Are you submitting the required PROVIDER DATA by using the Excel spreadsheet provided by the SBDD grants office? Yes No 10c. Have you encountered challenges with any providers that indicate they may refuse to participate in this project? Yes No 10d. If so, describe the discussions to date with each of these providers and the current status Omnicity: We have been informed by Omnicity that they are unwilling to provide data at this time due to legal issues with other parties. We will continue to monitor this. The same situation applies to AAA Wireless, ForePoint Networks, NDWave.com, Culver Communication, North Central Communications, Usppp,Inc. and Zig Wireless due to their legal relationship with Omnicity. Fairnet Wireless: Provider is very hesitant about providing this information unless it is mandatory. We will continue to follow-up. 10e. If you are collecting data through other means (e.g. data extraction, extrapolation, etc), please describe your progress to date and the relevant activities to be undertaken in the future							No No No No No No No No No No No No No N

v. Using service pr	. Using service providers' websites, especially those that contain service area information. Many service providers have websites									

that give service area information (often address by address) to assist consumers. We will use these websites in conjunction with "boots on the ground" and the other methods listed here to verify the data.

10g. Have you initiated verification activities? •Yes No 10h. If yes, please describe the status of your activities

i. We have begun verification comparing source documents that duplicate geographies and/or content. We recognize that within the above list of data sources, some information is duplicated. In these cases, discrepancies will be noted for follow-up using other verification methods listed here.

ii. We have developed a "crowd-sourcing" tool and have begun using this tool to collect data for verification. http://www.in.gov/BroadbandQuestionnaire.htm http://in-polis-app21.ads.iu.edu/BroadbandService/default.aspx

iii. We have acquired a 3rd party data set for verification and are in the process of using it to compare to our mapped data.

iv. We have begun using service providers' websites, especially those that contain service area information.

v. We have begun "flying" a third of the state for updated orthophotography and LiDar. We will fly the next two-thirds of the state over the next two years.

10i. If verification activities have not been initiated please provide a projected time line for beginning and completing such activities

NA

Staffing

10j. How many jobs have been created or retained as a result of this project?

2.82

10k. Is the project currently fully staffed? OYes
No

10I. If no, please explain how any lack of staffing may impact the project's time line and when the project will be fully staffed

No impact to the project's time line is anticipated.

10m. When fully staffed, how many full-time equivalent (FTE) jobs do you expect to create or retain as a result of this project?

6.75

Hardware / Software

10u. Has the project team purchased the software / hardware described in the application? (Yes ●No 10v. If yes, please list

NA

10w. Please note any software / hardware that has yet to be purchased and explain why it has not been purchased

NA

10x. Has the project team purchased or used any data sets? (Yes (No

10y. If yes, please list

Data from InfoUSA that included IP Address, domain name, broadband technology type. Cost = \$37,853 (See Subcontract #5)

10z. Are there any additional project milestones or information that has not been included? • Yes ONo

10aa. If yes, please list

We hosted a statewide meeting of the Indiana Wireless Internet Services providers (WISPA) here on January 19, 2011. We successfully promoted the broadband mapping program to the providers. We received a 38% increase in wireless data following this meeting.

10bb. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

We are developing additional QAQC procedures to our data deliveries. We are expanding our scope of work with two of our vendors to achieve this.

10cc. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project

We changed this report to reflect the reporting of the "In-Kind" state contribution under "other" since it is data that is being contributed, and not a portion of the contractual fees.

11. Broadband Planning

11a. Please describe progress made against all goals, objectives, and milestones detailed in the approved Project Plan. Be sure to include a description of each major activity / milestone that you plan to complete and your current status

NA

11b. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

NA

11c. Does the Project Team anticipate any changes to the project plan for Broadband Planning? (Yes No

11d. If yes, please describe these anticipated changes. Please note that NTIA will need to approve changes to the Project Plan before they can be implemented

NA
