

BTOP Comprehensive Community Infrastructure Service Area Template

Please complete the complete the CCI Service Area worksheet. In each line you will provide t service area and one of the contiguous Census tracts or block groups that make up that servic provide full 11-digit Census tract numbers, includes the 2-digit State FIPS code, the 3-digit co followed by a unique 6-digit tract number. For Census block groups, please provide the full t plus the 1-digit block group number (12 digits total). If there is more than one Census tract o a service area, there will be multiple lines in the table for that service area. It is critical that t names provided in this table match with the service area names provided in the Service Area the application. Please review this document and Service Area Details page for consistency b your application.

Important Note: Excel truncates leading zeros from numbers. Consequently, the tract/block g the worksheet has been formatted as text. This formatting should not be altered, or the valid may be compromised.

The data provided via this template will be subject to automated processing. Applicants are t required to provide this upload as an Excel file, and not to convert it to a PDF prior to upload. applicants should not modify the format of this file (e.g. by adding or removing worksheets). blank lines in the table between service areas.
