Northwest Communications Cooperative sites designed and awarded, but waiting for construction to start in the spring. DCT sites were awarded and the construction is complete.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline plan, please insert them at the bottom of the table. Unless otherwise indicated in the instructions, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

3. To the extent not covered above, please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).
 The project is moving forward and is on schedule with outside plant (cable) work due to extra work. We are diligently working to make up lost time and continuing to lay fiber. Access to fiber may be an issue, but we have the majority on order for 2012. We believe there is enough time in our schedule to make up delays from 2011 in 2012 by providing more construction resources. We will also be constructing in Mandan, Bismarck and Fargo simultaneously rather than sequentially like we originally planned on cable construction. Grand Forks will overlap with Fargo also. These two factors will keep us on schedule this summer. Progress is ahead of schedule but bill from sub-recipients are lagging behind.

4. Please report the following information regarding network build progress. Write "0" in the Total column and "N/A" in the Narrative column if your project does not include this activity. Unless otherwise indicated in the instructions, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. 3. Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

DCN is confident we will finish well ahead of the third year deadline. We have resources working and should have spent approximately 67% of funds by July 31, 2012. Miles deployed is estimated to be 54% of miles by July 31, 2012. This is due to the fact that the majority of construction dollars and work is in city limits and you cannot achieve 67% of the miles with 70% of the dollars. Equipment, engineering and right-of-way will be at least 85% complete by July 31, 2012. By end of 2012 we expect to be 87% overall and 82% of miles deployed.
