4.a. Please check the primary uses of the PCCs funded by this award. (Check all that apply.)

- Open Lab Time Other Training

4.b. If "other," please specify the primary use of the PCCs:

In addition to open lab and technology training, the PCCs function as job development sites. Members of the community can meet and work with job developers, get help with resume writing and job applications, and search online for job openings.

5. Please list all of the PCC broadband equipment and/or supplies you have purchased during the past year using BTOP grant funds or other (matching) funds, including any customer premises equipment or end-user devices. If additional space is needed, please attach a list of equipment and/or supplies. Please also describe how the equipment and supplies have been deployed (600 words or less).

7. Please describe how your Public Computer Center(s) promotes economic recovery in your area, such as through providing job training, access to job searches, online course offerings, certifications and the like (600 words or less).
 By co-locating technology training, computer access, and job development services at the Public Computer Centers (PCCs), the Housing Authority of the County of San Bernardino (HACSB) has helped 256 people gain employment during the grant period to date.

8. To the extent that you have made any subcontracts or sub grants, please provided the number of subcontracts or sub grants that have been made to socially and economically disadvantaged small business (SDB) concerns as defined by section 8(a) of the Small Business Act, 15 U.S.C. 647, as modified by NTIA's adoption of an alternative small business size standard for use in BTOP. Please also provide the names of these SDB entities (150 words or less).
 Two subcontracts have been made to socially and economically disadvantage small businesses under the BTOP grant. The security contractor is Spigroup, and the monitoring contractor is Clayton-Morrow, Inc.

9. Please describe any best practices / lessons learned that can be shared with other similar BTOP projects (900 words or less).
 HACSB advertised the PCCs in the local community--in grocery stores, churches, and on public transportation--to raise public awareness of the available services, but also to emphasize that the PCCs are available for those who are not participants in any other HACSB program. We believe that this led to a fuller utilization of the PCCs. We also believe that co-location of computer access, technology training and job placement services at the PCCs had a positive impact on the number of people who obtained jobs.
