike runs a good business and is very well thought of within our community.

Should OnWav need financing for this project, our bank will give serious consideration to assist in funding OnWav's portion of the project. You may contact me directly at  should we need to discuss the matter further.

Sincerely,

## Bucky J. Wolfe

### Objective:

• Obtain a position in the IT field, playing to my natural aptitude for problem solving, while continuing to expand my technical understanding and abilities.

### Academic Experience:

- 2004-2007, McGavock High School, Donelson TN
- Member of the Business Professionals of America extra-curricular club
  - Attended an Advanced Placement Networking class
  - Placed in Honors Science, English, and Math courses
- 2007, GED - Cohen Education Center, Nashville TN
- Scored in the top 5 percent of graduating high school students
- 2009, New Horizons CLC, Nashville TN
- Working towards CCNA, Linux+ & Net+ certifications

### Skills/Knowledge:

#### 1. Unices:

##### *i. Debian Linux*

- 3+ years experience using Debian as a desktop
- 7+ years using, maintaining, and upgrading Debian systems as a server/appliance
- Firm understanding of the makeup of Debian packages
- Built packages, maintained a small locally hosted Debian repository for myself and friends

##### *ii. ArchLinux*

- ~3 years using arch as a desktop (Mid 2007-present)
- Gained firm grasp of their BSD-style init framework
- Firm grasp of creating ArchLinux packages using PKGBUILD ( fbsd ports-esque ) buildscripts
- Submitted several patches to get stale buildscripts working in the Archlinux User Repository

##### *iii. Gentoo Linux*

- 1 year using Gentoo as a desktop
- Gained understanding of gcc/g++ flags, common gnu make errors, and yacc/cpp and gdb

##### *iv. CentOS*

- 1 year administrating CentOS webservers for a personal webhosting company.

##### *v. OpenBSD*

- 1+ year running OpenBSD as a router/firewall
- Good understanding of using PF and OpenBSD QoS.

##### *vi. Plan9*

- Used Plan9 with fossil+venti, nfs, and Pegasus httpd to create a basic file server/remotely controlled jukebox.

#### 2. Exp w/Daemons and Utils:

- Debian pkg tools (aptitude/apt-\*/dpkg\*)
- ArchLinux pkg tools (pacman/makepkg)
- RHEL pkg tools (rpm/yum)
- Misc pkg tools (wpacka/checkinstall/alien)
- httpds (thttpd/Apache2/lighttpd/plan9httpd)
- sshds (dropbear/openssh)
- ftpds (proftpd/vsftpd)

#### 3. Scripting:

- 2+ years of bash scripting experience
- ~1yr lua scripting exp, w/LuaSocket knowledge.
- Basic knowledge of perl.

#### 4. Hardware:

- Managed sun sparc64 hardware (UltrasparcII Netras to UltraSparc IV Sunfires.) via Debian Linux and LOM.
- Remotely managed redline SU-0s and AN100-UX series sector controllers (802.16d) via their command line interface.
- Managed Cisco 1700/1800/2800 series routers w/WIC-1DSUs.. Intimately familiar with Cisco IOS.
- Managed Adtran 3100 series routers: basic knowledge of Adtran OS v6.

## Bucky J. Wolfe

...: (931)-284-9789 - [bjw@onwav.com](mailto:bjw@onwav.com) - [REDACTED]

### 5. Telephony:

- Engineered several asterisk PBXes, currently in production.
- Extended asterisk to use app\_konference for conferencing on non-i686/amd64 machines that lack support for DAHDI/ZAP.
- Experience configuring and mass-deploying Cisco/Polycom/Linksys IP Phones.
- In research & development process with additional voice switching architectures such as FreeSWITCH/SipXecs
- Currently implementing Lucent PacketStar analog telephony switch as a gateway for a digital softswitch (FreeSWITCH).

### 6. Wireless Networks:

- Currently manage a 50 square mile 802.16d wireless point to multipoint network
- Managed and deployed wireless networks in a mesh topology.
- Managed and deployed wireless networks in a point to multipoint topology.
- Managed and deployed wireless backhauls in a point to point topology.
- Experience securing wireless networks using various encryption and obfuscation techniques.

### 7. Real Life Experience:

- Built several computers for friends and acquaintances since age 13, was always "the computer guy"
- Rescued several old/free computers from craigslist, turned them into a Gentoo distcc cluster
- Co-founded a small (now defunct) web hosting company
- Active in the Nashville Linux Users Group IRC channel, providing support for a wide variety of linux-related issues.

March 24, 2010

The Honorable Lawrence Strickling  
Administrator  
National Telecommunication and Information Administration  
1401 Constitution Avenue NW  
Washington, D.C. 20230

Dear Mr. Strickling,

I am writing in support of OnWav's application for the Broadband Technology Opportunities Program (BTOP).

OnWav will use these funds to build and deploy high-speed broadband Internet to five counties in Tennessee. This project will bring high-speed Internet access to important facilities, including local government buildings, educational and medical facilities, community centers, and libraries.

I hope that you will give all due consideration to this application. I'd be glad to furnish additional information, or your office may wish to be in touch with Brett Logan of my staff at (202) 224-2189.

Sincerely,

Lamar Alexander  
United States Senator

The Honorable Larry Strickling  
Assistant Secretary of Commerce  
Administrator  
National Telecommunications and Information Administration  
U.S. Department of Commerce  
1401 Constitution Ave. NW  
Washington, D.C. 20230

Re: National Telecommunications Information Administration (NTIA)  
Broadband Technology Opportunities Program  
Grant Application - March 26, 2010  
OnWav, Inc

Dear Assistant Secretary Strickling:

I am pleased to write this letter in support of the OnWav Grant Application. In partnership with a variety of local community organizations---Pre-K-12 Schools, Community Centers, Libraries, Community Colleges, County and City Governments, Police Stations and Jails, among many others-- OnWav desires to expand its service capabilities to Community Anchors, businesses and consumers, in part through the use of NTIA Broadband Technology Opportunities Program grant funding.

OnWav has defined and developed a much needed plan to build, upgrade, extend, and deliver high-speed broadband Internet connectivity to the Tennessee counties of Clay, Fentress, Jackson, Overton, and Pickett. The project will interconnect the five county and six city governments, educational facilities, medical facilities, community centers, libraries, and many other key anchor facilities with:

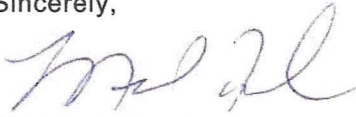

Our community anchor location of Livingston, Tennessee, Overton County, is in full support and desires to become a participant in this program.

We believe that the OnWav plan and grant application has been developed in the true spirit of the requirements for funding under the STOP Grant program. We respectfully request your favorable consideration of their Grant funding request.

Sincerely,

A handwritten signature in blue ink, appearing to read "MJ Meadows", written in a cursive style.

Michael J. Meadows  
Chief Executive Officer

MJM/fs
