6. For PCC access and training provided with BTOP grant funds, please provide the information below. Figures should be reported cumulatively from award inception to the end of the most recent calendar year.

Types of Access or Training	Number of People Targeted	Number of People Participating	Total Hours of Training Offered
Open Lab Access	17,241	48,795	0
Multimedia	0	0	0
Office skills	713	713	1,511
ESL	182	182	518
GED	0	0	0
College Preparatory Training	0	0	0
Basic Internet and Computer Use	562	562	1,032
Certified Training Programs	927	927	1,798
EZone, Job/Interviewing Skills, Tech Bootcamps	20,400	00.400	40.705
Other (please specify):	26,468	26,468	48,795
Total	46,093	77,647	53,654

7. Please describe how your Public Computer Center(s) promotes economic recovery in your area, such as through providing job training, access to job searches, online course offerings, certifications and the like (600 words or less).

The Ocean State Libraries 73 PCC's promote economic recovery in Rhode Island by taking advantage of job skills training on topics ranging from creating Cover Letters, Developing Interviewing Skills, writing Résumés, Branding and Marketing, Online Image and Using Social Media to Network. Additionally, libraries teamed up with the Rhode Island Economic Development Corporation to pilot a new Digital Literacy Curriculum. Libraries also partner with the Department of Labor and Training and the Office of Library and Information Services' EmployRI program to offer additional job-searching workshops. Additionally, many libraries offer hands-on and distance learning ESL classes and general literacy classes. Some of these classes are offered in Spanish or Portuguese. Other libraries continue to provide non-English speaking patrons the assistance in making appointments with the Immigration Office. Those appointments are made only through an online request. As a consortium, OSL continues to offer an updated Featured List on its online catalog page, on a weekly basis. This list highlights and promotes newly added library materials covering myriad job searching and job training topics, including cover-letter writing, résumé-writing, career changes for people who come from specific pervious careers, identifying new career opportunities, and more. The list makes it a one-click option to then request these materials. Nearly all library staff members are aware that the first step for most job applicants requires their having an email address. So libraries assist some patrons with how to create an email address so they can apply for a job they've found. Some libraries have created finding aids for jobs as well. Finally, libraries offer on-the-spot assistance and also planned appointments to patrons who need help with word processing software, spreadsheets, scanning, creating PDF's and similar Office-type skills.

8. To the extent that you have made any subcontracts or sub grants, please provided the number of subcontracts or sub grants that have been made to socially and economically disadvantaged small business (SDB) concerns as defined by section 8(a) of the Small Business Act, 15 U.S.C. 647, as modified by NTIA's adoption of an alternative small business size standard for use in BTOP. Please also provide the names of these SDB entities (150 words or less).

No subcontracts or sub grants have been issued.

RECIPIENT NAME: OSHEAN Inc.

EXPIRATION DATE: 12-31-2013

## 9. Please describe any best practices / lessons learned that can be shared with other similar BTOP projects (900 words or less).

While our first grant year was about purchasing and installing new and/or improved internet access within our libraries and installing routers and switches that will allow our libraries to fully realize the potential for high speed internet access that will come with OSHEAN's infrastructure grant, and while our second year was been about bringing the capacity for state-of-the art classroom technology to the libraries, our third year has been about ramped up training for patrons in myriad areas and bringing state-of-the-art videoconferencing technology capability to libraries, staff and the patrons they serve. Videoconferencing has now been a component of many of our internal meetings over the past year and libraries are becoming more comfortable with the technology so they can share that expertise with the broader community. As a partner with the Providence Emergency Management Association, libraries show their relevance to the community. As several of our libraries are currently being connected to the fiber ring along with our outstanding college and research institutions, we are again, partners in helping keep Rhode Island at the cutting edge of technology. That is a requirement for all successful academic, community and business institutions. While Rhode Island still remains one of, if not the lowest ranking state in terms of unemployment, here in January, 2013, we are finally showing true recovery and we believe libraries have played a role in that.
