

## **Public Notice Submission**

**Provider Name:** 3 Rivers Telephone Cooperative. Inc.

**Summary:** 3 Rivers has considerable concern with the census data provided in this response under the heading of "Number of Households 1)". The information provided under the "Coverage and Subscription Data" tab, "Number of Households 1)" column, is latest household data available which is from the 2000 census. This information is hardly comparable to the columns for current 12/31/2009 counts of "Number of Households with Access" and "Number of Households Subscribing": "to Broadband from the Service Provider 2)". Also, the data provided in the columns for the households with access and subscribing to broadband from the service provider includes residential, business, and governmental units which further distorts any comparison.
