# Performance Progress Report

## 1. Recipient Name
State of Maine, ConnectME Authority

## 3. Street Address
138 Statehouse Station,

## 5. City, State, Zip Code
Augusta, ME 04333-0138

## 2. Award Or Grant Number
23-50-M09062

## 4. Report Date (MM/DD/YYYY)
10-12-2011

## 6. Designated Entity On Behalf Of:
State of Maine

## 7. Project / Grant Period
**Start Date:** (MM/DD/YYYY) 01-01-2010  
**End Date:** (MM/DD/YYYY) 12-31-2014  
**Reporting Period End Date:** 09-30-2011

## 8. Final Report?
Yes  
No

## 9. Report Frequency
Quarterly  
Semi Annual  
Annual  
Final

## 10. Broadband Mapping

10a. Provider Table

10b. Are you submitting the required PROVIDER DATA by using the Excel spreadsheet provided by the SBDD grants office?  
Yes  
No

10c. Have you encountered challenges with any providers that indicate they may refuse to participate in this project?  
Yes  
No

10d. If so, describe the discussions to date with each of these providers and the current status

The project team has not entered into data sharing agreements with the following providers:

- ACS Telecom Inc.
- Broadview Networks Holdings, Inc.
- Bullseye Telecom
- Caprock Communications
- Cybertek Web Connection
- Hughes Network Systems
- Hussey Communications
- Level 3 Communications
- Matrix Telecom
- Mitel Netsolutions
- Paetec Communications
- Qwest Communications International, Inc.
- RCN Corporation
- Segtel
- SkyWay USA
- Utel (d/b/a Bay Ring Communications)
- Wholesale Carrier Services
- World Discount Telecommunications (WDT)

For more details, please refer to the Q3 Supplemental Answers Document.

10e. If you are collecting data through other means (e.g. data extraction, extrapolation, etc), please describe your progress to date and the relevant activities to be undertaken in the future

Community Anchor Institutions – The Community Anchor Institution (CAI) data set has been assembled from several different sources such as the State of Maine Office of GIS (MEGIS), State of Maine Office of Information Technology (OIT), NAVTEQ NAVSTREETS Points of Interest, the State of Maine Department of Health and Human Services (DHHS), the State of Maine Office of Risk Management, the State of Maine Emergency Management Agency, the University of Maine System, Maine School and Library Network (MSLN), Maine’s Research & Education Network (MaineREN), National Center for Education Statistics, and SteepleCom. The project team conducted an extensive phone survey task to collect broadband service data for the CAI records. As of 30-September-2011, the existence of broadband service has been captured for 2,904 out of 4,379 CAI records. We are planning to conduct a second round of phone surveys during the fourth quarter of 2011.
Third Party Commercial Data Sets – The project team has licensed the CoverageRight by State product from American Roamer for Maine. CoverageRight contains coverages for both mobile and fixed wireless providers. These coverages are being compared to coverages created from provider data submittals to help verify the extents of the served areas and could potentially infill areas where providers have not yet submitted data.

The project evaluated the MicroBuild Broadband Indicator product from Gadberry Group for Maine as well as a broadband pricing product for Maine from Telogical Systems. The project team determined that the products do not offer the level of information necessary to justify their costs.

10f. Please describe the verification activities you plan to implement

Provider Validation
Speed Test Tool
Field Verification
Online Survey
Mail Survey
Telephone Survey
Service Locations / Failed Service Locations
FCC Form 477 Aggregate Data
FCC Consumer Broadband Test (CBT) Data
Third Party Commercial Data Sets
Broadband Availability Website
Static Map Gallery Website
E911 ALI Database Report

For more details, please refer to the Q3 Supplemental Answers Document.

10g. Have you initiated verification activities?  Yes  No

10h. If yes, please describe the status of your activities

The project team has initiated the following verification activities:

Provider Validation
Speed Test Tool
Field Verification
Online Survey
Mail Survey
Telephone Survey
Service Locations / Failed Service Locations
FCC Form 477 Aggregate Data
FCC Consumer Broadband Test (CBT) Data
Third Party Commercial Data Sets
Broadband Availability Website
Static Map Gallery Website

For more details, please refer to the Q3 Supplemental Answers Document.

10i. If verification activities have not been initiated please provide a projected time line for beginning and completing such activities

The project team expects to initiate the following verification activity:

E911 ALI Database Report:
Due Date – The project team is prototyping a process that will geocode the records included in a E911 ALI database and link address counts to the streets in the GIS. The team intends to continue working on this process and plans to have it ready for use in fourth quarter of 2011.

Staffing

10j. How many jobs have been created or retained as a result of this project?

1.37

10k. Is the project currently fully staffed?  Yes  No
10l. If no, please explain how any lack of staffing may impact the project's time line and when the project will be fully staffed

NA

10m. When fully staffed, how many full-time equivalent (FTE) jobs do you expect to create or retain as a result of this project?

1.37

10n. Staffing Table

**Hardware / Software**

10u. Has the project team purchased the software / hardware described in the application? [ ] Yes [ ] No

10v. If yes, please list

**Speed Test Tool** – The underlying technology for the Speed Test web application belongs to Ookla Networks. Ookla Networks received a one time fee to customize the tool for the State of Maine speed test web site and receives a yearly license fee.  
Associated Cost – Customization fee: $1,000.00; first year license fee: $495.00; second year license fee: $495.00  
**Database and Server Software Licenses** – In order to host the Service Provider Data Upload web application and store the provider data submitted, licenses for Windows Server and for SQL Server, Standard Edition were acquired. To develop the provider data upload application, Adobe Flex was acquired.  
**Mobile Wireless Field Collection Units** – Hardware and software were purchased for the mobile wireless field collection units. The hardware included laptops with mobile wireless USB connection modems/cards and the software included Microsoft Office applications and Microsoft Streets and Trips.  
Associated Cost – Laptops and software: $2,757.04; USB wireless air cards: $1,856.25  
**Geoportal & Static Map Gallery Website** - The website was implemented based on James W. Sewall’s GeoPortal platform.  
Associated Cost – Implementation & customization fee: $8,000.00; 2011 Hosting Fee/Support/Maintenance fee: $3,000.00; 2012 Hosting Fee/Support/Maintenance fee: $4,800.00; 2013 Hosting Fee/Support/Maintenance fee: $4,800.00;  

10w. Please note any software / hardware that has yet to be purchased and explain why it has not been purchased

NA

10x. Has the project team purchased or used any data sets? [ ] Yes [ ] No

10y. If yes, please list

The project team licensed a third party road centerline data set for Maine. The NAVTEQ NAVSTREETS product was licensed to fill in those areas in the State of Maine that are not currently covered by the State’s E911 roads data set. The Maine Office of GIS licensed product.
The project team licensed CoverageRight by State product from American Roamer for Maine. The American Roamer CoverageRight product for Maine has a 2 year license agreement at a fee of $12,671.25. Thus far the Mapping project has paid the costs for the first year - $6,335.63.

The project team has purchased residential and business address lists from InfoUSA. At this point the Mapping project has acquired 10,000 addresses from InfoUSA at a cost of $650.00.

10z. Are there any additional project milestones or information that has not been included?  Yes  No

10aa. If yes, please list

For details, please refer to the Q3 Supplemental Answers Document.

10bb. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

The Mapping project team has encountered challenges in the following areas:

Provider Data Formats
State E911 Street Coverage
Misalignment between Year 2010 Census Blocks & Maine E911 Streets
Fixed Wireless Propagation Modeling
Middle Mile Locations
Resellers
Data Confidence Intervals
Assimilating Verification Findings
CAI Broadband Service Information

For more details, please refer to the Q3 Supplemental Answers Document.

10cc. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project

NA

11. Broadband Planning

11a. Please describe progress made against all goals, objectives, and milestones detailed in the approved Project Plan. Be sure to include a description of each major activity / milestone that you plan to complete and your current status

The major activities for the Planning project are:

• Project Setup
• Data Gathering
• Data Analysis
• Needs Assessment
• Strategic Plan
• Program Implementation
• Measure Effectiveness
• Refine Strategic Plan

For more details, please refer to the Q3 Supplemental Answers Document.

Major activities for the Technical Assistance Project are:

Maine Department of Education Adult and Community Education Team began recruiting adult education programs to become the Community Connection for broadband technical assistance. Thirty nine programs covering all the States major cities and towns have signed a Memorandum of Understanding. The Team designed a handout to be distributed to all participating adult education programs for use in the technical assistance presentations. The team began recruiting teachers for the Maine Adult Regional Technology Initiative Training. Forty nine teachers have enrolled in the course. A Kickoff introduced the broadband project to the Trainer and Mentors providing them information to be shared with the teachers in the program. This included a presentation on the Maine State Library Broadband website.

Major activities for the Capacity Building Project are:

The members of the Broadband Capacity Building Advisory Task Force were contacted and confirmed as participants. The task force includes nine members from a variety of geographies and backgrounds. A series of orientation sessions will be held by staff and the task force chair. The orientations are scheduled for October and November. The first task force meeting is scheduled for early December. The contractor has researched best practices and met with their high level advisory group.

11b. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

The Planning project team has encountered challenges in the following areas:

Reaching Rural Residents
Survey Returns
Subscriber Counts
For more details, please refer to the Q3 Supplemental Answers Document.

11c. Does the Project Team anticipate any changes to the project plan for Broadband Planning?  ● Yes  ○ No

11d. If yes, please describe these anticipated changes. Please note that NTIA will need to approve changes to the Project Plan before they can be implemented

NA

### Funding

11e. How much Federal funding has been expended as of the end of the last quarter?  $0  11f. How much Remains?  $0

11g. How much matching funds have been expended as of the end of last quarter?  $0  11h. How much Remains?  $0
