Dear Reviewers,

This letter confirms Google's commitment to participate in this collaboration with New America Foundation and PlanetLab Consortium to build and operate Measurement Lab, a facility for research in Internet networking focused on the measuring the properties of end-user broadband subscriber access.

As part of our collaboration, Google has made available computers and networking equipment valued at approximately (b) (4) and staff resources valued at approximately (b) (4). Google also provides ongoing colocation and connectivity resources that would cost approximately (b) (4) per year if procured at market rates.
