PROJECT INDICATORS

1. Are you establishing new Public Computer Centers (PCCs) or improving existing PCCs?

New Improved Both

2. How many PCCs were established or improved, and what type of institution(s) were they associated with? Please provide actual total numbers to date. Figures should be reported cumulatively from award inception to the end of the most recent calendar year. Recipients should only count the PCCs that were fully established or in which improvements have been fully completed in that year (that is, partial improvements should not be counted).

5. Please list all of the PCC broadband equipment and/or supplies you have purchased during the past year using BTOP grant funds or other (matching) funds, including any customer premises equipment or end-user devices. If additional space is needed, please attach a list of equipment and/or supplies. Please also describe how the equipment and supplies have been deployed (600 words or less).

Manufacturer	Items	Unit Cost per Item	Number of Units	Narrative description of how the equipment and supplies were deployed
Cisco	Bundle Voice 3845	10,906	1	This device is terminating the sites Internet link and providing local area network services to the PCC.
Cisco	Bundle Voice 3845	14,641	1	This device is terminating the sites Internet link and providing local area network services to the PCC.
ITEAM Resources Inc.	Request Library System Software	10,800	1	The system is used to automate the reservation of a personal computer, manages the amount of time that an user may use a personal computer, and provides reporting for weekly usage statistics.
FatPipe Networks Inc.	FatPipe Warp 155mg with Maintenance contract	15,809	1	This device allows load balancing, increased bandwidth, and management of the internet connection.
ARUBA	Controller 66 Aruba AP 3600	59,233	1	This wireless controller helps in the management of the wireless access points that have been deployed as a part of the BTOP grant.
Cisco	Catalyst 3750 48 10/100 POE +4 SFP	5,454	6	This device enables connectivity between the PCCs.
cisco	2RU w/ motherboard CIVS-MSF-2RU	30,507	3	This device is used to manage video security cameras across the PCCs.
Cisco	5508 Series Controller for up to 250 APs	31,683	2	A Wireless Controller is designed to manage all your Wireless Access Points (APs) from a single location. The Wireless Controller also helps you manage the load and coverage areas on each of the APs for optimum places.
Cisco	Switch, Catalyst 2960s	7,509	2	This is an ethernet switch which is used to manage and monitor network traffic.
Dell	Appliance K2100 Deployment	13,872	1	This device is a tool used for creating and saving images for hardware. Again with the additional equipment on campus, this device helps with the management of the hardware.
ARUBA	Controller ARUBA 3600	14,120	1	Wireless network controller that will allow the addition of 50+ access points to better serve the community.
Dell	Appliance K1100 KACE	29,734	1	This device is a Inventory/remote access/Help Desk device. With the additional "PCs", this device will have with the management of those PCs.
AT&T	AT&T wi-Fi services Equipment	56,133	1	With a small staff, this wireless service allowed wireless to be extended across the campus.
FATPipe Networks Inc.	STD Warp 50MB-4U (Router)	7,800	1	This device allows for the management of the network connection. It allows for redundancy and increase bandwidth.

7. Please describe how your Public Computer Center(s) promotes economic recovery in your area, such as through providing job training, access to job searches, online course offerings, certifications and the like (600 words or less).
 While South Carolina is beginning to recover from the economic downturn of the past few years, the technical colleges have not seen an increase in funding; therefore making it difficult for them to keep current with today's technology. With the help of the Broadband Technology Opportunities Program-PCC Grant stimulus funding, the 16 technical colleges have been able to provide internet access to the most rural areas of the state which otherwise would not have had broadband access. Now that the majority of the PCCs have been established or improved, the focus has moved to training. There has been a wide variety of training classes and workshops offered to the community. Training classes/workshop range from basic computer skills classes, GED refresher courses, and classes on how to better budget your money. The availability of PCCs promote economic recovery by offering training to the citizens of South Carolina, in turn creating participants who will be more marketable in the job market.

8. To the extent that you have made any subcontracts or sub grants, please provide the number of subcontracts or sub grants that have been made to socially and economically disadvantaged small business (SDB) concerns as defined by section 8(a) of the Small Business Act, 15 U.S.C. 647, as modified by NTIA's adoption of an alternative small business size standard for use in BTOP. Please also provide the names of these SDB entities (150 words or less).
 N/A

9. Please describe any best practices / lessons learned that can be shared with other similar BTOP projects (900 words or less).
 Best practices and lessons learned through the second year of the BTOP-PCC Grant program include: the continued importance of communication, documentation of processes, and accurate planning for PCCs establishment or improvement.
