Provided assessment and nursing care of considerable difficulty in specialized area, Labor and Delivery.

Branch Manager, Visiting Nurses Association, 2/83-2/87

Provided management of day to day operations of home health agency, including providing CCSP services. Supervised and evaluated performances of both professional and administrative support staff. Assessed and provided clients appropriate skilled services.

Medical Missionary To Liberia, West Africa, 9/86.

Assisted Pediatrician in setting up medical clinics for treatment and immunizations.

Charge Nurse: Baldwin County Hospital, 9/77-8/82.

OB-GYN Supervisor for 2 years. Supervised staff, plans, and oversees weekly schedules, evaluated performances and insured that the quality of nursing care was adequate. Also worked on the Surgical Post Operative floor, ICU, Recovery Room, and ER before going to OB.

Coordinator Of ICU: Appling County Hospital,8/82-2/83

Developed policies and procedures for a new 3 bed ICU. Provided nursing services of considerable difficulty in specialized area.

Charge Nurse: Laurens Memorial Hospital, 3/77-9/77.

Served as charge nurse on Urological Unit.

EDUCATION:

*Associate of Science Degree in Nursing, 1977
Bachelor of Science Management (Candidate)
Georgia Southwestern College, Americus, Georgia*

Berry College , Rome, Georgia 6/73-12/73.

CERTIFICATIONS:

Registered Professional Nurse, State of Georgia

Currently consulting for Telehealth Networks. Clients are Southeast Telehealth Network (2002-06), Coastal Health Distance Learning and Telehealth Network (2004 and continuing) and Georgia Telemedicine Network (2006 and continuing)

Scope of Work with clients includes but is not limited to:

- Provide consultative services as requested to support the Project Director in network design and selection of network components and equipment
- Assist the Project Director in negotiations with multiple vendors
- Coordinate and correspond directly with vendors and other participants in the Southeast Telehealth Partners network reporting such contacts to the Project Director and other key managers with copies of written correspondence including email correspondence
- Initiate, develop and deliver proposals for the Project Director to consider in planning the construction and operation of the telemedicine network
- Provide on-site consultation and expertise to Project Director to modify, update, relocate or install telemedicine workstations
- Serve as a subject matter expert in the areas of HIPAA network and information systems security policy and procedures
- Serve as a subject matter expert for maximizing financial support from the Rural Health Care Division Universal Service Fund for network components and assist all participants in preparing RHCD forms required to secure USF financial support
- Participate in local, regional and federal meetings and conferences as requested
- Provide expertise in network and equipment functionality and work closely, as requested by the Project Director, with technicians, clinicians and others on the staff to assist in the development of additional Telehealth programs supportive of the goals of the U. S. Department of Health and Human Services, Office for the Advancement of Telehealth Grant for Southeast Telehealth Network.

Elected early retirement option from BellSouth in December 2001 having held position of Healthcare Market Manager for previous 10 years. Worked with large and expanding healthcare providers in the 9-state BellSouth region building Wide Area Networks for voice, data, and video communications to connect multiple locations into single, large enterprise networks for business, administrative and clinical applications. Job responsibilities included assisting several large healthcare organizations in the design, development and employment of their interactive live telemedicine networks.

Graduated from US Naval Academy, Annapolis, MD, in 1966 and served on active duty until 1975 in ships in both Pacific and Atlantic Fleets and at shore stations in Southeast Asia and New England. After active duty continued service in the Naval Reserve and retired from the active reserve in 1996 in the rank of Captain, US Naval Reserve. After active navy service and before joining BellSouth in 1984, held several sales and marketing management positions in New England and South Texas.

BS Degree, US Naval Academy
MBA, Bryant College, RI

Paula Guy
Executive Director
Georgia Partnership for TeleHealth, Inc.
P. O. Box 1408
914 Memorial Drive
Waycross, GA 31501

Dear Ms. Guy:

The Georgia Department of Community Health (DCH) is in support of the Georgia Partnership for Telehealth's (GPT) application for a Broadband Technology Opportunities Program (BTOP) grant to fund the sustainable broadband adoption project entitled "TeleConnect Georgia for Better Health" (TGBH). In partnership with GPT, DCH seeks to improve provider access to telemedicine initiatives and best practices related to telehealth and the use of electronic medical records.

DCH serves as the State Designated Entity for Health Information Technology as called for in the HITECH Act under ARRA. Our Department houses the Office of Health Information Technology and Transparency (OHITT) responsible for leading the strategic efforts of the State of Georgia for health information technology adoption and health information exchange to improve health care delivery for providers, health care professionals and consumers.

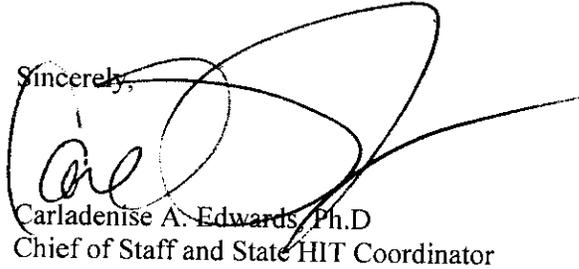

DCH looks forward to working collaboratively with GPT on the "TeleConnect Georgia for Better Health" program. We believe that this program leverages the strengths of key community stakeholders from the private and public sector who have come together to address the declining health of the citizens of Georgia's 91 counties of persistent poverty through improved access to primary care through telemedicine, by expanding the current telemedicine network infrastructure from 133 access points to 185 access points and through education and outreach to introduce rural citizens to the advantages of using Internet and broadband technology to access health and wellness data for better health outcomes.

As we work to achieve the goals of the HITECH Act and to establish the state health information exchange (HIE), we see great benefit in collaborating with GPT and the "TeleConnect Georgia for Better Health Program" Alliance that also includes the National Center for Primary Care at The Morehouse School of Medicine, the grantee for the Georgia HIT Regional Extension Center (HITREC) charged with providing outreach and support to rural physicians in achieving an Electronic Health Record; Georgia Public Web (GPW) who will provide middle mile and last mile service to the 52 new telemedicine sites; and other key rural health stakeholder organizations in Georgia.

Paula Guy
Georgia Partnership for TeleHealth, Inc.
Page Two
March 9, 2010

In partnership, DCH is committed to this innovative and collaborative project to improve access to health care through the expansion of broadband services to rural health care providers and communities.

Sincerely,

MOREHOUSE SCHOOL OF MEDICINE

National Center for Primary Care
March 8, 2010

Paula Guy, Executive Director
Georgia Partnership for TeleHealth, Inc.
P.O. Box 1408
914 Memorial Drive
Waycross GA, 31501

Dear Ms. Guy,

On behalf of The National Center for Primary Care (NCPC) at Morehouse School of Medicine (MSM), I am pleased to partner with and support the ongoing innovative efforts of the Georgia Partnership for Telehealth (GPT) and its collaborating partners to apply for a grant from the Broadband Technology Opportunities Program. This initiative is titled "TeleConnect GA for Better Health.

This program brings the key community public and private sector stakeholders together that are committed to bringing better health to rural Georgians and will work together to achieve the goals and objectives of this grant. The objective is to utilize telemedicine, internet technology and broadband adoption to address the declining health of the citizens of Georgia's 91 counties of persistent poverty through extending the current telemedicine network platform from 133 access points to 185 access points.

The current and expanded network will deliver access to the unserved and underserved areas through partnering with physician groups to guarantee access to care, through outreach and education, and through collaboration with the Georgia Department of Community Health, the grantee for the state's health information exchange (HIE) and the National Center for Primary Care at The Morehouse School of Medicine, the grantee for the Georgia HIT Regional Extension Center (HITREC) charged with providing outreach and support to rural physicians in achieving an Electronic health record.

The NCPC is partnering and contracting with GPT to provide outreach, education and training to the priority primary care providers within its network. This EHR education and outreach will help the GA HITREC to ensure that rural healthcare providers meet Meaningful Use milestones required to receive first stimulus funding. Once established, the GA HITREC at the NCPC will have statewide outreach, education and technical programs which will serve as a communication network to over 10,000 providers. Through our partnership, GPT and the GA HITREC will have

Paula Guy, Executive Director
Georgia Partnership for TeleHealth, Inc.

Page Two
March 8, 2010

expanded access to Georgia healthcare providers and allow for greater outreach to the target populations. This will help us to achieve the objective of this project.

As an organization dedicated to providing and improving the access to quality healthcare and education in our rural community, the National Center for Primary Care at Morehouse College clearly understands, values, and supports any initiative designed to address the declining health of many of the citizens of our state. Please accept our organization's endorsement of and commitment to this innovative and collaborative project.

Sincerely,

A handwritten signature in blue ink, appearing to read 'DM', with a long horizontal flourish extending to the right.

Mr. Larry Strickland
Assistant Secretary
Department of Commerce
National Telecommunications and Information Administration
1401 Constitution Avenue
Suite 4898
Washington, DC 20230

Dear Mr. Strickland:

Georgia Public Web is proud to support The Georgia Partnership for Telehealth (GPT) application for a Broadband Technology Opportunities Program (BTOP) grant to fund the sustainable broadband adoption project entitled "TeleConnect GA for Better Health."

The strength and success of this BTOP SBA initiative will result from not only the telehealth expertise provided by GPT but the expertise of those supporting and partnering with this project: Georgia Public Web, the Georgia Department of Community Health, the National Center for Primary Care at Morehouse College, Strategic Healthcare Partners, Stat Doctors, the Georgia Association of Community Service Boards, the Georgia Primary Care Association and HomeTown Health Rural Hospital Network. We are confident that the combined collaboration of the partners in this project will produce the intended results with the use of telehealth and distance learning technologies

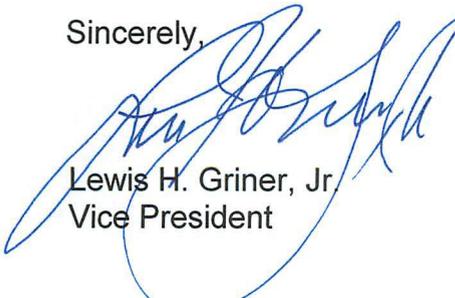

We are especially excited that this project will equip fifty-six additional healthcare providers and public health facilities with increased broadband and telehealth capabilities. Georgia Public Web is committed to the success of this project and will provide the following financial commitments:

Waiver of circuit installation charges - \$60,460
Waiver of long-haul transport charges - \$201,600 Annually

In addition, Georgia Public Web will offer expertise and lend support to the education and outreach efforts to train professional and local citizens how to use broadband technology and internet to access healthcare and health information.

We are pleased to support this exciting opportunity. Thank you for considering this matter and contact me with any questions.

Sincerely,

Lewis H. Griner, Jr.

Mr. Larry Strickland, Assistant Secretary
Department of Commerce
National Telecommunications and Information Administration
1401 Constitution Avenue, Suite 4898
Washington, DC 20230

On behalf of the Georgia Trauma Commission, I am pleased to submit this letter of commitment to be a collaborating partner with: Georgia Partnership for TeleHealth; Georgia Public Web; Georgia Department of Community Health; the National Center for Primary Care at Morehouse College; Strategic Healthcare Partners; Georgia Association of Community Service Boards; Georgia Primary Care Association; HomeTown Health Rural Hospital Network; and, Stat Doctors to apply for a grant from the U.S. Department of Commerce, National Telecommunications & Information Administration, Broadband Technology Opportunities Program (BTOP).

The Georgia Trauma Commission certainly understands the current healthcare crisis is due to limited and diminished healthcare services statewide and we are especially concerned with the many rural portions of our state with little to no coverage. The Georgia Trauma Commission is aggressively pursuing solutions to correct the deficiencies of care, specifically trauma care, that plague our state. To that end the Georgia Trauma Commission has committed \$300,000 as matching grant funds to Georgia Partnership for Telehealth.

We feel the Georgia Partnership for TeleHealth initiative will greatly enhance and broaden current efforts toward building a telehealth and teletrauma network in Georgia.

Please accept our organization's endorsement of this innovative project that will provide access to and improve the quality of healthcare for so many in Georgia.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Dennis W. Ashley, M.D.
Chair, Georgia Trauma Care Network Commission

**The Georgia Association
For Primary Health Care**

March 5, 2010

To: Paula Guy, Executive Director-Georgia Partnership for Telehealth, Inc.

From: Duane A. Kavka, Executive Director

The Georgia Association for Primary Health Care, Inc. (GAPHC), the state primary care association, is pleased to have the opportunity to partner and support Georgia Partnership for Telehealth's (GPT) application for a Broadband Technology Opportunities Program (BTOP) grant to fund the sustainable broadband adoption project entitled "TeleConnect GA for Better Health."

As one of the partners lending expertise to this project, we are confident that this collaboration of experts will meet the objectives set in this BTOP SBA initiative. The other project experts include: Georgia Public Web, the Georgia Department of Community Health, the National Center for Primary Care at Morehouse College, Strategic Healthcare Partners, Stat Doctors, the Georgia Association of Community Service Boards, and HomeTown Health Rural Hospital Network.

As an organization that represents Georgia's Federally Qualified Health Centers, we applaud and embrace viable projects that understand the need for providing rural providers educational opportunities and advanced training. This project will utilize broadband technology and internet applications to reduce the cost of travel and time out of the office for rural providers and end users to receive Broadband education and training using a web enabled training platform called GoToMeeting, allowing up to 1000 healthcare staff and physicians to participate in interactive web conferences led by broadband experts. In addition to streaming video, the web conferences will be stored online for easy 24/7 viewing.

As GAPHC develops its TeleHealth component, we will be devoting specific funding to related equipment and activities and will allocate resources for technical assistance from GPT, which should be in the \$50,000 - \$75,000 range.

Sincerely,

Duane A. Kavka
Executive Director

3-9-10

Mr. Larry Strickland
Assistant Secretary
Department of Commerce
National Telecommunications and Information Administration
1401 Constitution Avenue
Suite 4898
Washington, DC 20230

Dear Mr. Strickland,

HomeTown Health, LLC and its network of 55 small and rural hospitals in Georgia is pleased to have the opportunity to partner with the Georgia Partnership for Telehealth's (GPT) application for a Broadband Technology Opportunities Program (BTOP) grant to fund the sustainable broadband adoption project entitled "TeleConnect GA for Better Health."

As one of the partners lending expertise to this project, we are confident that this collaboration of experts will meet the objectives set in this BTOP SBA initiative as well as the Recovery Act. The other project experts include: Georgia Public Web, the Georgia Department of Community Health, The National Center for Primary Care at Morehouse College, Strategic Healthcare Partners, Stat Doctors, the Georgia Association of Community Service Boards, and The Georgia Association of Primary Care.

As an organization that represents rural hospital providers, we applaud and embrace viable projects that bring broadband technology and improved access to care in rural Georgia and to demonstrate our support, we are committed to providing access to the HTH network to accomplish grant goals and thru development of broadband education and delivery to providers and end users, live and through broadband connections.

HTH will contract with GPT and the TGBH Program for management services, strategic planning services, access to group purchasing, grant writing, development of the marketing strategy and awareness campaign and further development of marketing materials to be distributed in the anchor institutions most likely to reach the target population. In addition to Broadband curriculum development and access to Webinar platforms and web-based training applications, HTHU a division of HTH, will develop broadband education and curriculum and make it available online for every physician practice (approx 600) in the TGBH program area in HTHU Online University.

HomeTown Health will provide \$90,000 Cash Contribution in education services rendered through HomeTown Health University and will provide an additional \$45,000 In-Kind contribution services including administrative, marketing and grant writing services.

TOTAL CONTRIBUTION TO MATCHING SUPPORT: \$135,000

Thank you for your consideration,

Jimmy Lewis, CEO
HomeTown Health, LLC
3280 Cherry Oak Lane, Suite 100
Cumming, GA 30013

March 11, 2010

Re: BTOP Sustainable Broadband Adoption Project

To Whom It May Concern:

Strategic Healthcare Partners is pleased to partner with The Georgia Partnership for Telehealth (GPT) and its program partners to apply for a Broadband Technology Opportunities Program (BTOP) grant to fund the sustainable broadband adoption project entitled "Teleconnect Georgia for Better Health." We are confident that the collaboration of the selected program partners will result in an increased broadband adoption and with sustained use will provide expanded educational opportunities across the state, specifically and directly improving the health of populations in impoverished communities.

Strategic Healthcare Partners (SHP) currently serves 30 hospitals and over 600 physicians in rural communities across the state of Georgia. With a large segment of our client base located in rural markets, SHP has significant experience with and understanding of rural provider issues, concerns, and roadblocks relevant to the operational delivery of health care. SHP will offer that same expertise in support of this project.

SHP is committed to the success of this project and will contract with GPT to provide the following services and contributions:

- Experienced Program HIT/ Information Officer to work with TGBH Program partners and rural providers to lend strong HIT expertise and technical assistance, and to direct and manage the technical field trainers that will provide face to face training and awareness programs in hospitals and physician practices and in the communities to encourage the use of broadband services.

CASH CONTRIBUTION: \$29,250

30% of Program HIT/Information Officer
(BTOP Grant to fund 70% totaling 52,500 / SHP to fund 30% totaling \$22,500)
(SHP to fund \$6750 in Fringe Benefits)

- In addition, SHP will provide office space and overhead cost for the Project Field Office in Savannah, GA

IN-KIND CONTRIBUTION: \$7200

(SHP TO DONATE OFFICE SPACE IN KIND) \$600.00/mo X 12 = \$7200.00

- Finally, SHP will provide 200 hours in kind contract services and 800 hours in services funded by the grant, that will be further defined upon award of grant and will most likely

include: HIT expertise, technical oversight and education, along with contract negotiation with commercial insurance companies on behalf of telehealth providers; use of 600 physician network for communications, and project planning based on the final budget and program goals.

CASH CONTRIBUTION: \$16,000

(BTOP Grant to fund 800 consulting hours @ \$80/hour =64,000)

(SHP to fund 200 Consulting hours @ \$80/hr \$16,000)

BUDGET LINE ITEMS:

TOTAL PROJECT EXPENSE = \$168,950

TOTAL CASH CONTRIBUTION by SHP = 45,250

TOTAL IN-KIND CONTRIBUTION by SHP= \$7,200

We are excited to be a part of this meaningful project and thank you for the opportunity to continue to serve rural health care providers.

Sincerely,

A handwritten signature in black ink that reads "MScribner" with a circular flourish at the end.

Mike Scribner

March 12, 2010

Mr. Larry Strickland, Assistant Secretary
Department of Commerce
National Telecommunications and Information Administration
1401 Constitution Avenue, Suite 4898
Washington, DC 20230

The Georgia Association of Community Service Boards submits this letter of support and commitment for the efforts lead by The Georgia Partnership for Telehealth (GPT) to apply for a Broadband Technology Opportunities Program grant to fund the sustainable broadband adoption project entitled "TeleConnect GA for Better Health."

Community Service Boards across the state have already experienced tremendous success utilizing telemedicine as a means to meet the behavioral health needs of underserved Georgians; we are excited that this grant will expand further the availability of telehealth services. We are pleased that GPT is willing to take a leadership role in continuing to develop a collaborative model for telehealth to address the healthcare needs of the poor and impoverished in our state. We are confident that the effort of the partners in this project will produce the intended results with the use of telehealth and distance learning technologies.

The strength and success of this BTOP SBA initiative will result from not only the telehealth expertise provided by GPT but the expertise of those partnering with this project: Georgia Public Web, the Georgia Department of Community Health, the National Center for Primary Care at Morehouse College, Strategic Healthcare Partners, Stat Doctors, the Georgia Association of Community Service Boards, the Georgia Primary Care Association and HomeTown Health Rural Hospital Network.

The Georgia Association of Community Service Boards is committed to the success of this project. Participating Community Service Boards will utilize telehealth systems to provide behavioral health services to the most in need population across the State of Georgia.

We are pleased to be a part of this exciting opportunity. Thank you for considering this matter and contact me with any questions.

Sincerely,

Robyn Garrett-Gunnoe, Director

BTOP Sustainable Broadband Adoption Community Anchor Institution Detail Template

Please complete the Anchor Institution Details worksheet by providing information on Community Anchor Institutions that will be directly involved in or benefit from the project. Add rows as necessary. All community anchor institutions should be given a specified list. A Community Anchor Institution is considered a minority-serving institution post-secondary educational institution with enrollment of minority students exceeding 25% of its total enrollment. The "Role" column only requires a word or two, or a short phrase detailed explanation. A detailed explanation of the role of project partners and community anchor institutions should be provided in the essay portions of the application.

The data provided via this template will be subject to automated processing. Applicants are therefore required to provide this attachment as an Excel file, and not to convert it to PDF. When submitting a copy of their application on an appropriate electronic medium, such as CD-ROM, or flash drive. Additionally, applicants should not modify the format of the

BTOP Public Computer Center and Sustainable Broadband Detailed Budget

Please complete the Detailed Budget, breaking out individual line items under each category heading (add rows to each section as necessary to accommodate your line items). Please ensure line item total columns in the "General" and "Detail" sections are equal for each line item (a cell with a yellow highlight indicates an inconsistency). Also, you may utilize the provided space for additional notes, if desired (there is also a Budget Narrative question in the application in which you will provide narrative detail on this budget).

Specifics needed for each cost category line item:

Personnel: For each position, list the number of positions, the location or geography of position, the job/task responsibilities for the position, the annual salary, and the percent of time a person filling the position will spend working on the proposed BTOP project. For lines with more than one position, the Quarters Employed field should represent number of quarters per person (e.g., for two employees each working for one year, Quarters Employed should be 4 rather than 8).

Fringe: For each position, note the number of positions, the annual salary, the percent of time a person filling this position will spend working on the proposed BTOP project, and the fringe rate applicable to the position. For lines with more than one position, the Quarters Employed field should represent number of quarters per person (e.g. for two employees each working for one year, Quarters Employed should be 4 rather than 8).

Equipment: List all equipment units required for the project and provide program purpose. For each line item, note the number of units and the unit cost. The multiple of these two factors will yield the total for that line item. For example, an Applicant planning to buy 100 laptops at \$500/laptop would have a total line item cost of \$50,000. Again, although unit costs may include cents, once multiplied by the number of units, the result must be rounded to the nearest whole dollar. Clearly separate Applicant equipment and user equipment, as indicated in the detailed budget template. When providing the unit cost indicate whether the unit cost has been impacted by a discount and for software equipment list specific package names.

Travel: For each trip list the program purpose of the trip, destination city and the number of people traveling. For each line item (e.g., trip), note the number of trips and the cost per trip. The multiple of these two factors will yield the total for that line item. For example, if the Applicant was accounting for 10 trips at \$25 per trip, the total cost would be \$250. The cost per trip should be justified on its own, *not* derived by dividing the line item total by the number of trips. Such a calculation will prompt further inquiry from the reviewers about justification for the trip cost. Rather, the *total* trip cost should be derived from the number of trips *times* the justifiable cost per trip.

Supplies: Separate supplies by item type, describing the program purpose or use. For each line item, note the number of units and the unit costs. The multiple of these two factors will yield the total for that line item. For example, an Applicant planning to buy 20 boxes of printer paper at \$30/box would have a total line item cost of \$600. Again, although unit costs may include cents, once multiplied by the number of units, the result must be rounded to the nearest whole dollar.

Other: Separate item types; for awareness program cost items, such as ads, separate ad types (radio, newspaper, etc) and include geography in which they will run.

Contractual: For each line item, identify the contractor and note the number of contracted hours of service.

and hourly rate, if applicable. For example, an Applicant planning to hire a technology consultant for 100 hours at a rate of \$40/hour would have a total line item cost of \$4,000.

Indirect: Provide the indirect rate and basis used. In the space provided at the bottom of the page, briefly explain the calculation used to derive the indirect costs (including the indirect rate and basis included in the basis). If a negotiated indirect cost rate agreement exists and is being used, please identify the cognizant agency.

The category subtotals for this Detailed Budget should correspond to the data provided in your SF-424A, and both the SF-424 budget and this Detailed Budget should match the Federal Grant Request and Total Match Amount provided on the Project Budget page of the application. Please review both budget attachments, the budget narrative in the application, and the Project Budget page for consistency before submitting the application. If you are submitting a PCC project via an SF-424C instead of an SF-424A, the sections of this Detailed Budget will not align directly with the categories of the SF-424C, but you should complete this Detailed Budget, allocating costs to the appropriate cost categories.

The data provided via this template will be subject to automated processing. Applicants are therefore required to provide this attachment as an Excel file, and not to convert it to a PDF before submitting a copy of their application on an appropriate electronic medium, such as a DVD, CD-ROM, or flash drive. Additionally, applicants should not modify the format of this file.

	Project Director- Project Implementation and mgmt of BTOP-SBA Project - Rena Brewer MA Organizational Leadership	\$95,000.00		\$95,000.00	1	\$95,000.00	100%	4.00	\$95,000.00
	Assist Director - To be hired- Responsible for outreach and broadband sustainability	\$50,000.00		\$50,000.00	1	\$50,000.00	100%	4.00	\$50,000.00
	HIT/Information Officer - To be hired- Manage network, systems integrity and HIPAA compliance, risk management, software, hardware administration	\$75,000.00		\$75,000.00	1	\$75,000.00	100%	4.00	\$75,000.00
	Clinical Officer - Provide oversight-collaboration with rural and specialty providers, school nurse program, mental health programs, utilization review	\$75,000.00		\$75,000.00	1	\$75,000.00	100%	4.00	\$75,000.00
	New Rural Liaison - Onsite Provider training, program development, community activities and awareness	\$112,500.00		\$112,500.00	3	\$37,500.00	100%	4.00	\$112,500.00
	Current Rural Liaisons - analysis of regional needs referral patterns, providing education, marketing and training to healthcare providers, professionals, site staff, and the communities	\$62,500.00	\$62,500.00	\$125,000.00	4	\$62,500.00	50%	4.00	\$125,000.00
	Subtotal	\$470,000.00	\$62,500.00	\$532,500.00					

b. Fringe Benefits - Include salaries and fringe rate.	Position	Federal Support	Matching Support	Total	# of Positions	Salary	% Time Spent on Project	Quarters Employed	Fringe Rate	Total
	Project Director Fringe	\$28,500.00		\$28,500.00	1	\$95,000.00	100%	4.00	30.00%	\$28,500.00
	Assist Director	\$15,000.00		\$15,000.00	1	\$50,000.00	100%	4.00	30.00%	\$15,000.00
	HIT/Information Officer	\$22,500.00		\$22,500.00	1	\$75,000.00	100%	4.00	30.00%	\$22,500.00
	Clinical Officer	\$11,250.00		\$11,250.00	1	\$75,000.00	100%	4.00	30.00%	\$22,500.00
	New Rural Liaison	\$33,750.00		\$33,750.00	3	\$37,500.00	100%	4.00	30.00%	\$33,750.00
	Current Rural Liaisons	\$37,500.00		\$37,500.00	4	\$62,500.00	50%	4.00	30.00%	\$37,500.00
	Subtotal	\$148,500.00	\$0.00	\$148,500.00						

c. Travel - For significant costs, include details such as number and purpose of trips, destinations.	Purpose of Trip	Federal Support	Matching Support	Total	# of Trips	Cost per Trip	Total
	Training, implementation of new sites, marketing	\$66,000.00		\$66,000.00	600	\$110.00	\$66,000.00
	Travel to specialty sites, rural sites, conferences x 5	\$25,000.00		\$25,000.00	250	\$100.00	\$25,000.00
				\$0.00			\$0.00
				\$0.00			\$0.00
	Subtotal	\$91,000.00	\$0.00	\$91,000.00			

d. Equipment Costs - List equipment with # of units and unit costs. Distinguish between equipment intended for applicant use versus equipment for the end user.	Equipment Description	Federal Support	Matching Support	Total	#Units	Unit Cost	Total
Applicant Equipment							
See uploaded equipment detail	Bridge for multipoint conferencing			\$0.00			\$0.00

	Tandberg MCU 4500 series, installation and maintenance		\$80,276.00	\$80,276.00			\$0.00
	GPT Network equipment	\$150,400.00		\$150,400.00			\$0.00
				\$0.00			\$0.00
User Equipment							
	Community Mental Health x 26 Movi, laptops, software	\$72,045.48		\$72,045.48			\$0.00
	Hospitals x 11 Full video carts with peripherals, software - 10 Movi's	\$109,440.00	\$300,000.00	\$409,440.00			\$0.00
	Federally Qualified Health Centers x 4/Schools x 1 Full carts with peripherals and software	\$173,513.00		\$173,513.00			\$0.00
	Child Advocacy/Nursing Homes x 14 carts with peripherals and software, 11 carts had coloscopes	\$696,297.00	\$100,000.00	\$796,297.00			\$0.00
	Subtotal	\$1,201,695.48	\$480,276.00	\$1,681,971.48			

e. Supplies - List costs associated with materials/printing, curriculum, translations, and other supplies	Description	Federal Support	Matching Support	Total	#Units (If Applicable)	Unit Cost (If Applicable)	Total
	Print media for awareness campaign low income households	\$50,000.00		\$50,000.00	100,000	\$0.50	\$50,000.00
	Toner cartridges		\$1,200.00	\$1,200.00	24	\$50.00	\$1,200.00
	Paper		\$600.00	\$600.00	200	\$3.00	\$600.00
	Bilingual Print media for awareness campaign low income HH	\$8,000.00	\$2,000.00	\$10,000.00	20,000	\$0.50	\$10,000.00
	Subtotal	\$58,000.00	\$3,800.00	\$61,800.00			

f. Contractual - List contractors with purpose of contract, hourly rate or total fixed rate.	Contractor	Federal Support	Matching Support	Total	# Hours (If Applicable)	Hourly Rate (If Applicable)	Total Contract
	HomeTown Health University - Curriculum Development and Education, Access to webinar platform and web-based training	\$140,000.00	\$90,000.00	\$230,000.00			\$0.00
	HomeTown Health - Marketing Strategy, Management services, sustainability development, grant writing, group purchasing	\$70,000.00	\$45,000.00	\$115,000.00	1,150	\$100.00	\$115,000.00
	UGA Evaluation	\$69,750.00		\$69,750.00	310	\$225.00	\$69,750.00
	Strategic Healthcare Partners - Program HIT Consultant, Access to 600 physician network, HIT Assessment, BB education, in-kind office space, managed care contract negotiations	\$116,510.00	\$52,450.00	\$168,960.00	2,112	\$80.00	\$168,960.00
	Georgia Public Web - Circuit Installation charges, long haul transport charges, engineering of network	\$77,520.00	\$262,060.00	\$339,580.00			\$0.00
	Stat Health Services - Primary care services, access and utilization of EHR and stat health network platform		\$100,000.00	\$100,000.00			\$0.00
	Georgia Primary Care Association - TeleConnect Conference, program awareness and outreach.		\$50,000.00	\$50,000.00			\$0.00
				\$0.00			\$0.00
	Subtotal	\$473,780.00	\$599,510.00	\$1,073,290.00			

g. Construction - If applicable, list construction costs	Description	Federal Support	Matching Support	Total
	N/A			\$0.00
				\$0.00
				\$0.00
				\$0.00
	Subtotal	\$0.00	\$0.00	\$0.00

h. Other - List costs associated with grant subrecipients as well as other costs not listed above such as rent, technology (website hosting, internet connection), advertising (TV, radio, online), etc.	Description	Federal Support	Matching Support	Total	#Units (If Applicable)	Unit Cost (If Applicable)	Total

	Legal Fees - Morris, Manning & Martin	\$10,000.00		\$10,000.00			\$0.00
							\$0.00
	Rent-Main Office		\$20,000.00	\$20,000.00			\$0.00
							\$0.00
	Telecommunications: Network, Phone	\$10,000.00	\$50,000.00	\$60,000.00			\$0.00
							\$0.00
	Subtotal	\$20,000.00	\$70,000.00	\$90,000.00			

i. Total Direct Charges (sum of a-h)	\$2,462,975.48	\$1,216,086.00	\$3,679,061.48
j. Indirect Charges			\$0.00
Total Eligible Project Costs	\$2,462,975.48	\$1,216,086.00	\$3,679,061.48
Match Percentage	33.1%

Instructions for the SF-424A

Public Reporting Burden for this collection of information is estimated to average 3.0 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Please do not return your completed form to the Office of Management and Budget; send it to the address provided by the sponsoring agency.

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the later case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a **single** Federal grant program (Federal Domestic Assistance Catalog number) and **not requiring** a functional or activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a **single** program **requiring** budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in **Column (a)** and the respective catalog number on each line in Column (b).

For applications pertaining to **multiple** programs where one or more programs **require** a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5—Show the totals for all columns used.

Section B. Budget Categories

In the column headings (a) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Lines 6a-i—Show the totals of Lines 6a to 6h in each column.

Line 6j—Show the amount of indirect cost.

Line 6k—Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7—Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program narrative statement the nature and source of income. The estimated amount of program income may be considered by the federal grantor agency in determining the total amount of the grant.

Section C. Non-Federal Resources

Lines 8-11—Enter amounts of non-Federal resources that will be used on the grant. If in-kind contributions are included, provide a brief explanation on a separate sheet.

Column (a)—Enter the program titles identical to Column (a), Section A. A breakdown by function or activity is not necessary.

Column (b)—Enter the contribution to be made by the applicant.

Column (c)—Enter the amount of the State's cash and in-kind contribution if the applicant is not a State or State agency. Applicants which are a State or State agencies should leave this column blank.

Column (d)—Enter the amount of cash and in-kind contributions to be made from all other sources.

Column (e)—Enter totals of Columns (b), (c), and (d).

Line 12—Enter the total for each of Columns (b)-(e). The amount in Column (e) should be equal to the amount on Line 5, Column (f) Section A.

Section D. Forecasted Cash Needs

Line 13—Enter the amount of cash needed by quarter from the grantor agency during the first year.

Line 14—Enter the amount of cash from all other sources needed by quarter during the first year.

Line 15—Enter the totals of amounts on Lines 13 and 14.

Section E. Budget Estimates of Federal Funds Needed for Balance of the Project

Lines 16-19—Enter in Column (a) the same grant program titles shown in Column (a), Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants. If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20—Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Section F. Other Budget Information

Line 21—Use this space to explain amounts for individual direct object-class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

Line 22—Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Line 23—Provide any other explanations or comments deemed necessary.
