OVERALL PROJECT PERFORMANCE INDICATORS

1. Please provide the following average cost figures for your project. Please review the instructions to determine how to calculate these figures. Write "0" in the second column and "N/A" in the third column if your project does not yet have this information. Depending on whether your project contains Middle Mile and/or Last Mile components, some metrics may not apply. Please provide a narrative description if the total is different from the target provided in your baseline plan (600 words or less).

Average cost per new mile (Middle Mile) Speed varianc railroad level out	tive (describe your reasons for any variance from the baseline plan or any other relevant information) the is due to higher fiber costs, higher than anticipated costs related to discressing and aerial permits as well as up front expenditures that should ut (ie: make ready costs for aerial, one time fees associated with ing etc.)
Average cost per new mile (Middle Mile) 38,521 railroad level ou	d crossing and aerial permits as well as up front expenditures that should ut (ie: make ready costs for aerial, one time fees associated with
Average cost per household passed (Last Mile)	
Average cost per subscriber (Last Mile) 0 N/A	
Maximum broadband speed advertised (Middle Mile) No varia	iance from baseline
Maximum broadband speed advertised (Last Mile)	
Average broadband speed provided (Middle Mile) 980Mbps Current 10Mbps	tly we have 46 subscribers receiving 1000Mpbs and one receiving s
Average broadband speed provided (Last Mile)	

2. Please provide each facility name and type, the county where the facility is located, and census tract information for any facilities funded by your project during this annual reporting period. Report only facilities for which construction has been completed.

Facility Identifier / Name	Facility Type	County	Census Tracts	
N/A	N/A	N/A	N/A	
Add Facil	ity	R	emove Facility	

3. Please identify (1) the total number of interconnection, peering, and/or transit agreements entered into during this annual reporting period; (2) the total number of agreements of each type that you are currently negotiating; and (3) whether you have denied any request for interconnection and if so, why. If you have not entered into any agreements, please write "N/A."

Interconnection Agreements (600 words or less)

Contact Network Inc. did not enter into any interconnection, peering and/or transit agreements during this annual reporting period nor are we negotiation any at this time. Contact Network Inc. has not received any requests for interconnection.

Peering and Transit Agreements (600 words or less)

Contact Network Inc. did not enter into any interconnection, peering and/or transit agreements during this annual reporting period nor are we negotiation any at this time. Contact Network Inc. has not received any requests for interconnection.

RECIPIENT NAME:Contact Network Inc. d/b/a InLine

AWARD NUMBER: NT10BIX5570104

DATE: 04/03/2012 OMB CONTROL NUMBER: 0660-0037

EXPIRATION DATE: 12/31/2013

CAPACITY, UTILIZATION, AND CAPABILITY INDICATORS

4. Community Anchor Institutions: In the chart below, please provide information on the types of community anchor institutions capable of receiving service (i.e., anchor institutions connected to your network plus those passed by your network) as a result of BTOP funds.

Type of Community Anchor Institution	Total Number Within Service Area	Type of Community Anchor Institution	Total Number Within Service Area
Schools (K-12)	47	Public Housing	0
Libraries	0	Other Institutions of Higher Education	1
Medical and Healthcare Providers	12	Other Community Support Organizations	3
Public Safety Entities	3	Other Government Facilities	8
Community Colleges	0	Total Community Anchor Institutions	74

5. Please indicate the average increase in broadband speed provided to the community anchor institution customers as a result of your project, including a description of how this increase was calculated (600 words or less).

The average increase in broadband speed provided to the community anchor institutions we are servicing is 968Mbps. This number was calculated based on the fact that all 47 of our current customers were receiving 1.5Mpbs before upgrading to our service. Forty six of our current customers are receiving 1000Mbps and one is receiving 10Mbps.

6. What retail services are being provided by this project? Please describe below. (600 words or less). As an attachment to this report, please provide pricing plans (in \$ per month) associated with each retail service. Retail services description:

Contact Network Inc will provide multiple service tiers across the network with access speeds ranging from 10 to 1000 MBps. Currently, the retail services offered include 10Mbps, 100Mbps and 1000Mbps Private Network Connectivity, 10Mbps and 100Mbps Fiber connection with internet access and a public safety only option for 100Mbps Fiber connection with separate VLAN's to other connected Anchor Institutions.

- 7a. What network management policies (e.g., bandwidth limitations, traffic prioritization) are in place for the services provided by your project? 7b. Have you ever limited or blocked consumers from accessing any lawful content, service, service provider, or application, or prevented any consumers from attaching any legal device to the network? If so, please explain why (300 words or less)? We monitor network utilization throughout our network, as well as traffic to other autonomous networks on the public Internet. We use these metrics to determine if additional network resources are needed to provide our customers with effective Internet access. These metrics are not utilized in any way to filter or manipulate network traffic, nor are they used to prioritize services to customers based on type of traffic. During times of extremely high network traffic, application-neutral techniques may be utilized to ensure minimum advertised speeds to all clients. With the exception of blocking content, or sources of content that are harmful to the operation our network, or where a client contracts with us for a service that limits access to dangerous or undesirable content, we do not discriminate or prioritize one source or type of content over any others. Furthermore, we support and adhere to the principles contained in the FCC's August 2005 Broadband Policy Statement" (more often called the agency's Internet Policy Statement).
- 8. If applicable, please provide the total number and the percentage of subscribers who have dropped the broadband service provided through this project (total number of households and/or businesses and the "churn rate") and the subscribers' reasons for discontinuing their service (600 words or less).

No subscribers have dropped the broadband service provided through this project.

9. Please provide the following information regarding the number of fiber strand-miles:

Total Number of	Total Number of Active Fiber	Total Number of Leased Fiber	Total Number of Dark Fiber	Total Number of Strand-miles Being Built		eing Built
Strand-miles	Strand-miles Used by Recipient	Strand-miles	Strand-miles	Active	Leased	Dark
38,602	286	0	9,318	7,082	704	30,816

10. If you wholesale dark fiber, please list your wholesale customers and the number of fiber miles you currently are leasing to those customers:

As of December 31, 2011, Contact Network Inc. does not have any wholesale customers leasing dark fiber.

11. Please provide the following information regarding the facility collocation capacity:
