INDEPENDENT AUDITORS' REPORT

Hector Balderas
New Mexico State Auditor
To the County Manager and County Commissioners
Rio Arriba County
Tierra Amarilla, New Mexico

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, budgetary comparison for the general fund and the aggregate remaining fund information of Rio Arriba County, New Mexico, as of and for the year ended June 30, 2008, which collectively comprise Rio Arriba County's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the County's nonmajor governmental funds, the component units funds, and the budgetary comparisons for the major capital projects fund and the nonmajor governmental funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2008 as listed in the table of contents. These financial statements are the responsibility of Rio Arriba County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Rio Arriba County, New Mexico, as of June 30, 2008, and the respective change in financial position there of and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund of Rio Arriba County, New Mexico, as of June 30, 2008, and the respective changes in financial position thereof and the respective budgetary comparisons for the major capital projects fund, and all nonmajor governmental funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2008 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The *Management's Discussion and Analysis* on pages 10 through 18 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United State of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The accompanying information listed as supporting schedules I through VII are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and each of the County's nonmajor governmental funds and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on it.

Rio Arriba County
Management's Discussion and Analysis
June 30, 2008

The discussion and analysis of Rio Arriba County's financial performance provides an overview of the County's financial activities for the year ended June 30, 2008. The intent of this discussion and analysis is to look at the County's financial performance as a whole.

Financial Highlights

Key financial highlights for the 2007-2008 fiscal year are as follows:

- The government-wide assets of the County exceed its liabilities as of June 30, 2008 by \$85,298,032 (net assets) for the primary government. Of this amount \$49,819,009 is invested in capital assets (net of related debt). Of the remaining balance, \$31,358,097 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net assets for the primary government increased by \$12,735,434 or by 17.6% during the fiscal year. The County's only component unit, Rio Arriba Housing Authority is reporting a reduction of net assets of \$137,712 or by 5.1%.
- The County's general fund increased fund balance in the amount of \$1,861,470 from \$16,472,209 at June 30, 2007 to \$18,333,679, an increase of 11.3%.
- The County has outstanding debt of \$1,770,000 for the annex building in Espanola. This debt is payable from gross receipts tax revenue. The County has no general obligation bonds outstanding.
- The County has the required of 3/12th of budgeted expenditures reserved for use for the 2008-2009 fiscal year.
- Oil and gas tax revenues of \$16,953,926 comprise 63% of the total revenues for general fund use. Property taxes of \$4,610,619 at 17% are the next major source of revenue.
- The County created a fund titled *County Funded Capital Projects* for major capital projects. This fund is part of the general fund expenditures but grouped with the other capital project funds. This fund comprises of 9% of the total expenditures for general fund. The major projects completed were the El Rito Community Center and Agua Sana Fire Department. Gross Receipts monies were used to update technology and purchase and maintain road equipment.

Overview of the Financial Statements

This annual report consists of a series of financial statements. These statements are organized so the reader can understand the county as an entire operating entity.

The County's basic financial statements are comprised of three components: the government-wide financial statements, fund financial statements, and the notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

STATE OF NEW MEXICO
Rio Arriba County
Management's Discussion and Analysis
June 30, 2008

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. The statement of activities presents information showing how the County's net assets changed during the current year. These statements are prepared using the accrual basis of accounting similar to the accounting method used by private sector companies. This basis of accounting takes into consideration all of the current year's revenues and expenses, regardless of when the cash is received or paid.

The change in net assets is important because it tells the reader whether, for the County as a whole, the financial position of the County has improved or diminished. However, in evaluating the overall position of the County, non-financial information such as changes in the County's tax base and the condition of the County's capital assets will also need to be evaluated.

Most of the County's governmental activities are programs and services are reported here, including general government, public safety, public works, health and human services, and the economic development. Primarily taxes and intergovernmental revenues, including federal and state grants and other shared revenues, fund these services.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories; governmental funds, proprietary funds, and fiduciary funds. Fund financial statements provide detailed information about the County's major funds. Based on the restriction on the use of moneys, the County has established many funds that account for the multitude of services provided to our residents. The County's major governmental fund is the General Fund.

Governmental funds are used to account for essentially the same functions reported as governmental activities on the government-wide financial statements. Most of the County's basic services are reported in these funds that focus on how money flows into and out of the funds and the year-end balances available for spending. These funds are reported on the modified accrual basis of accounting that measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services being provided, along with the financial resources available. Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government-wide financial statements. By doing so, readers may better understand the long-term effect of the government's short-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately on the governmental fund balance sheet and on the governmental fund statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected on the government-wide financial statements because the resources from those funds are not available to support County's programs. The accounting method used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided on the government-wide fund financial statements.

STATE OF NEW MEXICO
 Rio Arriba County
 Management's Discussion and Analysis
 June 30, 2008

Government-Wide Financial Analysis

As of June 30, 2007 and 2008, net assets shown in thousands are as follows:

Table 1
Net Assets

	June 30, 2007	June 30, 2008
	Governmental	Governmental
Assets:		
Current and Other Assets	\$27,812,975	\$36,688,003
Capital Assets, Net	48,714,468	51,646,009
Total Assets	\$76,527,443	\$88,334,012
Liabilities:		
Current and Other Liabilities	\$1,235,017	\$1,017,387
Long-Term Liabilities	2,729,828	2,018,593
Total Liabilities	3,964,845	3,035,980
Net Assets:		
Invested in Capital Assets, Net of related Debt	46,534,468	49,819,009
Restricted	4,120,926	17,390,981
Unrestricted	21,907,204	18,088,042
Total Net Assets	72,562,598	85,298,032
Total liabilities and net assets	\$76,527,443	\$88,334,012

By far, the largest portion of the County's net assets is in the investment in capital assets less the related debt to acquire these assets that is still outstanding. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (gross receipts) since the capital assets themselves cannot be used to liquidate these liabilities.

STATE OF NEW MEXICO

Interest Expense	118,060	159,348
Total Expenses	27,063,383	28,152,719
Increase (Decrease in Net Assets)	\$4,556,758	\$12,735,434

STATE OF NEW MEXICO
 Rio Arriba County
 Management's Discussion and Analysis
 June 30, 2008

Governmental Activities

The General Fund received the majority of the County's program revenue, accounting for \$23,333 thousand or 74 percent of total governmental revenues. The primary recipients of these revenues are general government followed by public safety.

The County's direct charges to users of governmental services made up \$531 thousand or 2% of total governmental revenues. These charges are for fees, fines and forfeitures, and licenses and permits.

Property Tax revenues account for \$4,110 thousand or 13% of total governmental revenues. Another major component of General revenues was oil and gas and gross receipt taxes, which accounted for \$14,879 thousand or 47 % of total revenues.

Table 3, for governmental activities, indicates the total cost of services and the net cost of services. The total cost of services reflects the cost of program services and charges for services, and grants and contributions offsetting those services. The net cost of services equals the cost of those services supported by tax revenues and unrestricted intergovernmental revenues.

Table 3
Governmental Activities
(In Thousands)

	Total Cost of Services 2007	Total Cost of Services 2008
General Government	\$10,852	\$11,252
Public Safety	8,442	8,377
Culture and Recreation	2,491	3,298
Health and Welfare	1,837	2,392
Public Works	3,323	2,675
Interest Expense	118	159
	\$27,063	\$28,153

Business-Type Activities

Business type activities were eliminated when the Solid Waste activity was transferred to the Solid Waste Authority.

Financial Analysis of County Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on current revenues, expenditures, transfers and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the County's net resources available for spending at the end of the year.

As of June 30, 2008 the County's governmental funds reported a combined ending fund balance of \$35,275,788, an increase of \$9,424,618 in comparison with the prior year. Almost 100 percent of this total (\$35,263,806) constitutes unreserved fund balance, which is available for spending at the County's discretion. The remainder of the fund balance is for restricted activities on program funds.

STATE OF NEW MEXICO
Rio Arriba County
Management's Discussion and Analysis
June 30, 2008

The General Fund is the primary operating fund of the County. At the end of the 2008 fiscal year, unreserved fund balance was \$18,333,679. This includes fund 3400 County Fund Projects which available for distribution, if not spent, for the subsequent year. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures and transfers.

The fund balance of the County's General Fund increased by \$1,861,470 during the fiscal year 2008. Key factors in this increase is due to an increase in oil and gas production taxes.

Enterprise Funds

This fund was eliminated with the transfer of Solid Waste operations to the Solid Waste Authority. The County continues to receive Gross Receipt Taxes which is transferred to the Solid Waste Authority along with county support funds. Revenues and Expenditures are budgeted in a general operating fund.

Budgetary Highlights

Comparison between 2006-2007 fiscal year and 2007-2008 fiscal year

The Rio Arriba County Fiscal Year 2007-2008 Budget includes budgets for the General Fund for day-to-day operations of county government; Special Revenue Funds which use is restricted to specific projects and/or programs; Capital Projects which are used for specific capital projects in the County-revenues from Federal, State and Local sources; Debt Service which accounts for revenue bond payments; and Trust Funds which are used to account for recreation fees and donations for the seniors programs.

The General Fund operating budgeted revenue for fiscal year 2008 totaled \$22,410,223, up from \$20,168,618 for fiscal year 2007. The actual revenues received for FY 2008 was \$26,201,039, \$3,790,816 over budget. The excess revenue over budget was a result of better than estimated income form gasoline taxes.

The General Fund operating budgeted expenditures for fiscal year 2008 totaled \$17,373,973 up from \$15,838,625 for fiscal year 2007. An increase in the Detention Center budget continues to be the contributing factor to the increases year to year.

Special Revenue Funds operating budgeted revenues for fiscal year 2008 totaled \$12,213 thousand compared to \$8,600 thousand for fiscal year 2007. The increase in revenue was due to prior year revenues collected. The Special Revenue Funds operating budgeted expenditures for fiscal year 2008, totaled \$19,666 thousand compared to \$8,927 thousand for 2007. Expenditure activity increased with additional intergovernmental grants received.

Capital Projects operating budgeted revenues for fiscal year 2008 totaled \$6,198 thousand as compared to \$6,554 thousand for 2007. Revenues received in 2008 were from for prior year projects. The Capital Projects operating budgeted expenditures for fiscal year 2008 totaled \$18,601 thousands compared to \$3,517 thousand in 2007. The increase was due to expenditures for county fund projects.

Debt Service Funds operating budgeted expenditures for fiscal year 2008 totaled \$524 thousand as compared to \$521 in 2007. Expenditures are comparable per payment schedules.

STATE OF NEW MEXICO
Rio Arriba County
Management's Discussion and Analysis
June 30, 2008

Capital Assets and Debt Administration

Capital Assets

The County's investment in capital assets as of June 30, 2008, was \$51,646,009 (net of accumulated depreciation). This investment in capital assets includes land and improvements, buildings and improvements, machinery and equipment, vehicles, and infrastructure.

Major capital asset events during 2008 include:

- Road additions
- Canopy and Bleachers for Rodeo Arena
- Purchase of Road Equipment
- Replace Sheriff Vehicles
- Purchase Fire Trucks
- Renovations at Las Cumbres Center

Long-Term Debt

At June 30, 2008, the County had gross receipts tax refunding revenue bonds outstanding of \$1,770,000, and New Mexico Finance Authority loans outstanding of \$57,000. The County's long term debt decreased by \$415,000 during fiscal year ending 2008. In addition to debt, the County's long-term obligations include compensated absences. Additional information on the County's long-term debt can be found in the Notes to Financial Statement.

Economic Factors

The County of Rio Arriba, like much of New Mexico, continues to prosper through the fiscal year ending 2007-2008 covered by this audit. This is happening despite a number of troubling factors in the local economy and national economic trends that will eventually impact this region of the country because of the global nature of modern economics. While Rio Arriba County and the State of New Mexico are not experiencing the full impact of the recessive economic trends which are prevalent in other parts of the nation, there are reasons for concern.

Energy Revenues

The County continues to benefit from the Oil and Gas Industry revenue; taxes on equipment and production that go into State, County and School coffers. The County produces primarily natural gas. Oil accounts for about 10% of the revenue. Production is expanding with new well fields in the Jicarilla Ranger District and in the north western part of the County. Applications for drilling east of the Rio Chama are pending at the NM Oil and Conservation Division. This is an area that has no current producing wells. Residents of this area are concerned about the negative impact on wildlife and water resources. The Board of County Commissioners is being asked to regulate its development. As the development occurs, production will increase and it is reasonable to expect the County's budget will see increases in revenue. There exists considerable underground gas reserves in the San Juan Basin and production levels are not expected to decrease for at least the next 25 years.

The County continues to budget Oil and Gas Ad-valorem tax revenues carefully. It has been the County's Budgeting Policy for the past 10 years to utilize only 50% of this revenue source for recurring expenditures. 10% is carried over to maintain a healthy fund balance for unforeseen fluctuations in other revenue resources and 40% is used for Capital Projects.

Alternative Energy Initiatives

The County of Rio Arriba and the entire state are experiencing interest and in some areas significant development of alternative energy production. Bio-mass electric plants are in the permitting stages, wind turbines are in the permitting stages. Wind turbines are deployed on the eastern plains of the State. Rio Arriba County has three hydro-electric power plants and there is discussion on increasing capacity. Northern New Mexico College has now become a four year degree granting institution and is expecting to include graduate level degrees within the next five years. There is support from the State Legislature and the Governor for a Solar Energy Research Park (SERPA) on campus that will focus on alternative energy production.

Work Force Development and Employment

Plans at Northern New Mexico College include degrees in Environmental Sciences, Engineering and Alternative Energy. The emphasis is to prepare a workforce for future developments in solar, wind, and other alternative energy technologies. Rio Arriba County, the City of Espanola, and Los Alamos National Laboratory are combining efforts to create diversity in our economy.

Retail

Large retail stores and franchises like Lowes and Wal-Mart have moved into the City of Espanola. For the past four years there has been a steady growth in Gross Receipts Taxes which has allowed the County to invest in water planning and water issues in general. The County passed the New Mexico Economic Development Ordinance which permits, under certain conditions, private/public investment for business development and job creation. The County has recently completed and adopted a Comprehensive Plan with a 25 year horizon. The document will guide development of the County to meet the goals and objectives of the community. These activities feed the retail sector and encourage people to develop their own industry. Arts and Crafts and agricultural produce such as fruits, vegetables, and chile are significant markets in the Upper Rio Grande Valley.

Natural Resource Protection and Utilization

The County's primary focus is the protection of the quality and quantity of water resources in the County. Regional water plans have been developed and a number of watershed restoration projects are moving forward. Recreation and Tourism industries are dependant on the scenic, historic and cultural assets of the area. Lodgers Taxes show modest but positive growth trends. The County has constructed a new fairground/rodeo facility to attract more visitors to the area. Although timber harvesting has declined in the recent years, an effort is being made to establish additional activity in this sector. The cattle industry continues on private and public lands. Public lands cover approximately 70% of the County. These lands were previously Spanish and Mexican Land Grants. The communities continue to hold a large investment in assets in the cattle industry.

Health Care

The County is moving forward with initiatives to reduce substance abuse with prevention and treatment programs both in the community and the detention center. Jail costs are still too high and efforts at alternatives to incarceration are high on the County's agenda. Our hospital mill levy was extended in 06-07 for 8 more years and will improve local hospital facilities. A large project was just completed at the Espanola Hospital for doctors' offices and specialized therapeutic facilities. This will help us recruit more health professionals to the area. Better health services are critical to our ability to attract businesses to our communities. Northern New Mexico Community College already offers numerous degree programs to train locals in the health profession. The County generates nearly \$7mil in tax revenues for health care and many additional dollars are brought in through grant programs.

Transportation

Rio Arriba County is a member of the North Central Regional Transit District. Four counties under Joint Power Agreements seek to bring public transit to a large area of North Central New Mexico being explored and could drive some of these developments. Attraction of outside business is slow. The City of Espanola has been working to attract outside business to their Industrial Park with limited success.

STATE OF NEW MEXICO
 Rio Arriba County
 Reconciliation of the Statement of Revenues,
 Expenditures and Changes in Fund Balance of Governmental
 Funds to the Statement of Activities
 For the year ended June 30, 2008

Exhibit B-2
 (Page 2 of 2)

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	9,424,618
--	----	-----------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital assets reported as capital outlay expenditures		6,011,584
Depreciation expense		(2,763,875)

In the statement of activities, only the loss on the disposition of fixed assets is reported, whereas in the governmental funds, the proceeds from the disposition increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the fixed assets disposed.

		(316,168)
--	--	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds:

Change in deferred revenue related to the property taxes receivable		27,184
---	--	--------

The issuance of long-term debt (e.g., bonds, notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities:

Increase in accrued compensated absences		(8,512)
Decrease in accrued interest expense		7,603
Principal payments on bonds		415,000
		415,000
Changes in net assets	\$	12,797,434

The accompanying notes are an integral part of these financial statements.

STATE OF NEW MEXICO
Rio Arriba County
Notes to Financial Statements
June 30, 2008

NOTE 1. Summary of Significant Accounting Policies

Rio Arriba County is a political sub-division of the State of New Mexico established and regulated by the constitution of the State of New Mexico. The County operates under a Board of County Commission-manager form of government and provides the following services as authorized by public law: public safety (sheriff, fire, emergency medical, etc.), roads, health and social services, recreation, sanitation, planning and zoning, property assessment, tax collection and general administrative services.

The Rio Arriba County is a body politic and corporate under the name and form of government selected by its qualified electors. The County may:

1. Sue or be sued;
2. Enter into contracts and leases;
3. Acquire and hold property, both real and personal;
4. Have a common seal, which may be altered at pleasure;
5. Exercise such other privileges that are incident to corporations of like character or degree that are not inconsistent with the laws of New Mexico.
6. Protect generally the property of its county and its inhabitants;
7. Preserve peace and order within the county; and
8. Establish rates for services provided by the County utilities and revenue-producing projects, including amounts which the governing body determines to be reasonable in the operation of similar facilities.

This summary of significant accounting policies of Rio Arriba County is presented to assist in the understanding of Rio Arriba County's financial statements. The financial statements and notes are the representation of Rio Arriba County's management who is responsible for their integrity and objectivity. The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements have incorporated all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on accounting procedures issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

The more significant of the government's accounting policies are described below.

A. *Financial Reporting Entity*

In evaluating how to define the County, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB No. 14 and No. 39. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Notes to Financial Statements
June 30, 2008

NOTE 1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (continued)

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities.

Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the County's reporting entity.

Discretely Presented Component Unit

Rio Arriba Housing Authority (The Authority): This component unit has separate elected and/or appointed board and provides services to residents, generally within the geographic boundaries of the government. The Generally Accepted Accounting Principles requires the inclusion of this unit in the reporting entity.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The County does not have any business-type activities.

The Statement of Net Assets and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are recognized when the exchange takes place, regardless of the timing of the related cash flows. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*. Property taxes are recognized as revenues in the year for which they are billed. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met.

In the government-wide Statement of Net Assets, the governmental columns (a) is presented on a consolidated basis by column, (b) and is reported on a full accrual, economic resource basis, which recognized all long-term assets and receivables as well as long-term debt obligations. The County's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

STATE OF NEW MEXICO
Rio Arriba County
Notes to Financial Statements
June 30, 2008

NOTE 1. Summary of Significant Accounting Policies (continued)

B. Government-wide and fund financial statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment such as motor vehicle registration and correction fees; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment such as small counties assistance grant. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Property taxes are recognized, net of estimated refunds and estimated uncollectible amounts in the period for which taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met.

The County reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *County Funded Capital Projects Fund* accounts for capital acquisitions funded by cash transfers from the General Fund.

STATE OF NEW MEXICO
Rio Arriba County
Notes to Financial Statements
June 30, 2008

NOTE 1. Summary of Significant Accounting Policies (continued)

C. *Measurement focus, basis of accounting, and financial statement presentation* (continued)

The government reports the following fund types:

Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

The *Debt Service Funds* account for the services of general long-term debt not being financed by proprietary or non expendable trust funds.

The *Capital Projects Funds* account for the acquisition of capital assets or construction of major capital projects not being financed by proprietary or non expendable trust funds.

Fiduciary funds are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. The County's fiduciary funds are used to account for the collection and payment of property taxes and special fees to other governmental agencies.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the County's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the County's general revenues. Program revenues are categorized as (a) charges for services, which include revenues collected for fees and use of County facilities, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources such as state appropriations to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from state sources to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

The County reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The County does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. *Assets, Liabilities and Net Assets or Equity*

Deposits and Investments: The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the County to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the County are reported at fair value. The State Treasurer's Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

STATE OF NEW MEXICO
Rio Arriba County
Notes to Financial Statements
June 30, 2008

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Assets or Equity (continued)

Receivables and Payables: Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting funds and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded as revenue when levied.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the County may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent.

Prepaid Items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and proprietary financial statements.

Restricted Assets: Restricted assets consist of those funds expendable for operating purposes but restricted by donors or other outside agencies as to the specific purpose for which they may be expended.

Capital Assets: Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Rio Arriba County was a phase II government for purpose of recording the historical cost (or estimate) of infrastructure assets retroactively to 1979. Those infrastructure costs are included in the capital assets. New infrastructure built since GASB 34 was implemented in fiscal year 2003 has also been capitalized. Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. No interest was included as part of the cost of capital assets under construction.

STATE OF NEW MEXICO
 Rio Arriba County
 Notes to Financial Statements
 June 30, 2008

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Assets or Fund Equity (continued)

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and building improvements	25-50
Infrastructure	25-50
Machinery and equipment	5-10
Office furniture and equipment	5-10

Accrued Expenses: Accrued expenses are comprised of the payroll expenditures based on amounts earned by the employees through June 30, 2008, along with applicable PERA and Retiree Health Care.

Deferred Revenues: Accounting principles generally accepted in the United States of America require that grant revenue be recognized at the time the related expense is made if the expenditure of funds is the prime factor for determining eligibility for reimbursement; therefore, amounts received and not expended in the Special Revenue Funds are shown as deferred revenues. In addition, property taxes receivable but uncollected within sixty (60) days of year-end are classified as deferred revenue. In accordance with GASB No. 33, property tax revenues have been decreased by deferred revenues in the amount of \$1,187,230 on the Governmental Fund Financial Statements.

Compensated Absences: Qualified employees may accumulate limited amounts of vacation pay which are payable to the employee upon termination or retirement. Employee will accrue annual leave at the rate of 6.6667 hours per pay period for a total of 20 days per year. Annual leave may carryover from one fiscal year to another up to a maximum of 30 days. The employee or the employee's estate will be paid for each day of the unused annual leave at the time of the employee's voluntary or involuntary termination, retirement, death, or total disability up to a maximum of 30 days plus the number of days accrued and unused during the current calendar year.

Qualified employees are entitled to accumulate sick leave at a rate of 18 days per year, and may be accrued from year to year until the employee's termination or retirement.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as expenditure and a fund liability of the governmental fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net assets.

Long-term Obligations: In the government-wide fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. For bonds issued after GASB 34 was implemented in Fiscal Year 2003, bond premiums and discounts, as well as issuance costs, will be deferred and amortized over the life of the bonds using the effective interest method. Bonds Payable will be reported net of the applicable bond premium or discount. For fund financial reporting, bond premiums, discounts as well as issuance costs, will be recognized in the period the bonds are issued. Bond proceeds are reported as another financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. *Assets, Liabilities and Net Assets or Fund Equity (continued)*

Net Assets or Fund Equity: In the fund financial statements, governmental funds report reservation of fund balance that are not available for appropriations or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. The government-wide statement of net assets reports \$17,390,981 of restricted net assets, of which \$7,152,244 is restricted by enabling legislation.

Equity Classifications

Government –Wide Statements

Equity is classified as net assets and displayed in three components:

- a. **Invested in Capital Assets:**
Net assets invested in capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. **Restricted Net Assets:**
Consist of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Descriptions for the related restrictions for net assets restricted for “special revenue, debt service, and capital projects: are described on pages 51-54.
- c. **Unrestricted Net assets:**
All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Interfund Transactions: Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Reclassifications: Certain amounts included in the financial statements have been reclassified to conform to the current year presentation.

STATE OF NEW MEXICO
 Rio Arriba County
 Notes to Financial Statements
 June 30, 2008

NOTE 2. Stewardship, Compliance and Accountability

Budgetary Information

Annual budgets of the County are prepared prior to June 1 and must be approved by resolution of the County Commissioners, and submitted to the Department of Finance and Administration for State approval. Once the budget has been formally approved, any amendments must also be approved by the County Commissioners and the Department of Finance and Administration. A separate budget is prepared for each fund.

Line items within each budget may be over-expended; however, it is not legally permissible to over-expend any budget in total by fund. These budgets are prepared on the Non-GAAP budgetary basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year.

The budgetary information presented in these financial statements has been properly amended by County Commissioners in accordance with the above procedures. These amendments resulted in the following changes:

	Excess (deficiency)	
	of revenues over expenditures	
	Original Budget	Final Budget
Budgeted Funds:		
General Fund	\$ 5,440,645	\$ 5,036,250
County Funded	\$ (10,629,860)	\$ (10,633,700)
Nonmajor Funds	\$ (5,937,860)	\$ (9,748,279)

NOTE 3. Deposits and Investments

State statutes authorize the investment of County funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the County. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution as required by statute.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$100,000 in aggregate and separate from the \$100,000 coverage for public unit demand deposits at the same institution.

STATE OF NEW MEXICO
Rio Arriba County
Notes to Financial Statements

NOTE 3. Deposits and Investments (continued)

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2008, \$26,930,672 of the County's bank balances totaling \$27,230,672 were exposed to custodial credit risk. \$15,606,278 was uninsured and collateralized by collateral held by the pledging bank's trust department, not in the County's name and \$11,324,394 was uninsured and uncollateralized.

NM State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the County for at least one half of the deposit with the institution.

Governmental Activities:

	<u>Community Bank</u>	<u>Valley National Bank</u>	<u>Total</u>
Amount of Deposits	\$ 16,830,672	\$ 10,400,000	\$ 27,230,672

NOTE 3. Deposits and Investments (continued)

Custodial Credit Risk – Investments

Investments in State Treasurer LGIP

The New Mexico State Treasurer is authorized to invest deposits from New Mexico governmental entities in the short-term investment fund, known as the Local Government Investment Pool (LGIP) with the advice and consent of the State Board of Finance, in accordance with Section 6-10-10 I through 6-10-10 P and 6-10-1.1 A and E, NMSA 1978. Per Section 6-10-10.1 F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. The LGIP is not registered with the Securities and Exchange Commission. The pool does not have unit shares. The LGIP investments are valued at fair value based on quoted market prices as of the valuation date. Participation in the LGIP is voluntary.

Interest Rate Risk

The County's investments at June 30, 2008 include the following:

<u>Investments</u>	<u>Maturities</u>	<u>Fair Value</u>	<u>Rating</u>
Local Government Investment Pool	< 365 Days	\$ 3,832,584	AAA

Negative cash balances in individual funds that were part of the pooled accounts were reclassified as due to/from accounts in the combining balance sheet as of June 30, 2008. The County records temporary interfund receivables and payables to reflect temporary loans between funds. The purpose of the loans was to cover cash shortages until grant monies are received or other sources of funds could be obtained. The following individual funds had negative cash balances as of June 30, 2008.

The composition of interfund balances as of June 30, 2008 is as follows:

<u>Due from other fund</u>	<u>Due to Other fund</u>	<u>Amount</u>

2013	225,000	47,530	272,530
2014-2018	<u>745,000</u>	<u>74,235</u>	<u>819,235</u>
	<u>\$ 1,770,000</u>	<u>\$ 410,366</u>	<u>\$ 2,180,366</u>

Compensated Absences – Employees of the County are able to accrue a limited amount of vacation and other compensatory time during the year. During fiscal year June 30, 2008, compensated absences increased \$5,205 over the prior year accrual. Compensated absences are paid by the fund that they are accrued in, which is mainly the general fund.

NOTE 8. Risk Management

The County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries and natural disasters.

Rio Arriba County is a member and is insured through the New Mexico County Insurance Authority. The Authority was created to provide comprehensive core insurance programs by expanding the pool of subscribers to maximize cost containment opportunities for required insurance coverage. The Authority acts as the common carrier for the State of New Mexico counties. The County pays an annual premium to the Authority based on claim experience and the status of the pool. The Risk Management Program includes Workers Compensation, General and Automobile Liability, Automobile Physical Damage, and Property and Crime coverage. The County is not liable for more than the premiums paid.

NOTE 9. Other Required Individual Fund Disclosures

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

A. Deficit fund balance of individual funds. The following funds reflected a deficit fund balance as of June 30, 2008:

CEM-Emergency Special Revenue Fund	\$ 113,266
DOH CHI CNSL Special Revenue Fund	5,630
RAJJB 07-690-3057 Special Revenue Fund	36,395
2006 Projects Capital Project Fund	<u>12,962</u>

Total Governmental Funds \$ 168,253

B. Excess of expenditures over appropriations. The following funds exceeded approved budgetary authority for the year ended June 30, 2008:

None

NOTE 9. Other Required Individual Fund Disclosures (continued)

C. Designated cash appropriations in excess of available balances. The following funds exceeded approved budgetary authority for the year ended June 30, 2008:

Forest Reserve Title III Special Revenue Fund	\$ 109,693
EMS Bond Fund Special Revenue Fund	3,928
2006 Projects Capital Project Fund	<u>5,000</u>
Total Governmental Funds	<u>\$ 118,621</u>

NOTE 10. PERA Pension Plan

Plan Description: Substantially all of Rio Arriba County’s full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978.) The Public Employee Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing, multiple-employer defined benefit retirement plan. The plan provides for retirement, disability benefits, survivor benefits, and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P. O. Box 2123, Santa Fe, New Mexico 87504-2123. The report is also available on PERA’s website at www.pera.state.nm.us.

Funding Policy: Plan members are required to contribute the following percentages of their gross salary: 16.3% for law enforcement and fire protection employees; and 15.65% for municipal employees. The County was required to contribute the following percentages of the gross covered salary: 18.5% for law enforcement and fire protection plan members; and 11.65% for municipal plan members. The contribution requirements of plan members and Rio Arriba County are established in State Statute under Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of the legislature. The County’s contributions to PERA for the years ended June 30, 2008, 2007 and 2006 were \$1,621,312, \$1,541,803, and \$1,364,459, respectively, which equals the amount of the required contributions for each fiscal year.

NOTE 11. Post-Employment Benefits – Retiree Health Care Plan

Plan Description. Rio Arriba County contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person’s behalf unless that person retires before the employer’s RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer’s effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

STATE OF NEW MEXICO
Rio Arriba County
Notes to Financial Statements
June 30, 2008

NOTE 11. Post-Employment Benefits – Retiree Health Care Plan (continued)

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The statute requires each participating employer to contribute 1.3% of each participating employee's annual salary; each participating employee is required to contribute .65% of their salary. Employers joining the program after 1/1/98 are also required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

Rio Arriba County's contributions to the RHCA for the years ended June 30, 2008, 2007 and 2006 were \$112,588, \$107,872 and \$93,810, respectively which equaled the required contributions each year.

NOTE 12. Joint Powers Agreements and Memorandums of Understanding

The North Central Solid Waste Authority and Rio Arriba County have entered into a joint powers agreement to form a regional solid waste disposal authority in order to comply with the Solid Waste Act, to provide for disposition of solid waste and to provide for the general protection of health, welfare and safety of the public and to provide staff, management assistance, planning and facilities. The term of this agreement is indefinite. The agreement may be terminated by either party upon delivery of a written notice to the other at least 90 days prior to the intended date of termination. All payments under this agreement are on a reimbursement basis. North Central Solid Waste Authority board will serve as the fiscal agent and will be responsible for all audit requirements.

NOTE 13. Federal and State Grants

Rio Arriba County participates in a number of federal, state, and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, Rio Arriba County may be required to reimburse the grantor government. As of June 30, 2008, significant amounts of grant expenditures have not been audited by the grantor agencies. Management believes that any disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of Rio Arriba County.

NOTE 14. Contingent Liabilities

The County is party to various claims and lawsuits arising in the normal course of business. The County is insured through the New Mexico County Insurance Authority. In the opinion of management, the outcome of these matters will not have a material effect on the financial position of the County.

COMPLIANCE SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Hector Balderas
New Mexico State Auditor
To the County Manager and County Commissioners
Rio Arriba County
Tierra Amarilla, New Mexico

We have audited the financial statements of the governmental activities, the discretely presented component unit, each major fund, budgetary comparison for the general fund and the aggregate remaining fund information of Rio Arriba County, as of and for the year ended June 30, 2008, which collectively comprise the County's basic financial statements as listed in the table of contents, and have issued our report thereon dated November 14, 2008. We also have audited the financial statements of each of the County's nonmajor governmental funds, and the budgetary comparisons for the major capital projects fund, and the nonmajor governmental funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2008 as listed in the table of contents and have issued our report thereon dated November 14, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Rio Arriba County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of Rio Arriba County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Rio Arriba County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weakness. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County's ability to initiate, authorize, record process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of Rio Arriba County's financial statements that is more than inconsequential will not be prevented or detected by Rio Arriba County's internal control. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting; see items FS 07-07, FS 08-03, FS 08-04, and 08-05.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Rio Arriba County's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that none of the significant deficiencies described above is a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Rio Arriba County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items FS 06-06, FS 08-01, and FS 08-02.

We noted certain matters that are required to be reported under *Government Auditing Standards*, January 2008 Revision paragraphs 5.14 and 5.16, and Section 12-6-5, NMSA 1978, which are described in the accompanying schedule of findings and questioned costs as findings FS 04-12, FS 07-05, and FS 08-07.

Rio Arriba County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Rio Arriba County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the audit committee, management, others within the organization, County Commission, the Office of the State Auditor, the New Mexico Legislature, New Mexico Department of Finance and Administration, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

FEDERAL FINANCIAL ASSISTANCE

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Hector Balderas
New Mexico State Auditor
To the County Manager and County Commissioners
Rio Arriba County
Tierra Amarilla, New Mexico

Compliance

We have audited the compliance of Rio Arriba County with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. Rio Arriba County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Rio Arriba County's management. Our responsibility is to express an opinion on Rio Arriba County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Rio Arriba County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Rio Arriba County's compliance with those requirements.

In our opinion, Rio Arriba County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of Rio Arriba County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Rio Arriba County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Rio Arriba County's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, others within the organization, County Commission, the Office of the State Auditor, New Mexico Legislature, the New Mexico Department of Finance and Administration, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Expenditures of Federal Awards

1 Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of Rio Arriba County, New Mexico (County) and is presented on the modified accrual basis of accounting, which is the same basis used to prepare the fund financial statements. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

2 Subrecipients

The County did not provide any federal awards to subrecipients during the year.

Reconciliation of Schedule of Expenditures of Federal Awards to Financial Statements:

Total federal awards expended per Schedule of Expenditures of Federal Awards	\$ 1,098,140
Total expenditures funded by other sources	<u>30,669,983</u>
Total expenditures	<u><u>\$ 31,768,123</u></u>

STATE OF NEW MEXICO
Rio Arriba County
Schedule of Findings and Questioned Costs
For the year ended June 30, 2008

Section II – Rio Arriba County Financial Statement Finding and Questioned Costs

FS 06-06 — Cash Appropriations in Excess of Available Cash Balances

Criteria: Per Section 6-6-11, NMSA 1978 (the Bateman Act), it is unlawful for any board of county commissioners, municipal governing body or any local school board, for any purpose whatever to become indebted or contract any debts of any kind or nature whatsoever during any current year which, at the end of such current year, is not and cannot then be paid out of the money actually collected and belonging to that current year, and any indebtedness for any current year which is not paid and cannot be paid, as above provided for, is void. When an agency's budgeted expenditures exceed its budgeted revenue, the agency budgets "designated cash" left over from the previous year to make up the short fall. However, "designated cash" in the current year budget cannot exceed prior year cash and receivables in the same fund.

Condition: The County's designated cash appropriations exceeded its prior year cash and receivable available balances in the following funds:

Forest Reserve Title III Special Revenue Fund	\$ 109,693
EMS Bond Fund Capital Projects Fund	3,928
2006 Projects Capital Projects Fund	<u>5,000</u>
Total Governmental Funds	<u>\$ 118,621</u>

Cause: Inadequate monitoring of cash available to be rebudgeted is the cause of this problem.

Effect: The effect of a budget with inadequate designated cash available to cover the excess of budgeted expenditures over budgeted revenue could result in the County incurring debt to pay for current year budgeted expenditures, which would be noncompliance with the Bateman Act. Per Section 6-6-11, NMSA 1978, "Any officer of any county, municipality, school district or local school board, who shall issue any certificate or other form of approval of indebtedness separate from the account filed in the first place or who shall at any time use the fund belonging to any current year for any other purpose than paying the current expenses of that year, or who shall violate any of the provision of the Bateman Act, is guilty of a misdemeanor."

Auditor's Recommendation: Greater attention should be given to the cash balances actually available to cover budgeted expenditures in excess of budgeted revenues.

Management's Response: Transfers to other funds did not reduce expenditures budgets on both funds. Compliance with this rule continues to be a priority. Monitoring cash balance is always done before expenditures are made.

Section II – Rio Arriba County Financial Statement Finding and Questioned Costs (Continued)

FS 08-01 Procurement Code-Bids

Criteria: Section 13-1-104, NMSA 1978 and Section 1.4.1.17 of NMAC require an invitation for bids or a notice thereof to be published not less than ten calendar days prior to the date set forth for the opening of bids. In the case of purchases made by other central purchasing offices, the invitation or notice shall be published at least once in a newspaper of general circulation in the area in which the central purchasing office is located. These requirements of publication are in addition to any other procedures that may be adopted by central purchasing offices to notify prospective bidders that bids will be received, including publication in a trade journal, if available. If there is no newspaper of general circulation in the area in which the central purchasing office is located, such other notice may be given as is commercially reasonable. Central purchasing offices shall send copies of the notice or invitation for bids involving the expenditure of more than \$20,000 to those businesses that have signified in writing an interest in submitting bids for particular categories of items of tangible personal property, construction and services and that have paid any required fees.

Condition: During our audit testwork in the area of procurement we tested seven bids. We noted that two bids for purchasing construction services totaling \$83,570 and \$59,500 were not properly bid as required by Section 13-1-1-104, NMSA 1978.

Cause: The reason that the County did not properly bid these two procurements of construction services was the staff were unaware of the need to bid the jobs.

Effect: Failure to properly follow the New Mexico Procurement Code (Section 13-1-104, NMSA 1978) could result in the County paying more than necessary for the construction services.

Auditors' Recommendation: We recommend that the County develop and adopt procurement policies and procedures in accordance with the New Mexico Procurement Code, and monitor staff compliance, in order to facilitate the County obtaining the best goods and services at the best price when spending public funds.

Management's Response: The County concurs with this finding. The County has adopted procurement policies and procedures to avoid this to reoccur.

FS 08-02 — Travel and Per Diem

Criteria: Section 2.42.2.12 of NMAC limits the reimbursement of other expenses like parking fees to \$30, and requires the entire amount of the reimbursement claim to be accompanied by receipts.

Condition: During testwork in the area of mileage and per diem compliance we tested five items totaling \$935. We noted that one of the employees was reimbursed \$50 for a parking fee in excess of the \$30 limit without an accompanying receipt.

Cause: The County did not understand the requirement for limiting items, such as parking fees, to a \$30 reimbursement unless there is an accompanying receipt to justify the expense.

Effect: An employee could misappropriate County assets by requesting reimbursement of unsubstantiated expenses.

Auditors' Recommendations: We recommend the County follow the Per Diem and Mileage Act when paying per diem and travel reimbursements.

Management's Response: This type of reimbursements requests requires a receipt. It is unknown if it was separated in filing or it was oversight in the approval process that the receipt was not attached. This should not reoccur.

Section II – Rio Arriba County Financial Statement Finding and Questioned Costs (Continued)

FS 08-03 — IT Control Deficiencies

Criteria: State of New Mexico Statewide Guideline S-GUIDE-002.003 (per NMSA 1978 Section 15-1C-1 et. Seq. and NMAC 1.12.6 and NMAC 1.12.2) establishes an Enterprise Security Policy for the protection of IT assets and resources including data and information. The policy establishes that protection must be provided for IT assets, resources, and data/information from unauthorized access, use, disclosure, disruption, modification, or destruction in order to provide integrity, confidentiality, availability, accountability, and assurance, and establishes that controls must be maintained over information systems, resources, and data/information sufficient to contain risk of loss or misuse of information.

Condition: During our audit, we noted that:

- Adequate controls for access to programs and data have not been established by management to restrict access to properly authorized individuals. Lack of such controls exist in the following areas:
 1. Information Security Policy/User Awareness
- Adequate controls are not in place to ensure recoverability from interruptions in service in a timely manner and to restore critical information services in the event of a disaster.

Cause: Rio Arriba County is not properly safeguarding IT assets and resources. The following deficiencies were noted:

- Lack of policies governing IT use and security
- Lack of contingency plan for disaster recovery

Effect: Lack of policies, lack of network monitoring, and lack of contingency planning leave Rio Arriba County at risk for loss or misuse of data and information. Adequate protection has not been established to safeguard IT assets and resources.

Auditor's Recommendations: The County should consider implementing the following recommendations:

- Adopt policies to govern IT use and security
- Establish a Disaster Recovery Plan or another written contingency plan detailing how to recover systems and data in the event of an interruption in service or a disaster.

Management's Response: Management concurs. We have replaced the IT Director who's function is to prepare for adoption IT policies as recommended. Although the County has a consultant group that has set up safe guarding systems, these procedures are not formalized.

Section II – Rio Arriba County Financial Statement Finding and Questioned Costs (Continued)

FS 08-04 — Property Taxes Receivable – Lack of Maintenance of Tax Roll

Criteria: NMAC 2.2.2.12D (2) requires the County to provide a correct tax roll reconciliation showing the changes in the County Treasurer's property taxes receivable.

Condition: The County's detailed tax roll does not reconcile to the total amount of property taxes receivable per the County's general ledger. The County has a reconciling item on its detailed Tax Roll that fluctuates from year to year. At the end of the fiscal year ended June 30, 2008 the amount of the reconciling item was \$44,725.

Cause: The County is not maintaining the tax roll correctly. The County is not correctly accounting for all the additions and deletions to the tax roll and reconciling the total to general ledger regularly.

Effect: Not properly maintaining the tax roll could lead to a misrepresentation of the amount of property taxes due to the County and the related amounts due to the governmental entities the County collects property taxes for.

Auditors' Recommendations: We recommend that the County keep an accurate accounting of all the additions and deletions to the property tax roll on a regular basis, and that the general ledger receivable be reconciled to the detail regularly.

Management's Response: The Treasurers indicated that the prior year total do not match the County's records.

Section II – Rio Arriba County Financial Statement Finding and Questioned Costs (Continued)

FS- 08-05 – Preparation of Financial Statements

Criteria: According to the American Institute of Certified Public Accountants' Statement on Auditing Standards No. 112, a system of internal control over financial reporting does not stop at the general ledger. Well designed systems include controls over financial statement preparation, including footnote disclosures. The body charged with governance must provide effective oversight of the controls over the financial reporting process.

Condition: The body charged with governance does not exercise effective oversight, as defined by Statement on Auditing Standards No. 112, over the controls over the financial reporting processing. The financial statements and related disclosures are not being prepared by County management.

Cause: The body charged with governance was unaware of the requirements of the Statement on Auditing Standards No. 112 to provide effective oversight of control over the financial reporting processing. County personnel do not have the time to prepare the financial statements and have not been adequately trained in understanding the elements of external financial reporting including the preparation of financial statements and related footnote disclosures.

Effect: When sufficient controls over the preparation of financial statements and related disclosures are not designed, implemented and operating effectively, an entity's ability to prevent or detect material misstatements in its financial statements is limited.

Auditor's Recommendation: We recommend that County management and personnel receive training on understanding the requirements of external financial reporting.

The training should include, but not be limited to:

- Selection of appropriate accounting policies:
 - Governmental Accounting Standards Board (GASB)
 - Generally Accepted Accounting Principles (specifically as applied to governmental units)
 - Financial Accounting Standards Board (FASB)
- Understanding the financial reporting entity
- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements
- Required supplementary information
 - Management's discussion and analysis
- Supplementary information required by the Office of the State Auditor

In addition, we recommend that County management periodically present a reporting package to the body charged with governance for review. The governing board's review of the reporting package should be documented in the minutes. The reporting package could include items such as budget variances and analyses, a review of internal control processes over a significant transaction class like payroll or cash receipts, and other reports or processes that management uses for the internal control and financial reporting purposes. The goal of this process would be to help the governing body gain an understanding of the County's internal control processes and the financial reporting process.

Management's Response: The County has the staff with experience in preparation of the financial statements. The 2007 audit was just completed and submitted to the State Auditor. There was not enough time to gather the information from the audit to make the necessary adjusting entries to complete the conversions from accrual to cash to accrual. It is necessary to have this information from the former audit work papers to complete this task. In order to be able to eliminate the finding of a late report it was necessary to have the auditing firm complete the financial statements.

Section III – Financial Statement Finding and Questioned Costs (Housing Authority)

FS 04-12 - Expenditures in Excess of Budget (Housing Authority)

Criteria: All Housing Authority funds are to be budgeted by the local governing body and submitted to the State of New Mexico Department of Finance and Administration – Local Government Division for approval. Once adopted, any claims or warrants in excess of budget are a violation of New Mexico State Statute 6-6-6, 1978 Compilation.

Condition: The Housing Authority exceeded the budgeted expenditures in the following funds:

	<u>Amount</u>
Housing Choice Vouchers Fund	\$ 85,237
Public Housing Low Rent	\$386,488
Capital Fund Program	\$404,884

Cause: Inadequate monitoring of budgeting procedures.

Effect: Any expenditure in excess of the approved budget(s) shall be a liability against the officials so allowing or paying such claims or warrants, and recovery of such excess amounts so allowed or paid may be had against the bondsmen of such official.

Auditors' Recommendation: Budget for future years should be revised to insure all funds have adequate budget authority for appropriations. Greater attention should be given to the budget monitoring process.

Management's Response: The Agency did not have an Executive Director from July–August of 2007. The budget for low rent and section 8 was submitted to HUD with an ending deficit prior to hiring the Executive Director. The agency was aware of the deficit and worked with the board and HUD through the process to relieve the deficit. This agency has submitted budgets to HUD as requested for operations and is now in compliance without a deficit. The budgets for Capitol improvements have been revised and spent accordingly. The board has received monthly explanations (September-May) of how all programs are doing within budget. This agency is in compliance with required budgets to HUD in all of its programs. The fee accountant works closely with our agency to monitor budgets, e-mail correspondence is available for review.

Section III – Financial Statement Finding and Questioned Costs (Housing Authority) (Continued)

FS 07-05 — Segregation of duties in cash management-control (Housing Authority)

Criteria: Appropriate segregation of duties in cash disbursements and payroll processing is required to maintain proper and sufficient internal controls and properly report all revenues and expenditures as required by Section 6-6-3, NMSA 1978.

Condition: During our testwork of the cash disbursements and payroll processing we noted the following instances of a lack of appropriate segregation of duties.

- The same Housing Authority employee has authority to sign purchase orders, create checks, sign the checks, and stamp the checks with the board member's signature stamp.
- In our testwork of the payroll process, we noted that the same staff person that processes payroll also signs the payroll checks.

Cause: Due to limited resources, the Housing Authority relies on one individual to perform many duties. Limited resources in the process noted above, appear to result in a lack of segregation of duties.

Effect: Without adequate segregation of duties in key control processes, there is an increased risk of fraudulent activity, and also an increased risk of errors that may not be detected timely.

Auditors' Recommendation: Develop a formal review process for the disbursement and payroll transaction cycle. Also, implement and document policies and procedures to maintain proper internal controls that include segregation of duties.

Management's Response: This agency did not have an Executive Director from July-August 2007. We have policies that are in place and now being followed. The Executive Director approves all of the purchase orders and time sheets. All of expenses and revenues are reviewed monthly by the Executive Director and the governing board. We will have the Executive Director start signing all checks and payroll to segregate duties immediately. The preparer only has authority to sign in the absence of the Executive Director with board approval. The agency has a full staff of four.

Section III – Financial Statement Finding and Questioned Costs (Housing Authority) (Continued)

FS 07-07 — Preparation of Financial Statements-significant (Housing Authority)

Criteria: According to the American Institute of Certified Public Accountants' Statement on Auditing Standards No. 112, a system of internal control over financial reporting does not stop at the general ledger. Well designed systems should be implemented and should include controls over financial statement preparation, footnote disclosure preparation, and should give the entity the ability to catch material errors that may effect the financial statements.

Condition: Financial statements and related footnote disclosures were not prepared by the Housing Authority.

Cause: Housing Authority personnel do not have the time to prepare the Housing's financial statements, or adequate training to understand the elements of external financial reporting including the preparation of financial statements, the preparation of the related footnote disclosures, or the ability to recognize material errors.

Effect: When sufficient controls over the preparation of financial statements and related disclosures are not designed, implemented and operating effectively, an entity's ability to prevent or detect a misstatement in its financial statements is limited.

Auditors' Recommendation: We recommend the Housing's management and personnel receive training on understanding the requirements of external financial reporting. The training should include, but not be limited to:

- Selection of appropriate accounting policies:
 - Governmental Accounting Standards Board (GASB)
 - Generally Accepted Accounting Principles (specifically as applied to governmental units)
 - Financial Accounting Standards Board (FASB)
- Understanding the financial reporting entity
- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements
- Required supplementary information, including Management's discussion and analysis
- Supplementary information required by the Office of the State Auditor

In addition, we recommend that the Housing Authority develop and implement policies and procedures designed to prevent or detect possible misstatements in its financial statements and related footnote disclosures.

Management's Response: The Executive Director and the financial staff have received Public Housing Financial training in 2007 and 2008. The Executive Director has received training and has written accounting policies for several agencies. We will pursue seeking training for regulations of The New Mexico State Auditors requirements. This agency had only one staff person handling all of the office duties from July-August 2007. This agency is a small component that has been allowed by HUD to have a fee accountant prepare our financials. Now that the agency has another staff person, we will seek additional training to move towards internal accounting as recommended. There are only two staff in the office and two staff in maintenance we are a very small agency. The agency had purchased a new financial program and plan to implement in 2008.

Section III – Financial Statement Finding and Questioned Costs (Housing Authority) (Continued)

FS 08-07 – Differences with the General Ledger and PERA reports

Criteria: Good accounting practices state that the Housing Authority must reconcile their PERA reports with the general ledger and there shouldn't be any differences between the PERA report and the general ledger.

Condition: PERA Form reports did not tie to the general ledger amount, the Housing Authority was off by about 8% over in the general ledger than what was actually paid.

Cause: The Housing Authority is not periodically reconciling the general ledger to what is being reported on the PERA forms.

Effect: The Housing Authority is reporting more PERA expenses on the general ledger than what is actually being paid.

Auditors' Recommendation: The Housing Authority must reconcile the general ledger to PERA forms submitted. A periodic reconciliation will reduce the possibility of expenses being overstated.

Management's Response: The agency will reconcile the general ledger to PERA forms submitted on a monthly basis starting immediately.

STATE OF NEW MEXICO
Rio Arriba County
Schedule of Findings and Questioned Costs
For the year ended June 30, 2008

Section IV – Federal Award Findings

None

Section V – Prior Year Audit Findings

Primary Government

FS 03-05 - Late audit report (resolved)

Other Disclosures

Exit Conference

The contents of this report were discussed on November 14, 2008 at Rio Arriba County, Espanola Offices. The following individuals were in attendance.

Representing Rio Arriba County

Elios Coriz	Commissioner
Melody Gomez	Treasurer Accountant
Lorenzo Valdez	County Manager
Mary Louise Martinez	Comptroller
Christine Montano	Director of Finance
Guadalupe Mercure	Accounting Systems Coordinator
Rachel Gurule	Housing Authority Administrative
Raymond Ortiz	IT Director

Representing Accounting & Consulting Group, LLP

Jeff McWhorter, Audit Director, CPA

Auditor Prepared Financials

Although it would be preferred and desirable for the County to prepare its own financial statements, the County's personnel did not have the time to prepare them. Accounting & Consulting Group, LLP prepared the financial statements of Rio Arriba County from the original books and records provided to them by the management of the County.
