Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).
 Motorola completed and NTIA accepted our Route Modification. All work to support environmental reporting requirements was completed and prepared to be submitted. Negotiations continued with FirstNET and the BayRICS Joint Powers Authority (JPA) to reach agreement on a Spectrum Management Lease Agreement for the proposed system. Unfortunately, no agreement was able to be reached and Motorola submitted a termination for convenience of the Grant on December 30th 2013.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline plan, please insert them at the bottom of the table. Unless otherwise indicated in the instructions, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or subsequent written updates provided to your program officer)
2a.	Overall Project	12	The indicated variance from the baseline plan for the previous quarter occurred as a result of delays in the finalization and readiness of sites and the ultimate expiration of the Broadband Technology Opportunity Program Grant
2b.	Environmental Assessment	55	Throughout the quarter significant work was performed with regard to National Environmental Protection Act and Historical Preservation Act.
2c.	Network Design	100	Although the Project Baseline report indicates that Motorola Solutions should be 100% complete, Motorola Solutions has currently exceeded 100% (maximum allowed to be reported is 100%). Motorola Solutions is anticipating that the indicated variance from the baseline plan is the result of additional effort required in the finalization and readiness of sites and other program requirements.

2j.	Network Testing	0	The indicated variance from the baseline plan for the previous quarter occurred as a result of the partial suspension placed on the program. All LTE-equipment related tasks have been suspended indefinitely.
2k.	Other (please specify):	41	The indicated variance is due to the deferment of staffing program management and other project positions until the start of scheduled implementation, now also impacted by the partial suspension of the LTE equipment portion of the program.

3. To the extent not covered above, please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).
