Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

We appropriately contracted all of our sub-recipients, thus completing all of the necessary steps to be able to draw down funds at the beginning of the next quarter. The Project Manager continues to oversee the project.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

All of our challenges have been at the state level. The first round of sub-recipient contracts was rejected by our fiscal office, because the contract template had changed, so we had to re-issue all of the contracts. This process delayed our ability to draw down federal funds and begin the project. We look forward to finally drawing down funds and beginning the project in earnest at the beginning of the next quarter.

4. Please provide actual total numbers to date or typical averages for the following key indicators, as specified in the question. Write "0" in the Total column and "N/A" in the Narrative column if your project does not include this activity. Unless otherwise indicated below, figures should be reported <u>cumulatively</u> from award inception to the end of the most recent reporting quarter. Please provide a narrative explanation if the total is different from the target provided in your baseline plan (300 words or less).
