Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

In Q1 of 2013, CETF hosted the consultants funded by NTIA to evaluate the work of CETF and the BAA partners. CETF arranged for a three day tour to meet or speak with all 8 subrecipients as well as some of their clients and partners organizations.

The BAA project officially concluded on January 31, 2013. However, CETF supported the launch of Connect to Compete and the EveryoneOn campaign on March 21 in Los Angeles. The introduction of an affordable broadband offer was well received. Although the BAA grant has concluded, CETF will continue to invest in projects working to close the Digital Divide with continued emphasis on Southern California and the Central Valley.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	Overall Project	100	n/a
2.b.	Equipment / Supply Purchases	-	Progress reported in Question 4 below
2.c.	Awareness Campaigns	-	Progress reported in Question 4 below
2.d.	Outreach Activities	-	Progress reported in Question 4 below
2.e.	Training Programs	-	Progress reported in Question 4 below
2.f.	Other (please specify):	-	Progress reported in Question 4 below

3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

The BAA Project is complete.

4a. In the chart below, please provide the requested information on your BTOP grant-funded SBA activities. Please also provide a short description of the activity (600 words or less). Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please ensure that the numbers of new household subscribers and business or community anchor institution (CAI) subscribers reflected in the "Total" row represent the unduplicated number of new subscribers that can be attributed to your SBA project as a whole.

DATE: 05/07/2013

Name of the SBA Activity	Location of SBA Activity	Description of Activity (600 words or less)	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAIs
AwarenessSacramento, Central Valley of California with an emphasis on Fresno as well as Los Angeles CountiesRadio Bilingue has a number of broadband, how people of california with an emphasis on Fresno as well as Los Angeles CountiesRadio Bilingue has a number of broadband, how people of california with an emphasis on Fresno as well as Los Angeles CountiesAwarenessSacramento, Central Valley of California with an emphasis on Fresno as well as Los Angeles CountiesRadio Bilingue has a number of broadband, how people of computer. Programs are aire 		This includes earned and paid media in the Central Valley, Inland Empire and Greater Los Angeles area as well as Spanish language community media in the Bay Area. (This is 266% of the stated goal). The Size of Target Audience number in this section has been modified to reflect the total goal for the project as it was included in the original proposal. This will allow for a clearer comparison of goals vs. actuals and facilitate monitoring of progress going forward. Radio Bilingue has a number of programs airing daily about the benefits of broadband, how people can subscribe or learn how to use a computer. Programs are aired in English, Spanish, and two indigenous languages – Triqui and Mixteco. Hmong programming on broadband was added in Q3 of 2011. Their programming also includes live remote broadband. Fresno and Los Angeles were the target markets in April 2011 with added media in Fresno, Sacramento and the Bay Area in Q3 of 2011. The Bay Area was the target for the PSAs in Q4 of 2011 promoting the Alameda County Office of Education Technology Expo and affordable broadband offers. In Q1 of 2012, CETF linked EITC education and outreach with the broadband message in the Central Valley, Los Angeles and the Inland Empire. Partners have also been featured in numerous local newspapers and television programs to inform people about their programs. In Q3 of 2012, CETF used a combination of print, television, radio and bus shelters for its Back to School advertising. The media stressed the importance of both a computer and broadband as critical for families with children. Over 225 million media impressions have been tracked to date. This includes 145 million as a result of Club Digital Phase One. The Club Digital Phase Two impressions were not included in this total.	5,000,000	13,296,068	0	0
Outreach	San Francisco Bay Area, Central Valley, Los Angeles, Sacramento, San Diego and Monterey Counties	This new expanded BTOP report template allows CETF to distinguish between face-to-face outreach conducted to recruit a person to attend a specific event or training (Outreach) and outreach that is more about distributing educational information (Outreach Orientation Events) such as email invitations, listserves and general broadband education materials. Both strategies are important but they are distinct and therefore will be documented and reported out separately in this report. (This is 121% of the stated goal). BAA Partners shared information about broadband and local training opportunities at events that target working families in the Sacramento, Bay Area, Fresno, and Los Angeles. Partners used a variety of information channels to recruit participants to attend specific events and trainings.	553,942	668,664	47,115	0
Outreach Orientation Events	San Francisco Bay Area, Central Valley, Los Angeles, Sacramento, San Diego and Monterey Counties	This new expanded BTOP report template allows CETF to distinguish between face-to-face outreach conducted to recruit a person to attend a specific event or training (Outreach) and outreach that is more about education and sharing information (Outreach Orientation Events) such as email invitations, listserves and general broadband education materials. Both strategies are important but they are distinct and therefore will be documented and reported out separately in this report. (This is 294% of the stated goal). BAA Partners shared information about broadband and local training opportunities at events that target working families in the Bay Area, Fresno and Los Angeles regions. The events targeted African-American, Asian and Latino families in venues that offered an opportunity to introduce the issue of broadband, share educational materials and instruct people to call 2-1-1 to locate computer training or low-cost computers. Partners used media interviews and newspapers to encourage people to attend these events where technology may not be the main focus. Photos of some of these events can be found at http:// www.flickr.com/photos/getconnectedtoday/. These events are designed as general outreach events to raise awareness about broadband and provide information about where to go for additional training or information. These include events hosted by faith based organizations, co-sponsoring existing events such as health fairs, and flyers/posters distributed to encourage people to call 2-1-1 or visit the Get Connected website for more information. The Get Connected! Roundtables promoting broadband adoption and digital literacy among organizations and anchor institutions continued.	500,000	1,471,562	141,655	0

DATE: 05/07/2013

Name of the SBA Activity	Location of SBA Activity	Description of Activity (600 words or less)	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAIs
		The Get Connected! Today website has been expanded to include a "Partner Portal" which allows organizations, in addition to the BAA partners, to log-in and share resources with the network. This includes posting community events and training opportunities. A total of 614 individuals representing 230 community-based organizations and 24 anchor institutions have joined as partners. (These numbers are not included in totals.)				
		The actual number includes an estimated 452,690 of total people who received printed materials, including the La Opinion supplement, multiplied by the average Hispanic household (4.06 people per Hispanic household in California) for a total of 1,837,921 reached. Only the 452,690 is included in the totals.				
Training	San Francisco Bay Area, Central Valley, Los Angeles, Sacramento, San Diego and Monterey Counties	BAA partners offer basic digital literacy training in a variety of venues including health clinics, community-based organizations, adult schools, and senior centers. The training designed to help families understand the benefits of being online. It also incorporates information on how to choose a broadband provider. Trainings have been well-received with frequent requests for additional classes. A portion of the subscriptions was moved to referrals to reflect the subscriptions from 211. (This is 106% of the stated goal). The Accessible Technology Coalition (ATC) uses webinars and their website to teach librarians, community organizations, and other resource centers about assistive technology for people with disabilities (www.atcoalition.org). ATC now reaches organizations and individuals nationally. The training number includes 2,173 people, representing anchor institutions and non-profit organizations, who attended the ATC webinars and in-person trainings. The training numbers also include 85,518 people trained in the City of Los Angeles to use One-e-App to apply for and manage their own public benefit programs online. The 2-1-1 network providers also reported that 4,310 people said they attended training after being referred to a training program. This number includes those who read at spent 1.5 hours reading the articles in Club Digital and 3 hours or more in Club Digital Two for a total of 630,041 trainings.	678,000	719,118	2,495	0
Training	San Francisco Bay Area, Los Angeles and 2-1-1 locations	This training is the training of the staff charged with implementing the project. Specifically this includes the One-e-App assistors, 2-1-1 staff, community-based organizations hosting the trainings and staff responsible for documenting people trained and new subscribers. The 2-1-1 counties include Alameda, Contra Costa, Fresno, Kern, King, Los Angeles, Marin, Mendocino, Monterey, Napa, Nevada, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Luis Obispo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sonoma, Solano, Stanislaus, Tulare and Ventura. One-e-App is currently used in Alameda, Fresno, Humboldt, Los Angeles, Los Angeles, Napa, Orange, Sacramento, San Diego, San Francisco, San Mateo, Santa Clara, Santa Cruz, and Sonoma counties.	137	137	0	0
Referrals	The 2-1-1 counties listed in the Descriptions of Activities. The One-e-App includes the counties of Fresno, Los Angeles, San Diego, San Mateo and Santa Clara	The 2-1-1 counties listed in the Descriptions of Activities. The One-e- App includes the counties of Fresno, Los Angeles, San Diego, San Mateo, and Santa Clara. (This is 154% of the stated goal). The total number includes 59,496 calls screened and referred by 211 and 222,204 who used the One-e-App and clicked the "Learn more about broadband" link after using their online application. It also includes the people screened for employment training opportunities in the City of Los Angeles.	176,233	282,655	7,478	0
Project Sponsored Websites	Statewide with some national usage	CETF and its partners developed new or expanded their existing websites as part of the BAA project. CETF expanded its broadband education portal called Get Connected! Today with a resource map and more information as well adding a partner portal (http://www. getconnectedtoday.com/). The Center for Accessible Technology's developed a new website to serve as a clearinghouse and training portal about Accessible Technology for people with disabilities (http:// atcoalition.org/). Radio Bilingue expanded its website to include broadband information and resources as well as archiving all broadcasts funded by this grant (http://conectate.radiobilingue.org/). A total of	345,000	384,587	0	0

DATE: 05/07/2013

Name of the SBA Activity	Location of SBA Activity	Description of Activity (600 words or less)	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAIs
		26,742 RB programs have been downloaded. Together these websites reported 384,587 unique visitors. This total is included above in the Outreach total.				
	Total:		7,253,312	16,822,791	198,743	0

4b. Please describe your method for determining the number of households, businesses, and/or (CAIs) subscribing to broadband as a result of your SBA programs (600 words or less).

BAA partners use a variety of strategies to directly confirm that a household has subscribed. For one day events, partners call back training participants within a month to determine if they have subscribed. New subscribers are asked to share their "welcome letter" confirming service or their first month's bill in order to receive discounted computers or a subsidy to help pay one month of service. The 2-1-1 staff call back 1% of those that are referred to training and broadband providers. Some partners use the welcome letter or confirmation email from the providers as a raffle ticket for prizes to create incentives for adoption. In some cases an email from class participants showing the provider's name demonstrates a subscription.

CETF conservatively estimates that 44,705 new adoptors between 2010 and 2011 can be credited to the efforts of BAA based on a 6% rate of the total number of new adopters under \$40,000 based on the PPIC Statewide Survey. This is the same rate of broadband adoption that United Ways of California/2-1-1 finds when they call back clients who have expressed an interest in broadband. CETF decided not to include the increases from the 2012 PPIC Statewide survey since CETF exceeded its goals for adoption and wants to be conservative in how it counts broadband adoption.

CETF required a pre and post Club Digital survey to determine broadband adoption and training numbers. The research was conducted on behalf of impreMedia by Simmons Research according to widely acceptable research standards for random surveys during the first three weeks of September 2011. It measured the impact the Club Digital Phase One that ran in California from August 1 to August 31, 2011 by asking how many hours were spent reading the lessons and how much was learned as well as how many people subscribed to broadband in the seven weeks ending in October when the survey was conducted. A third survey was conducted by Simmons media in June and July 2012 to assess the impact of the Club Digital Phase Two which ran in May 2012. CETF estimates that 30,825 immediately adopted after Phase One and 108,434 from October 2011 to April 2012. The total number has been reduced from the previously reported adoption number to reflect a more conservative approach on counting the number of broadband adoptions from Club Digital in Phase One and Two.

4c. Please provide a narrative explanation if the total number of new subscribers is different from the targets provided in your baseline plan (600 words or less).

The BAA Project exceeded its goal of new subscribers.

4d.	Please provide the number of households and the number of businesses and CAIs receiving discounted broadband service as result of
BTO	OP funds.

Households: 85

Businesses and CAIs : 0

Project Indicators (Next Quarter)

1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less). The BAA Project is complete.

2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	Overall Project	100	n/a

Sustainable Broadband Adoption Budget Execution Details

Activity Based Expenditures (Sustainable Broadband Adoption)

1. Please provide details below on your total budget, cumulative actual expenditures (for the period ending the current quarter), and cumulative anticipated expenditures (for the period ending next quarter) for each line item, including detailed disbursements of both matching funds and federal funds from project inception through end of this quarter (actual) or next quarter (anticipated). Actual and anticipated figures should be reported cumulatively from award inception to the end of the applicable reporting quarter.

В	Actuals from Project Inception through End of Current Reporting Period			Anticipated Actuals from Project Inception through End of Next Reporting Period					
Cost Classification	Total Cost (plan)	Matching Funds (plan)	Federal Funds (plan)	Total Cost	Matching Funds	Federal Funds	Total Costs	Matching Funds	Federal Funds
