14. Please describe any best practices/lessons learned that can be shared with other similar BTOP projects (900 words or less).

It is important for BTOP recipients to begin work on the make-ready connections early in the design profits. In many cases, other utility providers may be unaware of their existing infrastructure (including utility poles) and this will cause delays in the project when negotiations and design work for make-ready and pole attachments must be complete. It is also important to have a strong and active management team that can quickly address problems/delays that may arise in a concise and timely manner.

15. Using the Excel spreadsheet template titled "Annual PPR CCI Addendum", please provide an updated list of Community Anchor Institutions (CAIs) that you have connected and plan to connect to your network.

16. Using the Excel spreadsheet template titled "Annual PPR CCI Addendum", please provide a list of community pairs that are receiving new or improved broadband service as a result of BTOP grant funds.

17. Please provide up-to-date network route maps in a single file, in a Google Earth compatible format (e.g., KMZ file).
