Level 3 as a Middle Mile Partner

- For many underserved communities, the quality of last mile facilities is not the barrier to high quality broadband service: access to middle mile facilities which connect communities to the internet is a challenge
- Today, communities that are not near a major network point-of-presence may lack access to affordable broadband, have capacity limitations which constrain the number of possible broadband users or rely upon a single-vendor, with a very costly backhaul solution.

Level 3 EON Proposal

Level 3 proposes a solution to leverage its existing in-line amplifiers (ILA) to provide a lower cost, high bandwidth backhaul option for communities in underserved areas located near its ILA sites.
