Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

One Economy and Broadband Opportunity Coalition (BBOC) BTOP funds support four areas to generate broadband adoption in under-served communities. The following activities were completed this quarter:

Affordable Access

We provided Internet access to 12,271 households in multiple cities in California, Connecticut, Illinois, North Carolina, Ohio, Oregon, Washington, South Dakota, and Texas as well as in Atlanta, Milwaukee, Norfolk, St. Louis, and Washington DC.

Digital Literacy

44 Digital Connector youth training programs started and are in progress this quarter with over 650 youth enrolled. We held digital literacy trainings with over 20,000 participants in multiple states.

Awareness

We reached over 1 million people through our media and outreach efforts. We launched a successful We Are Now Connected event in Chicago with residents, elected officials, corporate and community partners in attendance. Initial evaluation visits were completed for 4 of our 5 test cities.

Online/Mobile Content Creation

Craig Stokes Style Minute was released as a featured program on our Public Internet Channel. In addition, the following productions started this quarter and are currently in post-production: Urban Organic, Everyday Tech, Front Seat Chronicles, and a pilot for a Kevin Frazier-hosted entertainment show tying into the Beehive.

Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

4b. Please describe your method for determining the number of households, businesses, and/or (CAIs) subscribing to broadband as a result of your SBA programs (600 words or less).

The 12,271 subscribers are affordable housing units/low-income households connected with BTOP resources to broadband service. One Economy anticipates connecting a total of 27,000 housing units/subscribers. As a result of these efforts, we estimate that an additional 123,000 subscribers will subscribe using their own or other resources. A third-party evaluator will independently determine our impact on new subscriptions.

4c. Please provide a narrative explanation if the total number of new subscribers is different from the targets provided in your baseline plan (600 words or less).

We continued to catch up from challenges from prior quarters but are very near target and back on track for next quarter.

4d. Please provide the number of households and the number of businesses and CAIs receiving discounted broadband service as result of BTOP funds.
