1. Please provide the following average cost figures for your project. Please review the instructions to determine how to calculate these figures. Write "0" in the second column and "N/A" in the third column if your project does not yet have this information. Depending on whether your project contains Middle Mile and/or Last Mile components, some metrics may not apply. Please provide a narrative description if the total is different from the target provided in your baseline plan (600 words or less).

7a. What network management policies (e.g., bandwidth limitations, traffic prioritization) are in place for the services provided by your project? 7b. Have you ever limited or blocked consumers from accessing any lawful content, service, service provider, or application, or prevented any consumers from attaching any legal device to the network? If so, please explain why (300 words or less)?
a) CAI's can request their bandwidth limited but by default Merit does not limit the users access. b) Merit has not block access to any lawful content, service, service provider, or application, or prevented any consumers from attaching any legal device to the network.

8. If applicable, please provide the total number and the percentage of subscribers who have dropped the broadband service provided through this project (total number of households and/or businesses and the "churn rate") and the subscribers' reasons for discontinuing their service (600 words or less).

14. Please describe any best practices/lessons learned that can be shared with other similar BTOP projects (900 words or less).

Merit encourages all BTOP recipients to reach out to communities at all levels and get them involved in the process. Build relationships with all the permitting agencies; we would suggest informal meetings with them on a regular basis. Merit would encourage that inquiries with communities on existing infrastructure as well as talking with others in your industry about existing infrastructure given that the cost is about the same or less and the time savings will get you ahead of your project.
