

Public Notice Submission

Provider Name: Savage Communications Inc.

Summary: Savage Communications Inc. (DBA SCI Broadband) is a provider of broadband cable modem service, fiber optic internet, and fiber transport services up to 10Gbps. Having been in business for over 25 years we operate an extensive fiber optic network in central Minnesota. We provide service to residential, business, and community anchor institutions including schools, libraries, public safety, and medical health care facilities. We also provide fiber optic internet and transport service to the tribal government, and tribal businesses within our service area. In addition we are interconnected to fiber transport providers that are adjacent to our fiber network enabling fiber transport across our network to many cities throughout Minnesota including Duluth, and Minneapolis/St. Paul.
