

**QUARTERLY PERFORMANCE PROGRESS REPORT FOR SUSTAINABLE BROADBAND ADOPTION**

General Information		
<b>1. Federal Agency and Organizational Element to Which Report is Submitted</b>  Department of Commerce, National Telecommunications and Information Administration	<b>2. Award Identification Number</b>  26-43-B10564	<b>3. DUNS Number</b>  147738876
<b>4. Recipient Organization</b>  EASTERN U P INTERMEDIATE SCHOOL DISTRICT 315 ARMORY PL, SAULT SAINTE MARIE, MI 49783-2005		
<b>5. Current Reporting Period End Date (MM/DD/YYYY)</b>  09-30-2011	<b>6. Is this the last Report of the Award Period?</b>  <input type="radio"/> Yes <input checked="" type="radio"/> No	
<b>7. Certification: I certify to the best of my knowledge and belief that this report is correct and complete for performance of activities for the purposes set forth in the award documents.</b>		
<b>7a. Typed or Printed Name and Title of Certifying Official</b>  Tracy McCord	<b>7c. Telephone (area code, number and extension)</b>  906-632-3373	
	<b>7d. Email Address</b>  tmccord@eup.k12.mi.us	
<b>7b. Signature of Certifying Official</b>  Submitted Electronically	<b>7e. Date Report Submitted (MM/DD/YYYY):</b>  11-29-2011	

**Project Indicators (This Quarter)**

**1. Please describe significant project accomplishments completed during this quarter (600 words or less).**

**Netbook Distribution:**

We distributed 698 netbooks to students at three schools. At this time there is only one very small school waiting for the initial distribution of netbooks and this school was not sure they would have any students in the grades targeted by our project until this past summer. Also, we spent a significant amount of time at the beginning of the school year making sure that new students in each school had netbooks.

**Training Sessions:**

The instructional technologist hired for the project has offered professional development to teachers and paraprofessionals with the goal of increasing the educational use of the netbooks in the classrooms. The trainings have been well received and according to school district administrators are driving a change in instructional practices. The Engadine Superintendent spoke up in a regional superintendents meeting about the way teachers in her school were using the netbooks to teach 21st century skills and improve instruction. The assistant principal of Sault High School noted that teachers, students, and parents were expecting that everyone in class had a working netbook and when a netbook was in for repair he was hearing about it. From a visionary perspective, this is a great observation since it shows that the netbooks are being used as an educational tool. We also understand from this observation that the turnaround time for repairs needs to be as quick as possible.

At the end of September the first two community outreach events were held. They were presented by the BTOP instructional technologist and the topic, which was requested by some parents and school personnel, was Facebook privacy, security, and features. The sessions were not well attended, so we will try some different forms of advertising for future events.

**Increasing Residential and Business Broadband Subscribership:**

The logistics of netbook distribution has again dominated our time this quarter. Vouchers for \$100 off the equipment to connect to high speed internet through our vendor partner, Lighthouse. net, were made available at every parent and student meeting and many were taken by families.

**Project Reflection:**

September 30, 2011 was the end of the first year of our grant. We accomplished a lot in the first year including hiring staff, selecting the devices, handing out almost all the netbooks, extensive teacher training, and holding parent meetings. The teachers and students are embracing the changes in education that one to one computing offers. I hoped this would happen, but did not expect it to happen this quickly. Over a three day period (Saturday, Sunday, and Monday) in late September more than 1,000 different users, both teachers and students, logged into Moodle, which is our online learning platform. A year ago it was less than 50 users. I know from looking at the information we have, such as the Moodle log in data, that students are using broadband internet both at school and at home. I know from informal anecdotal data that more students have broadband internet at home now than before we started this work. For example, a family from St. Ignace talked to me after a parent meeting and explained that they used to have a computer at home but when it stopped working they could not afford to replace it. The father was so thankful that his son was getting a netbook to help with school and they took a voucher so they could get broadband internet at home. It's exciting to be part of a project that is moving education forward by providing tools and training.

**2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).**

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	Overall Project	73	We are probably a quarter behind where we thought we would be, but nearly all the devices have been purchased. This percent complete is based on budget spending. There is plenty of work left to do, especially in the area of community outreach events.
2.b.	Equipment / Supply Purchases	-	Progress reported in Question 4 below
2.c.	Awareness Campaigns	-	Progress reported in Question 4 below
2.d.	Outreach Activities	-	Progress reported in Question 4 below
2.e.	Training Programs	-	Progress reported in Question 4 below
2.f.	Other (please specify):	-	Progress reported in Question 4 below

**3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).**

The beginning of the school year was tremendously challenging. We spent the month of September making sure that new students in every school in our grant had a netbook computer. We also learned that many students needed repairs during this time period. Even though we set up a place where students could drop off netbooks at or near their school over the summer if they needed repairs, many students waited until school started to get repairs done. Our largest school has 800 netbooks and 100 of those were turned in for repair in the first week of school. While it's frustrating to have so many netbooks in for repair, the warranty continues to cover the repairs and it shows that families are using the devices. The amount of repair work, now that all the netbooks have been distributed except the final small school, is showing that we could use more technician time on the project. We plan to examine our salary line of the budget with the goal of hiring an additional full or part time computer technician.

**4a. In the chart below, please provide the requested information on your BTOP grant-funded SBA activities. Please also provide a short description of the activity (600 words or less). Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please ensure that the numbers of new household subscribers and business or community anchor institution (CAI) subscribers reflected in the "Total" row represent the unduplicated number of new subscribers that can be attributed to your SBA project as a whole.**

Name of the SBA Activity	Location of SBA Activity	Description of Activity (600 words or less)	Size of Target Audience	Actual Number of Participants	New Subscribers: Households	New Subscribers: Businesses and/or CAIs
Student Distribution Meeting	Sault High School	Introduction to the grant, netbook user expectations, internet safety, Lighthouse voucher program, cloud computing, hand out the netbooks, students log in to active directory and the cloud, home broadband pre-survey	880	732	6	0
Student Distribution Meeting	Sault Middle School	Introduction to the grant, netbook user expectations, internet safety, Lighthouse voucher program, cloud computing, hand out the netbooks, students log in to active directory and the cloud, home broadband pre-survey	425	377	0	0

<b>Total:</b>			<b>8,541</b>	<b>5,567</b>	<b>28</b>	<b>0</b>

**4b. Please describe your method for determining the number of households, businesses, and/or (CAIs) subscribing to broadband as a result of your SBA programs (600 words or less).**

Lighthouse.net, our vendor partner in this project, has provided the new broadband subscriber data. In quarter one of 2011 Lighthouse.net reported 25 attempts to use the \$100 voucher they offer, with only 6 homes that were located in Lighthouse.net's service area. In quarter two of 2011 Lighthouse.net reported 28 requests to use the vouchers, 11 of which are within the service area. In quarter three of 2011 Lighthouse.net reported that they had 28 requests to use the vouchers and were able to provide service to eleven of those. In total, we can attribute 28 new residential subscribers and 81 new queries for broadband at home. The major broadband providers in our area are Lighthouse.net, AT&T, Charter, and CenturyLink. There are also at least eight smaller providers. Lighthouse.net does not currently offer service in all of the communities in the grant and they are the only provider willing to share subscription data with us.

**4c. Please provide a narrative explanation if the total number of new subscribers is different from the targets provided in your baseline plan (600 words or less).**

Our baseline plan was 350 new residential subscribers per quarter, so the 28 new subscribers we can attribute to the project is well behind the target we set. I suspect that the original estimate of families that were without broadband at the beginning of the project was higher than the actual number. Also, it's interesting that 65% of the requests to use the vouchers so far (53 out of 81 total requests) could not get broadband service with Lighthouse.net. Hopefully these families pursued service through other providers. The new business subscriber target in our baseline plan has also not been met. The target was based on developing entrepreneurs from our community training sessions. Those business/entrepreneurship sessions have not started, but will be a focus of the next year of the grant.

**4d. Please provide the number of households and the number of businesses and CAIs receiving discounted broadband service as result of BTOP funds.**

<b>Households:</b> 0	<b>Businesses and CAIs :</b> 0
----------------------	--------------------------------

**Project Indicators (Next Quarter)**

**1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less).**

**Netbook Distribution/Logistics:**

The final school should get their netbooks in October. The two BTOP computer technicians are extremely busy keeping up with repairs and don't have enough time right now for some of the proactive work that could be done in using the cloud and other tools. We have examined the budget and have enough to hire one more technician for the project, so we are planning to hire that position in the next quarter. We plan to do a comprehensive inventory next quarter to make sure we still have all the netbooks.

**Training Sessions:**

The instructional technologist is doing more community training events on Facebook and Internet Safety for Parents during the next quarter. She is also visiting schools to help teachers and students integrate technology into learning, as well as offering some professional development sessions at the ISD. We are in the planning phase for other community outreach events. It is doubtful that those will be presented before the end of December, but much of the foundational work for the outreach events about online financial services and online educational services is planned for the next quarter.

**Increasing Residential and Business Broadband Subscribership:**

Several of the community training sessions will be in development over the next quarter so that they are ready to go after the holidays. This next quarter will be one of laying the foundation for a future push to increase subscribership. I am working to find the right people to present the community training events in the business and educational areas. I have had great meetings with people at three local banks and we are moving forward with a series of financial education and planning workshops. I have made some queries at local colleges, but have not made the right connections for the online educational trainings yet. Every time I talk to someone about it, they suggest someone else to talk to, so I have more contacts to try. I also will be calling on local online business owners to try to get the entrepreneur trainings into the development stages. I am aware that curriculum exists for all of these community training topics within other BTOP projects, but the first step is to find the right people to present the material.

--

**2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).**

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or any other relevant information)
2.a.	<b>Overall Project</b>	77	We are currently about 3 months behind our original baseline plan and will not catch up next completely next quarter, but should catch up over the next three or four quarters and be spend down to about 90 percent complete by the end of year two.
2.b.	<b>Equipment Purchases</b>	-	Milestone Data Not Required
2.c.	<b>Awareness Campaigns</b>	-	Milestone Data Not Required
2.d.	<b>Outreach Activities</b>	-	Milestone Data Not Required
2.e.	<b>Training Programs</b>	-	Milestone Data Not Required
2.f.	<b>Other (please specify):</b>	-	Milestone Data Not Required

**3. Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).**

I do not foresee any challenges at this time.

--

**Sustainable Broadband Adoption Budget Execution Details**

**Activity Based Expenditures (Sustainable Broadband Adoption)**

1. Please provide details below on your total budget, cumulative actual expenditures (for the period ending the current quarter), and cumulative anticipated expenditures (for the period ending next quarter) for each line item, including detailed disbursements of both matching funds and federal funds from project inception through end of this quarter (actual) or next quarter (anticipated). Actual and anticipated figures should be reported cumulatively from award inception to the end of the applicable reporting quarter.

Budget for Entire Project				Actuals from Project Inception through End of Current Reporting Period			Anticipated Actuals from Project Inception through End of Next Reporting Period		
Cost Classification	Total Cost (plan)	Matching Funds (plan)	Federal Funds (plan)	Total Cost	Matching Funds	Federal Funds	Total Costs	Matching Funds	Federal Funds
a. Personnel	\$604,650	\$235,050	\$369,600	\$165,526	\$29,214	\$136,312	\$222,000	\$41,000	\$181,000
b. Fringe Benefits	\$375,059	\$84,660	\$290,399	\$81,305	\$7,799	\$73,506	\$107,000	\$9,000	\$98,000
c. Travel	\$75,000	\$15,000	\$60,000	\$21,715	\$5,346	\$16,369	\$24,000	\$6,000	\$18,000
d. Equipment	\$2,827,440	\$565,488	\$2,261,952	\$2,696,146	\$457,040	\$2,239,105	\$2,758,000	\$497,000	\$2,261,000
e. Supplies	\$28,515	\$6,975	\$21,540	\$2,327	\$751	\$1,576	\$2,600	\$1,000	\$1,600
f. Contractual	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0
g. Construction	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0
h. Other	\$48,420	\$38,564	\$9,856	\$36,998	\$36,955	\$43	\$40,400	\$40,000	\$400
<b>i. Total Direct Charges (sum of a through h)</b>	\$3,959,084	\$945,737	\$3,013,347	\$3,004,017	\$537,105	\$2,466,911	\$3,154,000	\$594,000	\$2,560,000
<b>j. Indirect Charges</b>	\$481,860	\$330,000	\$151,860	\$235,060	\$135,060	\$100,000	\$250,000	\$150,000	\$100,000
<b>k. TOTALS (sum of i and j)</b>	\$4,440,944	\$1,275,737	\$3,165,207	\$3,239,077	\$672,165	\$2,566,911	\$3,404,000	\$744,000	\$2,660,000

2. Program Income: Please provide the program income you listed in your application budget and actuals to date through the end of the reporting period.

a. Application Budget Program Income: \$0	b. Program Income to Date: \$0
