Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. We intend to partner with you on this project. Our partnership will connect low-income people, at scale, to the digital age and the mainstream economy.

As a provider of affordable housing, we believe the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

1) Internet Access Services

- a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
- b. 
- c. Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.

2) Internet Adoption Program

- a. A welcome package for each residential unit connected and an initial computer training for each property
- b. Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)
- c. A youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

Once funds have been awarded it is the full intent of Shammah Winds Apartments to contract with One Economy to provide the above mentioned services for the units of housing we own, located in the Greater Raleigh area. Below, please find a complete, detailed list of the properties which we will be targeting with this particular funding opportunity. As you can see, we intend to provide these services to one property totaling 32 units.

Development Name	Contact	Address	Census Block	# Units
Shammah Winds Apartments	Michelle Gardner	1407 Sawyer Road Raleigh, NC	_____	32

Further, I attest that a recent survey of our tenants shows that less than 40% of our tenants have broadband internet connection in their home. Though many are interested in getting high speed access, it is generally not affordable to these families. We hope that the OE program will successfully bridge this divide.

We look forward to offering these broadband services to our residents.

Sincerely,

Casey Patton, CPM® _____ (name)

Re: One Economy ARRA Application

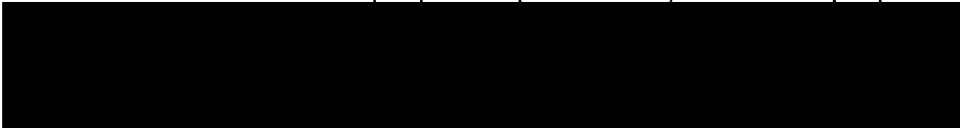

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. The Housing Authority of the City of Tulsa (THA) intends to partner with you on this project. This partnership will connect low-income people, at scale, to the digital age and the mainstream economy.

As a provider of affordable housing, it is THA's belief the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

Internet Access Services

- A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
- [REDACTED]
- Simple, monthly, direct billing to tenants.

Chea I. Redditt
President/CEO

Ruth Nelson
Chair

Reuben Gant
Vice Chair

Annie Mae Barnes

Charles Patterson

Scott F. Zarrow

- Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.
- All equipment related to the Internet Access will remain on-site and be the property of the Housing Authority of the City of Tulsa at the conclusion of the fifth year.

Internet Adoption Program

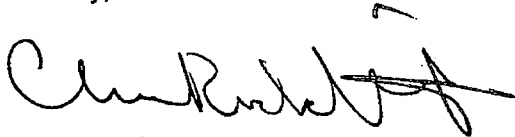

- A welcome package for each residential unit connected and an initial computer training for each property
- Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)
- A city-wide youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

Once funds have been awarded it is the full intent of the Housing Authority of the City of Tulsa to partner with One Economy to provide the above mentioned services for the units of housing THA owns located in the city of Tulsa, Oklahoma. Below, please find attached a complete, detailed list of the properties which THA will be targeting with this particular funding opportunity. The list has been arranged in THA's preferred order of implementation. As you can see, THA intends to provide these services to 16 properties totaling 2,525 units.

Further, I attest that a recent survey of THA's tenants shows that less than 40% of THA tenants have broadband internet connection in their homes. Though many are interested in getting high speed access, it is generally not affordable to these families. It is hoped that the One Economy program will successfully bridge this divide.

We look forward to offering these broadband services to our residents.

Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption in Oregon and throughout the United States. We intend to partner with One Economy on this project. Our partnership will connect low income people at scale to the digital age and the mainstream economy.

As a provider of affordable housing, we believe the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

1) Internet Access Services

a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.

b. [REDACTED]

c. Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.

2) Internet Adoption Program

a. A welcome package for each residential unit connected and an initial computer training for each property

b. Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)

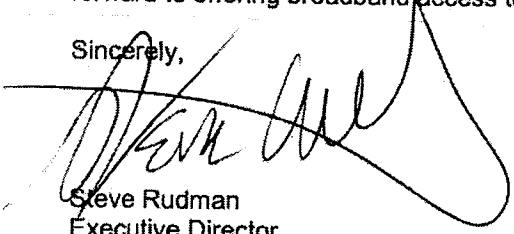

c. A city-wide youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

The Housing Authority of Portland intends to contract with One Economy to provide the above mentioned services for 1724 units of housing we own, located in Portland, Oregon. Below is a list of the properties which we will be targeting with this partnership:

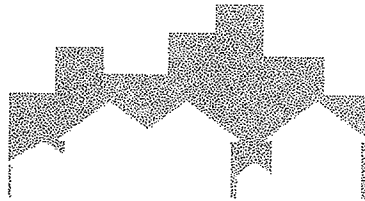

Development Name	Address	# Units
New Columbia	4605 N Trenton, Portland, OR	554
Tamarack	411 N Alaska, Portland, OR	120
St Johns Woods	8652 N Swift Way, Portland, OR	124
Ainsworth Court	1515 N Ainsworth, Portland, OR	88
The Yards	945 Naito Pkwy, Portland, OR	158
Pearl Court Apts	920 NW Kearney St, Portland, OR	199
Lovejoy Station	1040 NW 10 th Ave, Portland, OR	181

Though many of our residents want broadband in their home, it is generally not affordable to these households. We hope that the One Economy program will succeed in bridging this divide. We look forward to offering broadband access to our residents.

Sincerely,

Steve Rudman

Re: One Economy ARRA Application

Dear Mr. Ramsey,

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. We intend to partner with One Economy on this project. Our partnership will connect low-income people, at scale, to the digital age and the mainstream economy.

As a provider of affordable housing, we believe the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects. It is a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps, and offers award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption of computer opportunities in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

- 1) Internet Access Services
 - a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal;
 - b. 

- c. Computer lab space in larger communities with the space and support to manage the resource; and
 - d. Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.
- 2) Internet Adoption Program
- a. A welcome package for each residential unit connected and an initial computer training for each property;
 - b. Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv); and
 - c. A city-wide or site-specific youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

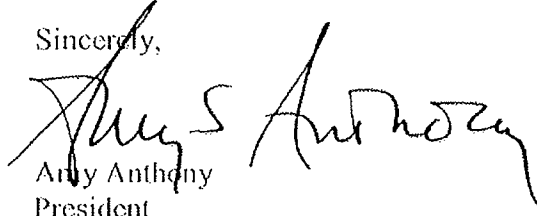

Preservation of Affordable Housing intends to contract with One Economy to provide services for the 3,519 units of housing listed below, located in six states and the District of Columbia. Below, please find the list of the properties which we will be targeting with this partnership.

Development Name	Address	# of Units	Average Income
Garfield Hills	2301 Hartford St., SE, Washington, DC	94	\$11,251
Cutler Manor	10875 SW 216 th St., Miami, FL	220	\$10,808
Cutler Meadows & Glen	11100 SW 196 th St., Miami, FL	225	\$9,295
Campbell Arms	800 NE 12 th Ave., Homestead, FL	201	\$19,509
Middletown Apartments	1809 Debarry Ave., Orange Park, FL	100	\$6,875
New Horizons	690 NW 60 th St., Miami, FL	100	\$9,007
Crestview Village	200 Crest Lane Dr., Kankakee, IL	132	\$4,655
Grove Parc Plaza	6101 S. Evans Ave., Chicago, IL	504	\$8,492
Washington Gardens	1000 Security Rd., Hagerstown, MD	100	\$8,608
Fairweather	40R Highland Ave., Salem, MA	321	\$14,390
United Front Homes	285 Ash St., New Bedford, MA	200	\$19,517
8330 On the River	8330 E. Jefferson Blvd., Detroit, MI	280	\$14,407
920 On the Park	920 John R Rd., Troy, MI	297	\$4,572
Hawthorne Place	16995 E. Dover Lane, Independence, MO	745	\$8,165

Though many of our residents want broadband in their homes, it is generally not affordable to these households. Further, bringing affordable broadband to our residents isn't sufficient if they do not have the knowledge to fully access the resources available. A critical component of this partnership is the guidance, through culturally sensitive materials, training and support, necessary to

drive adoption. We know that – with resources to implement it – the One Economy program will succeed in bridging this divide and we strongly support the dedication of ARRA funding to make this program a reality for the residents of these communities. We look forward to working with One Economy to offer broadband access to our residents with the training to spur its adoption.

Sincerely,

Further, I attest that a recent survey of our tenants shows that **only 21% of our tenants have access to the internet and 16% have broadband internet connection in their home.** Though most are interested in getting high speed access, it is generally not affordable to these families. We hope that the OE program will successfully bridge this divide.

We look forward to offering these broadband services to our residents.

Sincerely,

Nilda Ruiz

Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. We intend to partner with you on this project. Our partnership will connect lower-income people, at scale, to the digital age and the mainstream economy.

As a provider of affordable housing, we believe the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for public housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing developments; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in lower-income communities while empowering people to move steps to improve their lives.

Broadband access is only part of the solution for bringing lower-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should implement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

1. **Internet / ess Services**

- a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
- b. 
- c. Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.

2. **Internet Adoption Program**

- a. A welcome package for each residential unit connected and an initial computer training for each property.
- b. Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv).
- c. A regional youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

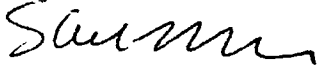

Once funds have been awarded, it is the full intent of Chester Housing Authority to contract with One Economy to provide the above mentioned services for the units of housing it owns, located in the Greater Philadelphia area. Below, please find a list of properties we will be targeting with this particular funding opportunity. As you can see, we intend to provide these services to four properties totaling 541 units.

<u>Development Name</u>	<u>Contact</u>	<u>Address</u>	<u>Census Block</u>	<u># Of Units</u>
William Penn Homes	Steven A. Fischer	514 Union St. Chester, PA 19013	4058	160
Chatham Estates	Steven A. Fischer	611 Central Ave. Chester, PA 19013	4052	110
Ruth L. Bennett Homes	Steven A. Fischer	1350 W. 9 th St. Chester, PA 19013	4051	261
Heartley Homes	Steven A. Fischer	920 Ave. of the States Chester, PA 19013	4059	10

Further, I attest that a recent survey of our residents shows that well less than 10% have an Internet connection in their homes. Though many are interested in getting high speed access, it is generally not affordable to these families. We hope that the One Economy program will successfully bridge this divide.

We look forward to offering these broadband services to our residents.

Sincerely,

Steven A. Fischer

Dear Ms. Guard:

I am pleased to learn that People's Emergency Center and One Economy have developed a wide ranging coalition to pursue Federal funding for the establishment of the Philadelphia Broadband Program.

PEC's personal track record in connecting low-income and homeless families to technology is unsurpassed in Philadelphia. You have time and again been ahead of the curve in recognizing that access to and competency with technology in its many forms is crucial for self-sufficiency and success in the world of work. This track record helps ensure that the program will perform as promised: thousands of low-income families will be able to take advantage of the educational, cultural, health, and work-related benefits of the internet via the power of broadband.

I am also pleased about the partnership with One Economy, a multi-national non-profit dedicated to bridging the digital divide not only in the US, but also in many third world countries. One Economy's work in helping thousands and thousands of youngsters through its Digital Connectors program is without parallel. I also want to acknowledge the ground-breaking work One Economy has done with its many information portals and media properties. We look forward to taking the Philadelphia Beehive to the next step.

Should the project receive funding from the US Department of Commerce, I look forward to adding at least 1,500 internet users in affordable housing units in my district.

Sincerely,

Jannie L. Blackwell

- a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
- b. [REDACTED]
- c. Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.

United Way
of Southwestern Pennsylvania A United Way Agency

Donor Option #00248

State law requires us to tell you that PEC is registered as a charitable organization with the Commonwealth. You can obtain a copy of our registration and financial information by calling toll free within Pennsylvania 1-800-732-0999. Registration does not imply endorsement.

2) Internet Adoption Program

- a. A welcome package for each residential unit connected and an initial computer training for each property
- b. Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)
- c. A regional youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

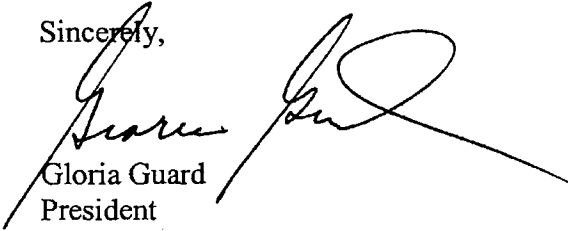

Once funds have been awarded it is the full intent of the People's Emergency Center Community Development Corporation to contract with One Economy to provide the above mentioned services for the units of housing we own, located in the Greater Philadelphia area. Below, please find a complete, detailed list of the properties which we will be targeting with this particular funding opportunity. As you can see, we intend to provide these services to 14 properties totaling 383 units.

Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. We intend to partner with you on this project. Our partnership will connect low-income people, at scale, to the digital age and the mainstream economy.

As a provider of affordable housing, we believe the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

1) Internet Access Services

- a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
- b. 
- c. Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.

2) Internet Adoption Program

- a. A welcome package for each residential unit connected and an initial computer training for each property
- b. Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)
- c. A regional youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

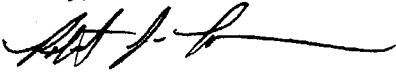

Once funds have been awarded it is the full intent of Pennrose Management Company to contract with One Economy to provide the above mentioned services for the units of housing we own, located in the Greater Philadelphia area. Below, please find a complete, detailed list of the properties which we will be targeting with this particular funding opportunity. As you can see, we intend to provide these services to 3 properties totaling 61 units.

Dear Mr. Ramsey,

Peoples Emergency Center (PEC) is pleased to convey our commitment to actively participate in the One Economy broadband adoption program that will serve over 2,000 low income households throughout the Philadelphia region.

We are fully in agreement with the mission of One Economy and have long recognized the crucial role that technology can play in helping low-income individuals advance their own and their children's education, obtain job skills, learn about employment opportunities, and improve their health. That is why we have been at the forefront of training young people in computer skills and providing free, refurbished computers to community residents for a number of years.

Our collaboration in this exciting initiative will take many forms, including:

- Providing computer labs and equipment in secure buildings with onsite parking and ease of access to public transportation
- Attracting and recruiting 90 young people to be Digital Connectors (a majority will be residents in the 2000+ housing units where we will be working)
- Hiring a paid coordinator dedicated to this initiative
- Assuring that all employees who supervise any youth meet the Pennsylvania Department of Public Welfare regulations for employees working with children and youth,
- Coordinating community service activities for Digital Connectors

United Way of Southeastern Pennsylvania A United Way Agency

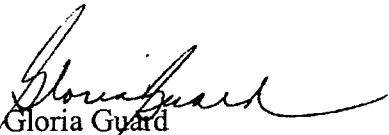

Donor Option #00248

State law requires us to tell you that PEC is registered as a charitable organization with the Commonwealth. You can obtain a copy of our registration and financial information by calling toll free within Pennsylvania 1-800-732-0999. Registration does not imply endorsement.

- Serving as a liaison between One Economy and other Philadelphia partners in this initiative, including government agencies, community development corporations, social service providers, and commercial property owners and developers
- Promoting the program through our website, newsletters, flyers, and meetings with government and social service agencies
- Generating and participating in media activities in support of the project

The coalition that One Economy and PEC have assembled in the Philadelphia area is an impressive one. Working together, I'm confident we will achieve real progress in helping low-income residents take advantage of the numerous opportunities technology presents for self-advancement and economic growth.

Yours truly,

Gloria Guard

Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. SCI-West intends to partner with you on this project. Our partnership will connect low-income people, at scale, to the digital age and the mainstream economy.

SCI, or the Sustainable Communities Initiative, is a collaborative community development effort spearheaded by Local Initiatives Support Corporation. The initiative focuses on creating coordination and linkages between the areas key to neighborhood revitalization. These are:

- 1) expanding investment in real estate;
- 2) increasing family income and wealth;
- 3) stimulating economic activity;
- 4) improving access to education; and
- 5) supporting healthy environments and lifestyles

The SCI-West collaborative has four local partners including the People's Emergency Center, University City District, The Partnership CDC, and The Enterprise Center CDC. Through the initiative, the partners have created a common vision and work plan for the target area and implement projects that relate to each of the five SCI-West objectives. We believe the broadband stimulus funds offer an extraordinary opportunity to positively impact our community by improving the quality of information and the quality of life for low-income housing residents in our target area.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs

and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

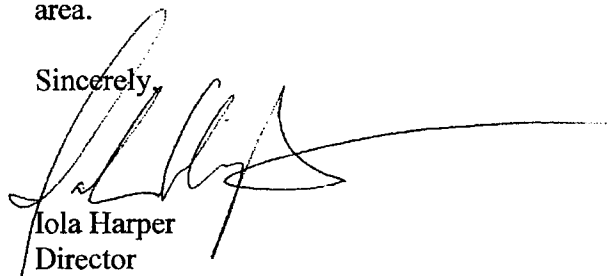

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative.  - c. A city-wide youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

Once funds have been awarded it is the full intent of the Sustainable Communities Initiative-West to support One Economy in providing the above mentioned services for the units of housing our partner organizations own.

We look forward to having these broadband services available to residents in our target area.

Sincerely,

Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. The Northeast South Dakota Community Action Program, (NESDCAP), intends to partner with you on this project. This partnership will connect low-income people, at scale, to the digital age and the mainstream economy.

As a provider of affordable housing, it is NESDCAP's belief the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

Internet Access Services

- A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
- 
- Simple, monthly, direct billing to tenants.

"Serving people's needs to promote community excellence"

NESDCAP is an Equal Opportunity Lender, Provider, and Employer

Complaints of discrimination should be sent to: USDA, Director, Office of Civil Rights, 1400 Independence Ave SW, Washington DC, 20250-9410

- Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.
- All equipment related to the Internet Access will remain on-site and be the property of the projects Owner at the conclusion of the fifth year.

Internet Adoption Program

- A welcome package for each residential unit connected and an initial computer training for each property
- Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)
- A city-wide youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

Once funds have been awarded it is the full intent of NESDCAP to contract with One Economy to provide the above mentioned services for the units of housing NESDCAP owns and manages located in NESDCAP's service area. Below, please find attached a complete, detailed list of the properties which NESDCAP will be targeting with this particular funding opportunity. As you can see, NESDCAP intends to provide these services to 8 properties totaling 72 units.

Further, I attest that a recent survey of NESDCAP's tenants shows that less than 40% of them have broadband internet connection in their homes. Though many are interested in getting high speed access, it is generally not affordable to these families. It is hoped that the One Economy program will successfully bridge this divide.

We look forward to offering these broadband services to our residents.

Sincerely,

Marcia Erickson

Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. The South Dakota Housing Development Authority (SDHDA) intends to partner with the Northeast South Dakota Community Action Program (NESDCAP) who will partner directly with you on this project. This partnership will connect low-income people in South Dakota to the digital age and the mainstream economy.

As a provider of affordable housing, it is SDHDA's belief the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

Internet Access Services

- A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
- [REDACTED]
- Simple, monthly, direct billing to tenants.
- Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.

- All equipment related to the Internet Access will remain on-site and be the property of the property owner at the conclusion of the fifth year.

Internet Adoption Program

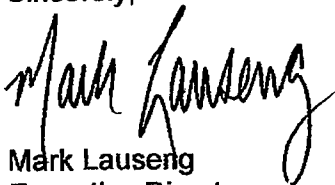

- A welcome package for each residential unit connected and an initial computer training for each property
- Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)
- A community-wide youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in the properties that will be done in combination with other projects as established by One Economy.

Once funds have been awarded, it is our understanding that NESDCAP will contract with One Economy to provide the above mentioned services for the identified units of housing located in Beadle, Brown, Day, Grant, Hughes, Marshall Roberts, and Spink counties. Below, please find attached a complete, detailed list of the properties that will be targeted with this particular funding opportunity. As you can see, NESDCAP intends to provide these services to 107 properties totaling 2181 units in the identified properties.

Of the Section 8 Housing that SDHDA assists, the average household income is \$9,955 with a total tenant payment of \$238 per month. Though many of these very-low income tenants would be interested in getting high speed access, it is generally not affordable for them to do so. It is hoped that the One Economy program will successfully bridge this divide.

We look forward to broadband services being made available to the low-income residents of South Dakota and appreciate your consideration of the proposal.

Sincerely,

Mark Lauseng
Executive Director

Re: One economy ARRA Application

Dear Mr. Ramsey:

We are pleased to provide this letter in support of the One Economy application for stimulus funds to expand broadband access and adoption throughout the United States. We expect our partnership will assist low income people to connect to the digital age and the mainstream economy.

As a provider of affordable housing, we believe the broadband stimulus funds offer an extraordinary opportunity to improve the quality of information and the quality of life for low income housing residents, an ideal target population for the funds.

One Economy provides broadband access in hundreds of affordable housing projects; a proven model for enabling people to adopt technology and the Internet into their daily lives through digital programs and youth technology corps; and award-winning, multilingual, web based tools and information about financial services, education, jobs and health care. Through this package of services, One Economy establishes broadband availability, affordable and adoption in low income communities while empowering people to take steps to improve their lives.

It is our belief that broadband access is only part of the solution for bringing low income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide residents the following services with ARRA funds:

- 1) Internet Access Services
 - a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
 - b. 
 - c. Three years of Internet Service for each property.

THE GLOBAL VOICE OF THE JEWISH COMMUNITY

www.bnaibrith.org

- d. Three years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.

2) Internet Adoption Program

- a. A welcome package for each residential unit connected and an initial computer training for each property.
- b. Customized content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv).
- c. A city-wide youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

Once funds have been awarded, it is the full intent of B'nai B'rith International to contract with One Economy to provide the above mentioned services for our portfolio of affordable housing. Specifically, we intend to make these services available to twelve (12) of our largest senior housing properties, totaling 1,813 apartments.

We look forward to offering these broadband services to our residents.

Sincerely,

Mark D. Olshan, Ph.D.

Re: One Economy ARRA Application

Dear Mr. Ramsey:

This letter is in support of the One Economy application for American Reinvestment Recovery Act (ARRA) funds to expand broadband access and adoption throughout the United States. We intend to partner with you on this project. Our partnership will connect public housing residents to the Internet where they can find important information that can improve their health, help them become economically self-sufficient and generally improve their lives in many ways. The average annual income of a resident is under \$13,000.

As a provider of affordable housing, we believe the broadband (ARRA) funds offer an extraordinary opportunity to enhance the quality of information and the quality of life for low-income housing residents, an ideal target population for the funds.

One Economy's model is very logical, providing relevant content and training for the people using the service as well as support staff. We know that the organization has nine years of success bringing broadband access to hundreds of affordable housing projects across the country; it has a proven model for enabling people to adopt technology and the Internet into their daily lives through digital literacy programs and youth technology corps; and award-winning, multilingual, web-based tools and information about financial services, education, jobs, and health care. Through this package of services, One Economy establishes broadband availability, affordability and adoption in low-income communities while empowering people to take steps to improve their lives.

Broadband access is only part of the solution for bringing low-income people into the digital age. In order to build a culture of broadband use in affordable housing communities, an adoption program should supplement a broadband access initiative. It is our understanding that One Economy will provide housing residents the following services with ARRA funds:

- 1) Internet Access Services
 - a. A wireless data network for delivering high speed Internet access to each residential unit in the properties provided by us for this proposal.
 - b. [REDACTED]
 - c. Two years of network monitoring and maintenance for each property. This will include monitoring and maintenance of the lab where applicable.
- 2) Internet Adoption Program
 - a. A welcome package for each residential unit connected and an initial computer training for each property
 - b. Culturally sensitive, easy to use content delivered through One Economy's public purpose web sites (www.thebeehive.org and www.pic.tv)

Commissioners Yusuf Cabdi *Chair* John Littel *Vice Chair*

Page 2

- c. A youth Digital Connector program to provide ongoing technical support and digital literacy training for residents in our properties that will be done in combination with other projects as established by One Economy.

Once funds have been awarded, it is the full intent of the Seattle Housing Authority to enter into a contractual agreement with One Economy to provide the above mentioned services for the units of housing we own, located in the City of Seattle. I have enclosed a list of the properties which we will be targeting with this funding opportunity. As you can see, we intend to provide these services to 26 properties with a total of 3,941 units.

Further, the average household wage for residents being targeted under this proposal is approximately \$12,842. Based on findings from a City of Seattle city-wide survey and findings that indicate low-income, people of color and people with disabilities are far less likely to have broadband connectivity, we believe that the vast majority of the low-income residents targeted for this proposal do not have broadband internet connection in their home. Our residents are most often people of color, and many are seniors and/or disabled. Given that broadband connectivity in Seattle costs over \$40.00 monthly, the vast majority of our residents simply cannot afford it. We are confident that these residents are interested in high-speed Internet access even though currently it is out of their financial reach. In addition, training and technology support will be required for our residents to fully access the resources available to them on the Internet via wi-fi. We strongly hope that the One Economy program will successfully bridge this divide.

We look forward to offering these broadband services to our residents. If you need additional information, please contact John Forsyth, Community Services Administrator for the Seattle Housing Authority. John can be reached at jforsyth@seattlehousing.org or by phone at (206) 615-3579.

Sincerely,

Thomas M. Tierney
Executive Director

McCORMACK
BARON
SALAZAR

August 11, 2009

Mr. Rey Ramsey, Chief Executive Officer
One Economy Corporation
1220 19th Street NW
Washington D.C. 20036

Dear Rey:

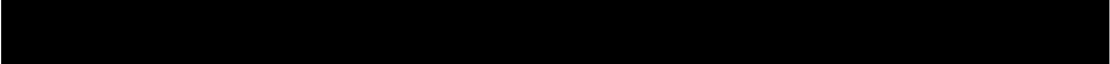

I am writing to express the support and partnership of McCormack Baron Salazar (MBS) in One Economy's application to the ARRA / U.S. Department of Commerce *Broadband Technology Opportunities Program* (BTOP) intended to expand broadband access and adoption throughout the United States. Together, we will connect thousands of low-income residents in MBS properties across the United States to the 21st Century economy that is driven—in large part—by those with access to and fluent knowledge of the Internet.

As the leading US developer of urban-focused, affordable housing, we believe that BTOP is an extraordinary opportunity to bridge the digital and socioeconomic divides between higher-income Americans and low-income residents to be targeted by these funds.

MBS looks forward to counting our HOPE VI and low-income properties among the hundreds of affordable housing properties that One Economy currently serves with access to broadband service as well as award-winning, multilingual, web-based information on financial services, education, jobs, housing and health care. We are especially impressed with One Economy's model because it enables people to adopt technology and the Internet into their lives through OE's digital literacy programs and youth technology corps. MBS's nonprofit human capital development partner, Urban Strategies, Inc., will assist this effort by providing on-site staffing as well as by connecting these much-needed programs to the families and children who need them.

This package of services offered by One Economy is unique because it helps low-income communities affordably establish broadband service while empowering them to build a long-term culture of broadband use. To begin this initiative, it is our understanding that One Economy will provide MBS residents with the following services leveraged by BTOP funds:

1) Internet Access Services

- a) A wireless data network for delivering high-speed Internet access to each residential unit in the properties described in the attachment to this letter of support.
- b) 
- c) Two years of network monitoring and maintenance at each property, including monitoring and maintenance of technology access labs, where applicable.

McCormack Baron Salazar

MCCORMACK
BARON
SALAZAR

Mr. Rey Ramsey
August 11, 2009
Page 2

2) Internet Adoption Program

- a) A welcome package for each unit included in the program and an initial computer training session for each property
- b) Culturally sensitive, easy-to-use content delivered through One Economy's public-access web sites www.thebeehive.org and www.pic.tv.
- c) Youth Digital Connector programs to provide ongoing technical support and training for residents in our properties to be established in conjunction with other One Economy sites.

Once funds have been awarded it is the full intent of McCormack Baron Salazar to contract with One Economy to provide the above services for the units of housing we own and/or manage. Please find attached a detailed list of the HOPE VI and Low-Income properties that will be targeted with this funding opportunity. In all, we will reach more than 5,200 residential units in fifteen (15) affordable housing properties in nine (9) cities across the U.S., and we will strive to reach approximately 13,000 low-income residents with this unique service.

Our records indicate that far less than 40% of our families currently have broadband internet access in their homes. Though many individuals and families are interested in obtaining high-speed access, it is generally not affordable. We hope that OE and BTOP can successfully lower this financial hurdle and we look forward to offering broadband services to our residents.

Sincerely,

Tony M. Salazar
President, West Coast Operations

Encl.: MBS Properties for One Economy/BTOP Round 1

BUDGET INFORMATION - Non-Construction Programs

ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

9. Will comply, as applicable, with the provisions of Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements.
10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).
12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a -1 et seq.).
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

Re: One Economy Legal Opinion

Dear Sir:

DLA Piper US, LLP is counsel for One Economy Corp (the "Applicant"). In such capacity, we acted as counsel to the Applicant in connection with its ability to apply to the Broadband Technology Opportunities Program and in the review of the grant agreement, as referenced in the Notice of Funds Availability.

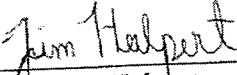

We are of the opinion that:

(a) the Applicant is a duly organized and existing non-profit corporation under the laws of the District of Columbia.

(b) the Applicant has corporate power: (1) to execute and deliver the agreement; and (2) to perform all acts required to be done by it under said agreement.

(c) no legal proceedings have been instituted or are pending against the Applicant, the outcome of which would adversely affect the Applicant's ability to perform the duties under the grant agreement, and there are no judgments against the Applicant which would adversely affect the Applicant's ability to perform its duties under the grant agreement.

Sincerely,

Jim Halpert
Counsel to One Economy

CERTIFICATION REGARDING LOBBYING LOWER TIER COVERED TRANSACTIONS

Applicants should review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying."

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over \$100,000 or a loan or loan guarantee over \$150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

In any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

CERTIFICATION REGARDING LOBBYING

Applicants should also review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Commerce determines to award the covered transaction, grant, or cooperative agreement.

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over \$100,000 or a loan or loan guarantee over \$150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

In any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

CERTIFICATION REGARDING LOBBYING LOWER TIER COVERED TRANSACTIONS

Applicants should review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying."

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over \$100,000 or a loan or loan guarantee over \$150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

In any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.

CERTIFICATION REGARDING LOBBYING

Applicants should also review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Commerce determines to award the covered transaction, grant, or cooperative agreement.

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over \$100,000 or a loan or loan guarantee over \$150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

In any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements.

Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.

11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) and to protecting components or potential components of the national wild and scenic rivers system.

13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a -1 et seq.).

14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.

16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

Urban Restoration Enhancement Corporation

Baton Rouge, LA
Urban Restoration Enhancement Corporation

August 4, 2009

Broadband Technology Opportunities Program
National Telecommunications and Information Administration
U.S. Department of Commerce
HCHB, Room 4812
1401 Constitution Avenue, NW
Washington, DC 20230

To Whom It May Concern:

I am writing this letter to confirm the commitment of Urban Restoration Enhancement Corporation to partner with One Economy and the Broadband Opportunities Coalition in support of the implementation of its programs as described in the enclosed proposal to the National Telecommunications and Information Association (NTIA) Broadband Technology Opportunities Program (BTOP) for Sustainable Adoption.

Like One Economy, our organization is deeply committed to expanding broadband access and adoption to communities who need it most. We are fully in agreement with the mission of One Economy and have long recognized the crucial role that technology can play in helping low-income individuals advance their own and their children's education, obtain job skills, learn about employment opportunities, and improve their health. We are pleased and excited to offer our support to One Economy as the local host organization for a youth Digital Connector program.

As a partner of this grant, Urban Restoration Enhancement Corporation will commit to:

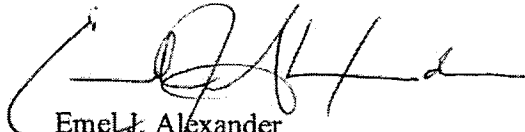

- Providing computer labs and equipment in secure buildings preferably with onsite parking and ease of access to public transportation for the delivery of the Digital Connector program and the corresponding community broadband adoption activities;
- Attracting and recruiting the youth ages (14-21) required to participant in the program and deliver the planned community broadband adoption activities to the underserved or unserved residents in our community;
- Hiring and managing a paid coordinator dedicated to this initiative;
- Assuring that all employees who supervise any youth meet the state's Department of Public Welfare regulations for employees working with children and youth;
- Coordinating community adoption activities for Digital Connectors;
- Promoting the program through our website, newsletters, flyers, and meetings with government and social service agencies;
- Generating and participating in media activities in support of the project

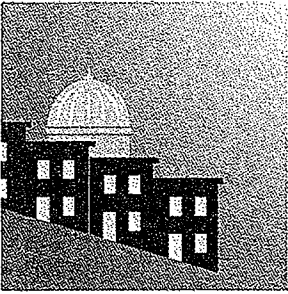

Upon award of the grant, Urban Restoration Enhancement Corporation commits to providing Ten Thousand dollars (\$10,000) in support of One Economy's proposal to BTOP to support our local Digital Connector program. These funds will be used to pay additional staff costs associated with the program; additional costs associated with facility usage and rental; additional fieldtrip expenses; and a percentage of utility costs associated with the computer lab.

We appreciate this opportunity to support One Economy and the Broadband Opportunities Coalition in its endeavor to continue to expand its record of success in digital access issues for the underserved in rural and urban communities. With the support of BTOP, One Economy and Urban Restoration Enhancement Corporation together will provide broadband education, awareness, training, and support in communities across the nation.

Sincerely,

Emel J. Alexander

COPPIN STATE UNIVERSITY

Institute for Local to Global Community Engagement

August 10, 2009

Broadband Technology Opportunities Program
National Telecommunications and Information Administration
U.S. Department of Commerce
HCHB, Room 4812
1401 Constitution Avenue, NW
Washington, DC 20230

To Whom It May Concern:

I am writing this letter to confirm the commitment of Coppin State University to serve as one of the partners with One Economy and the Broadband Opportunities Coalition in support of the implementation of its programs as described in the enclosed proposal to the National Telecommunications and Information Association (NTIA) Broadband Technology Opportunities Program (BTOP) for Sustainable Adoption. We understand that One Economy is applying for the Sustainable Broadband Adoption (SBA) track for the BTOP opportunity.

Like One Economy, our organization is deeply committed to expanding broadband access and adoption to communities who need it most. We are fully in agreement with the mission of One Economy and have long recognized the crucial role that technology can play in helping low-income individuals advance their own and their children's education, obtain job skills, learn about employment opportunities, and improve their health. We are pleased and excited to offer our support to One Economy as one of the local host organizations for a youth Digital Connector program.

Although Coppin State University is not able to provide a cash match for the grant, it will collaborate with One Economy to offer the following:

- Provide computer labs and equipment in secure buildings with onsite parking and ease of access to public transportation for the delivery of the Digital Connector program and the corresponding community broadband adoption activities;
- Attract and recruit young people (ages 14-21) to participate in the program and deliver the planned community broadband adoption activities to the underserved or unserved residents in our community;

Office of the President
2500 West North Avenue • Baltimore, Maryland 21216-3698 • Tel. (410) 951-3838 • Fax (410) 333-5369

- With funds provided by the grant, hire and manage a paid coordinator dedicated to this initiative;
- Assure that all employees who supervise any youth meet the state's Department of Public Welfare regulations for employees working with children and youth;
- Coordinate community adoption activities for Digital Connectors;
- Promote the program through our website, newsletters, flyers, and meetings with government and social service agencies;
- Generate and participate in media activities in support of the project.

We appreciate this opportunity to support One Economy and the Broadband Opportunities Coalition in its endeavor to continue to expand its record of success in digital access issues for the underserved in rural and urban communities. With the support of BTOP, One Economy and its partners will work together to provide broadband education, awareness, training, and support in communities across the nation.

Washington, DC 20230

To Whom It May Concern:

I am writing this letter to confirm the commitment of Moss Point School District to partner with One Economy and the Broadband Opportunities Coalition in support of the implementation of its programs as described in the enclosed proposal to the National Telecommunications and Information Association (NTIA) Broadband Technology Opportunities Program (BTOP) for Sustainable Adoption.

We are fully in agreement with the mission of One Economy and we have long recognized the crucial role that technology can play in helping low-income individuals advance their own and their children's education, obtain job skills, learn about employment opportunities, and improve their health. Like One Economy we have a mission in our district and that is "*To Graduate Empowered World-Class Citizens*". We are pleased and excited to offer our support to One Economy as the local host organization for a Youth Digital Connector program. We understand that many students have additional responsibilities in the afternoon, therefore we have adopted the program and will become a part of the classroom instruction and aligned to our Broadcast and Print Journalism classes pacing guides.

As a partner of this grant, Moss Point School District will commit to:

- Providing computer labs and equipment in secure buildings preferably with onsite parking and ease of access to public transportation for the delivery of the Digital Connector program and the corresponding community broadband adoption activities;
- Attracting and recruiting youth ages (14-21) required to participate in the program and deliver the planned community broadband adoption activities to the underserved or unserved residents in our community;
- Hiring and managing a paid coordinator dedicated to this initiative;

-
- Assuring that all employees who supervise any youth meet the state's Department of Public Welfare regulations for employees working with children and youth;
 - Coordinating community adoption activities for Digital Connectors;
 - Promoting the program through our website, newsletters, flyers, and meetings with government and social service agencies;
 - Generating and participating in media activities in support of the project

Upon award of the grant, Moss Point School District commits to providing \$10,000 in support of One Economy's proposal to BTOP to support our local Digital Connector program. These funds will be used cover expenses for additional materials and equipment as well as the staff time that will be dedicated to the program.

We appreciate this opportunity to support One Economy and the Broadband Opportunities Coalition in its endeavor to continue to expand its record of success in digital access issues for the underserved in rural and urban communities. With the support of BTOP, One Economy and Moss Point School District together will provide broadband education, awareness, training, and support in communities across the nation.

Sincerely,

Stephanie Packer

URBAN STRATEGIES

August 11, 2009

Mr. Rey Ramsey
Chief Executive Officer
One Economy Corporation
1220 19th Street NW
Washington D.C. 20036

Dear Mr. Ramsey,

Urban Strategies, Inc. (US) is pleased to partner with and support One Economy Corporation (OE) and McCormack Baron Salazar (MBS) in this proposal to offer internet access and broadband adoption services to low-income households residing in several HOPE VI and other mixed -income properties operated by MBS across the nation.

With funding from the Broadband Technology Opportunities Program (BTOP), OE will offer two years of free high-speed internet services to thousands of socioeconomically disadvantaged families; culturally sensitive and user-friendly internet content on a wide variety of topics; and, computer training, technical support, network maintenance and education necessary for residents to take maximum advantage of freely available broadband services.

As a strong non-profit human capital building partner to MBS in all of HOPE VI and mixed-income developments, US currently offers a variety of technology resources and community support services that are designed to strengthen vulnerable families and assist them in achieving socioeconomic self-sufficiency. Leveraging these existing resources, US will collaborate with OE to –

1. Support OE in helping low-income individuals advance their own and their children's education, obtain job skills, learn about employment opportunities and improve their health literacy by employing a variety of internet-based tools and resources, including OE's websites <http://www.thebeehive.com> and <http://www.pic.tv>.
2. Introduce and integrate the OE Digital Connectors youth program at affordable housing developments to increase technology knowledge and create a culture of use in these neighborhoods. Urban Strategies will integrate all essential features of Digital Connectors as well as the Digital Connectors brand with programming that is offered to teens at the following 5 sites: Renaissance Place at Grand; Jefferson Elementary School (serving Murphy Park, O'Fallon Place, the Brewery); Harmony Oaks/C.J. Peete; Pueblo del Sol; and Richmond Village.

In the above listed housing communities, US will commit to:

- Sustaining and nurturing existing relationships with community anchor institutions and other partners to provide access to computer labs and equipment in secure buildings with onsite parking and ease of access to public transportation for the delivery of OE's Digital Connector program and the corresponding community broadband adoption activities described above;
- Attracting and recruiting youth ages (14-21) required to participate in the Digital Connectors program and deliver the planned community broadband adoption activities to the underserved and un-served residents in our communities;
- Hiring and managing a paid coordinator dedicated to this initiative;
- Assuring that all employees who supervise any youth meet the state's Department of Public Welfare regulations for employees working with children and youth;
- Promoting the program through our website, newsletters, flyers, and meetings with government and social service agencies; and
- Generating and participating in media activities in support of the project

Upon award of the grant, US has committed to offering the following resources in support of OE's Digital Connectors program:

Renaissance Place at Grand (St. Louis)

- \$12,500 St. Louis Housing Authority/HUD - Neighborhood Networks equipment grant
- \$18,000/year from MBR for utilities, receptionist, maintenance, and janitorial costs for lab facilities
- \$22,000/year from Technology and Community Youth Employment Program (TCYEP) grants

COVAM (St. Louis)

- \$2,500/year from St. Louis Public Schools (SLPS) for computer-aided Adult Basic Education
- \$6,000/year in educational software for GED preparation (PLATO) provided by SLPS
- \$18,000/year from SLPS for utilities, receptionist, maintenance and janitorial costs for lab facilities
- \$4,000/year provided by Urban Strategies (US) for technology equipment
- \$2,500/year provided by US for hardware upkeep
- \$10,000/year provided by MBR for Summer Youth Employment Program

Harmony Oaks/C. J. Peete (New Orleans)

- \$37,000 in technology resources from Housing Authority of New Orleans (HANO)/Resident Council (HUD-Ross grant)
- \$13,333/year from Resident Council for utilities, receptionist, maintenance and janitorial costs for labs

Pueblo del Sol (Los Angeles)

- \$13,500 one-time contribution by MBA for technology equipment
- \$21,500 provided by MBA for utilities, receptionist, maintenance and janitorial costs for lab facilities

Through this ambitious initiative, US and OE seek to generate considerable value for broadband services among low-income communities, and create sufficient demand and willingness to pay for affordably priced broadband services from private ISPs within the two-year lifetime of the BTOP grant.

We appreciate this opportunity to support One Economy and the Broadband Opportunities Coalition in its endeavor to continue to expand its record of success in digital access issues for the underserved in rural and urban communities. With the support of BTOP, One Economy and Urban Strategies together will establish a viable broadband-integrated community development model that can be replicated by other organizations serving low-income families and distressed urban core communities, especially HOPE VI communities, across the nation.

Sincerely,

Susan K. Glassman
